Eligibility

Applicants must be

- (1) dependent* children of active, full-time Military Members who work 32 hours or more per week and have at least one year of service by the application deadline date or honorably discharged US Military Veterans at ASUS-served locations; and
- 2) High school seniors or graduates, or undergraduate students, who plan to enroll or are currently enrolled in a full-time** undergraduate course of study in technology, environmental science, environmental engineering, biology or chemistry, medical sciences, mathematical sciences, business management or acquisition and contract management at an accredited two-year or four-year college or a vocational-technical school.

Program Summary

American States Utility Services, Inc. and its wholly-owned subsidiaries (ASUS, Inc.) is excited to announce that it has established The ASUS, Inc. Scholarship Program to assist dependent US Military members or honorably discharged US Veterans at ASUS-served locations. Renewable scholarships are offered each year for full-time study at an accredited institution of the student's choice.

The program is administered by Scholarship Management Services, a division of Scholarship America. Scholarship Management Services is the nation's largest designer and manager of scholarship and tuition reimbursement programs for corporations, foundations, associations, and individuals. Awards are granted without regard to race, color, creed, religion, sexual orientation, gender, disability or national origin.

**Dependent children include unmarried, natural, or legally adopted children, stepchildren, and any other children for whom the Military member has been appointed legal guardian.*

***Full-time study is defined as carrying a full course load for the entire upcoming academic year.*

Awards

If selected as a recipient, the student will receive a \$2,500 award. Up to seven awards will be granted each year.

Awards may be renewed for up to three additional years or until a bachelor's degree is earned, whichever occurs first. Renewal is contingent upon satisfactory academic performance in a full-time course of study (maintaining a cumulative grade point average of 2.5 on a 4.0 scale or the equivalent), continued military employment of the student's parent (US Military veterans verification upon initial award only), and continuation of the program by ASUS, Inc.

Awards are for undergraduate study only.
