

## Apptegy Parent Notification System

Dear Parents,

GPS utilizes the *Apptegy* Parent Notification System for making mass phone calls to parents. Please note the following regarding *Apptegy* procedures:

- *Apptegy* will be used to keep you as informed as possible. Please make sure your information on Infinite Campus is up-to-date so you can get the correct notifications.
- The GPS Facebook page ([www.facebook.com/glendiveschools](http://www.facebook.com/glendiveschools)), GPS Twitter page (<https://twitter.com/glendiveschools>) and the GPS webpage ([www.glendiveschools.com](http://www.glendiveschools.com)) will also be used.
- Any and all parental numbers in the Infinite Campus student information system will be called. Contact information must be current in order for *Apptegy* to work.
- When the phone rings and is answered, the message is triggered by someone saying something like “hello”. By saying “hello,” the system will begin to play the message.
- If you miss the call, it will leave a message if your voicemail is activated and working. Please listen to the message instead of dialing the number back. If the message is unclear, please check the our app, website, your text message, Twitter and/or Facebook page for more information.
- You may receive a message that doesn’t pertain directly to you. For example, we may need to notify bus students of route issues, but have to send to all students of a particular school.
- The system will not call extensions so if you have a phone number listed in Infinite Campus with an extension, you may not receive the call.
- Please make sure your numbers are current so you receive calls. Call your student’s school for help with this process.

Sincerely,

Stephen Schreibeis  
Superintendent  
Glendive Public Schools
