

TIME TO APPLY!

2023-24

CRESTVIEW ROBOTICS FTC TEAMS

WHO	We Need YOU!	2023-2024 FTC Teams Application Deadline
Requirements	7th-12th Grader; Min. GPA 2.5	04/25/2023
Cost	\$200 Registration	

WELCOME TO FTC

It is time to prepare for the 2023-2024 Crestview High School FTC Robotics season! We are excited that you are interested in joining one of our 2023-2024 FTC teams! This year's application is open to both returning FTC members along with new members (7th-12th grade). Please scan the QR code to apply!

The FTC Robotics teams are practical learning teams for students interested in STEM (Science, Technology, Engineering, Math) including robotics. STEM concepts are found and utilized in planning, designing, building, programming, and operating the robots. We will participate in several events throughout the year as we progress through the season hopefully leading to the World Championship competition in April 2024. Crestview Robotics Teams require much effort put forth on your part in order to prepare properly for competitions. Meetings will be held according to the season/team needs. More practices will be added, IF NEEDED, during weeks prior to competitions. Students may be dismissed from Robotics due to grades, behavior, or consistent absences from practice. There will be no refund of membership fee if this happens.

The membership fee of \$200 for each student is to participate in Crestview High School Robotics FTC ONLY. A separate application and membership fee will be available later in the year for the FRC Robotics team. The membership fee helps to cover costs such as the purchase of playing field components, team registrations, team shirts, travel, food and competition registration fees. There may be additional fees throughout the season primarily associated with travel for the teams. Fundraising opportunities to help cover the remaining expenses are a requirement for ALL team members to participate to allow us the financial support to compete at our highest level throughout the season. We look forward to a great 2023-2024 Crestview High School FTC Robotics season!

Sincerely,

Mr. Tim Sexton
