Concussion Information	
Concussion is a brain injury. Concussions, as well a acceleration, a blow or a jolt to the head, or by a bl of all concussions occur without loss of conscious appear. All concussions are potentially serious and, a "ding" or a bump on the head can be serious. If	is all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or ow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% ness. Signs and symptoms of a concussion may show up right after the injury or can take hours or days to fully, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even your child reports any symptoms of concussion, or if you notice the symptoms or signs of a concussion yourself, ay, evaluated by a medical professional and cleared by a medical doctor.
Signs and Symptoms of a Concussion	
Concussion symptoms may appear immediately aft	rer the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer e athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion
*Emotions out of proportion to circumstances (inap	
*Headache or persistent headache, nausea, vomitir	ng en
*Altered vision *Sensitivity to light or noise *Delayed verbal and motor responses *Disorientation, slurred or incoherent speech *Dizziness, including light-headedness, vertigo (spir *Decreased coordination, reaction time *Confusion and inability to focus attention *Memory loss	nning) or loss of equilibrium (being off balance or swimming sensation)
*Sudden change in academic performance or drop	in grades
*Irritability, depression, anxiety, sleep disturbances *In rare cases, loss of consciousness	
DANGERS if your child continues to p	play with a concussion or returns too soon:
Athletes with signs and symptoms of concussion sh concussion leaves the young athlete especially vul first concussion have resolved and the brain has h	ould be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a nerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the lad a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early
Steps to take if you suspect your	child has suffered a concussion:
Any athlete suspected of suffering a concussion she concussion, regardless of how mild it seems or how In Florida, an appropriate health-care professional physician (DO, as per Chapter 459, Florida Statutes)	ould be removed from the activity immediately. No athlete may return to activity after an apparent head injury or v quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic). Close observation of the athlete should continue for several hours. You should also seek medical care and inform a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit
Return to play or practice:	
Following physician evaluation, the <i>return to activi</i> protocol under the supervision of a licensed athleti	ity process requires the athlete to be completely symptom free, after which time they would complete a step-wise c trainer, coach or medical professional and then, receive written medical clearance of an AHCP. ions, visit http://www.cdc.gov/concussioninyouthsports/ or http://www.seeingstarsfoundation.org
Statement of Student Athlete Res	ponsibility
Parents and students should be aware of prelimina to abnormal brain changes which can only be see development of Parkinson's-like symptoms, Amyot related to concussion history. Further research on t I acknowledge the annual requirement for my child reporting all injuries and illnesses to my parents, te have read and understand the above information of	in y evidence that suggest repeat concussions, and even hits that do not cause a symptomatic concussion, may lead non autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the rophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be this topic is needed before any conclusions can be drawn. Id/ward to view "Concussion in Sports-What You Need to Know" at www.nfhslearn.com . I accept responsibility for am doctor, athletic trainer, or coach associated with my sport including any signs and symptoms of CONCUSSION. I on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any test symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child.

PARENT & ATHLETE CONCUSSION INFORMATION SHEET

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

DID YOU KNOW?

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

SYMPTOMS REPORTED BY ATHLETE:

- · Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- · Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- · Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

SIGNS OBSERVED BY COACHING STAFF:

- · Appears dazed or stunned
- · Is confused about assignment or position
- · Forgets an instruction
- Is unsure of game, score, or opponent
- · Moves clumsily
- · Answers questions slowly
- · Loses consciousness (even briefly)
- · Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- · Can't recall events after hit or fall

"IT'S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON"

CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- · One pupil larger than the other
- · Is drowsy or cannot be awakened
- · A headache that gets worse
- · Weakness, numbness, or decreased coordination
- · Repeated vomiting or nausea
- Slurred speech
- · Convulsions or seizures
- Cannot recognize people or places
- · Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

- If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
- Rest is key to helping an athlete recover from a
 concussion. Exercising or activities that involve a lot of
 concentration, such as studying, working on the computer,
 and playing video games, may cause concussion symptoms
 to reappear or get worse. After a concussion, returning to
 sports and school is a gradual process that should be
 carefully managed and monitored by a health care
 professional.
- Remember: Concussions affect people differently. While
 most athletes with a concussion recover quickly and fully,
 some will have symptoms that last for days, or even
 weeks. A more serious concussion can last for months or
 longer.

WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.

MIDDLE SCHOOL ATHLETIC CONFERENCE RULES AND REGULATIONS (CONDENSED)

Dear Parents:

Please read the rules at the bottom of this sheet then sign the top half of the sheet. Also, detach the bottom for your copy. We have read and understand the condensed rules of the OCMSAC on this form. We know of no reason why the student should not be eligible to participate in OCMSAC athletics and the student agrees to follow the rules of his/her school and the OCMSAC. We understand the risks that are associated with participating, including serious injury and even death. We voluntarily accept any and all responsibility for the student's safety while participating and agree to take no legal action against the OCMSAC, the Okaloosa County School District and/or employees and/or representatives of the Okaloosa County School District.

ATTENTION STUDENT AND PARENT(S)/GUARDIAN(S)

Your school is a member of the Okaloosa County Middle School Athletic Conference (OCMSAC) and follows established rules. A school district or charter school may not delay eligibility or otherwise prevent a student participating in controlled open enrollment, or a choice program, from being immediately eligible to participate in interscholastic and interscholastic extracurricular activities.

To be eligible to represent your school in interscholastic athletics a student must:

- 1. Must be regularly enrolled and in regular attendance at your school. If the student is a home school student or attends a charter school, the student must declare in writing his/her intention to participate in athletics to the school at which the student is permitted to participate.
- 2. Must maintain a minimum 2.0 grade point average on a 4.0 scale and pass 5 subjects for the grading period immediately preceding participation or student eligibility for the first grading period for each new school year shall be based on passing 5 subjects and eligibility determined by their first grading period.
- 3. Must participate at the school in which the student is enrolled (attends), or at which the student first takes part in an athletic Practice or try-out, during the school year.
- 4. Once a student has been reported for eligibility in a particular activity, he/she may not become eligible in any other activity until the season for the activity in which he/she was reported eligible has ended.
- 5. Must not participate on a non-school team which is affiliated with a school or coached by a representative of a school other than the one the student attends or has attended and then attend that school, otherwise the student will be ineligible there for one year.
- 6. The limit of eligibility for each student shall be six (6) consecutive semesters from the time the student initially enters the sixth grade.
- 7. Must have signed permission to participate from the student's parent(s)/guardian(s) provided to the school.
- 8. Any student who becomes 15 years of age on or after September 1 may participate in interscholastic athletics during the entire school year so far as age is concerned. However, any student who becomes 15 years of age on or before August 31 shall be ineligible for one year.
- 9. Must undergo a pre-participation physical evaluation and be certified as being physically fit for participation in interscholastic athletics. The physical evaluation is valid for 365 calendar days from the date that it was administered after which time the student must successfully undergo another physical evaluation to continue his/her participation.
- 10. Must be an amateur. This means the student must not accept money, gift or donation for participating in a sport, or use a name other than his/her own when participating.
- 11. Must display good sportsmanship and follow the rules of competition before, during and after every contest in which the student participates. If not, the student may be suspended from participation for a period of time.
- 12. Must not provide false information at his/her school.
- 13. Foreign exchange and international students must be approved by the Okaloosa County Middle School Athletic Conference Committee prior to any participation.
 - *If the student is declared or ruled ineligible due to one or more of the rules of OCMSAC, the student has the right to request that his/her school file an appeal on behalf of the student. See your principal or athletic director for information regarding this process.
