

Credit by Exam Information

The state's education law, the Texas Administrative Code (TAC), will allow El Campo public school students to obtain credit in a course or grade level by passing tests approved by school district trustees.

Texas law, 19 TAC Chapter 74, allows students to "test out of a course" by taking a "Credit by Examination" without prior instruction in the course(s) being tested. To earn credit for a grade or a subject the student must answer 90 percent of the questions correctly.

Registration applications may be picked up in the Counselor's office of your child's school.
