

Ridgedale FFA

Blue Jacket Journal

January 2019

Starting on January 3rd, the Ridgedale FFA chapter started their archery unit in class. Here they first learn proper code of conduct when using a bow to ensure that the range is safe and mishap free. Once having an understanding of proper use of bows, the students started to use them. Here they are positioned behind a line 15 meters away from the target and start shooting while the instructor watches the students to make sure everyone is properly using the bows.
