

The Department of Student Services supports student engagement and learning by developing functional and academic competence in each student through identification, evaluation, and treatment of children with suspected and identified special education deficits. These wide range of Special Education Services for eligible students who have been identified through an Individual Educational Planning Team meeting as qualifying for these services according to State Special Education Rules include the following areas:

- Speech-language therapy
- School Social Work
- Occupational Therapy
- Physical Therapy
- Assistive Technology
- Psychological

For more information regarding these services, please contact your school administrator. For more information regarding services for children 3-5 years of age, you may contact the [Early Childhood Center](#) or our office directly at 734-697-9123.
