## 2022-23 Phase One: Executive Summary for Schools

### Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Arlie Boggs Elementary School is the smallest school in our district with only 121 students. The school is located in Eolia, KY and is the only school on the south side of the state's second highest mountain, Pine Mountain. This isolates our school and community from the rest of the district often restricting activities that are available to our students. Our community has suffered a loss in coal mining jobs over the past several years. The school is the center of the community and is supported by it's people. Public events such as games, festivals, and gatherings are the only community interaction opportunities our residents have available. There is a strong sense of pride in our little school and our accomplishments have been huge, thus our slogan "The little school that does BIG things." ABE has a highly qualified and caring staff that has an average of 5-10 years experience. Some of our staff began his/her career here and have never had a desire to leave. Our culture and family like atmosphere is unlike any other and creates a desire to make ABE a long term place of employment.

### School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

The mission of Arlie Boggs Elementary School is to focus the efforts of all staff, in partnership with parents and community members to assist all students to become proficient and to assure that each child is given the maximum opportunity to achieve at high levels.

### Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

The 2019 KPREP results using the 5 star system categorized both the elementary and middle school as a 4 star school. We are the only 4 star elementary school in the district. In an effort to reach 5 star status we must continue to close the achievement gap in our sub populations and continue to show categorical growth for each student. Of course the pandemic caused the 2020 KPREP test to be cancelled. Our school was featured on the CBS Morning News with Jim Axelrod for our commitment of excellence to our students and community. Our school culture

left a lasting impression on producers and anchors, as well as, many individuals nationwide who contacted us after the showing. Early in 2020 school year our school was awarded with the honor of being labeled one of America's Entrepreneurial schools. We were the first in our county to attain this status. We are home to the middle school girl's archery state champion and runner up in the nation. We pride ourselves in the individual accomplishments of our students. We have shown great resilience during the pandemic ensuring that we were able to reach 100% of our students through virtual learning by providing internet access to two households that had no internet service. We were able to become a one to one school before any other school in our district. The current pandemic situation has drastically affected our attendance rates that historically have been the best in the region. This is an area of focus and continuous improvement needed for us.

#### Additional Information

**CSI/TSI (including ATSI) Schools Only:** Describe the procedures used to create the school's improvement plan and briefly state the specific efforts to address the causes of low student performance and resource inequities.

N/A

#### Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

Arlie Boggs continues to be the only school to offer the National Junior Beta Club to it's students. Our school is honored to be a Beta School of Distinction. Our archery team qualified for it's second trip to the state archery tournament. We are very proud of them.
