MISSION/VISION STATEMENT

FES students experience a positive, healthy learning environment that empowers them to become responsible and productive citizens.

STUDENTS' RIGHTS AND RESPONSIBILITIES

The Fordyce School Board believes that students have rights that should be considered and respected. It also believes that every right carries with it certain responsibilities.

Students have the right to a quality education and the responsibility to put forth their best efforts during the educational process. Students have the right to expect school personnel to be qualified in providing their education. Students have the responsibility to respect the rights of other students and all persons involved in the education process.

If all rights and responsibilities of all individuals are clearly understood, the elements of respect and cooperation will result in the harmonious and constructive education of the students.

If the policy guidelines adopted by the board are to be successful, it must be understood that school officials and teachers have the authority to interpret and to apply them in a given situation. Students must obey any such interpretation subject to an appeal.

STANDARDS OF CONDUCT

Below each rule is a standardized list of disciplinary actions to be taken. This list will normally be adhered to in numerical order after each occurrence; however, once again, the administration may exercise more extreme action in severe situations or in situations in which a student has been involved in other infractions.

Students have the right to:

- Participate in patriotic exercises or refrain from participating.
- Be secure in their persons, papers, and effects against unreasonable searches and seizures and have privacy in regard to their personal possessions unless there is a reasonable suspicion that the student is concealing materials prohibited by law.
- Determine their own dress, except where such dress is unsafe or so distractive as to clearly interfere with the teaching and learning process.
- **Students have the responsibility to:**
- Attend classes daily, be on time for all classes, and obey school rules.
- Foster good human relations within the school by practicing courtesy and tolerance in their dealings with each other and members of the school staff and respect the dignity and worth of others.
- Refrain from libelous, slanderous remarks, and obscenities.
- Develop tolerance of viewpoints and opinions of others, recognize the right of individuals to form different points of view, and dissent in an orderly and respectful manner.
- Respect the rights of classmates who do not wish to participate.
- Respect the rights, property, and privacy of other students and school personnel; carry only those materials that are acceptable under law and which are not hazardous to person or property; and accept the consequences for articles stored in their lockers.
- Observe basic standards of cleanliness, modesty, and good grooming and wear clothing that contributes to their own health and safety as well as that of others.

Each student at Fordyce Elementary School must have personal responsibilities. One such duty is to cooperate with teachers so that their teaching efforts may be successful, and the student will work and achieve to the best of his or her ability. Another student obligation is to respect the rights of others in light of Fordyce Elementary School's purpose and educational needs. The student's rights are protected and his or her obligations are reflected in this handbook. Finally, each student will be held responsible for his or her own actions. Each of us are called to be responsible for our behavior and to accept the consequences for our actions.

ATTENDANCE

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school on campus and is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was out due to one of the following reasons and the student brings a written statement upon his/her return to school from the parent or legal guardian stating such reason:

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by their faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal; or
7. Participation in an FFA, FHA, or 4-H sanctioned activity.

It is the Arkansas General Assembly's intention that students having excessive excused absences be given assistance in obtaining credit for their courses.

Unexcused Absences

Absences not defined above or not having an accompanying note from the parent or legal guardian shall be considered as unexcused absences. At FFS students with 6 unexcused absences may be denied promotion or graduation at the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has 3 absences, his/her parents, guardians, or persons in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds 6 unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, guardian, or persons in loco parentis shall be subject to a civil penalty as prescribed by law.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to expulsion or out-of-school suspension shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to

suspend the former student's operator's license unless he/she meets certain requirements specified in the code.

Applicants for an instruction permit or for a driver's license by persons less than eighteen (18) years old on October 1 of any year are required to provide proof of a high school diploma or enrollment and regular attendance in an adult education program or a public, private, or parochial school prior to receiving an instruction permit. To be issued a driver's license, a student enrolled in school shall present proof of a "C" average for the previous semester or similar equivalent grading period for which grades are reported as part of the student's permanent record.

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page. **When a student has been absent from school, a note of explanation must be sent with the child to the teacher when he/she returns to school. The note must include: date, reason, parent signature, and phone number. Medical appointments require a note from the doctor.**

COMPULSORY ATTENDANCE

To enroll in a school in the District, the child must be a resident of the District as defined in District policy (see RESIDENCE REQUIREMENTS below), meet the criteria outlined in policy HOMELESS STUDENTS, be accepted as a transfer student under the provisions of policy, or participate under a school choice option, and submit the required paperwork as required by the choice option.

Compulsory attendance is required from ages 5 to 17 years old.

Students may enter kindergarten if they will attain the age of five (5) on or before August 1" of the year in which they are seeking initial enrollment. Any student who has been enrolled in a state-accredited or state-approved kindergarten program in another state for at least sixty (60) days, who will become five (5) years old during the year in which he/she is enrolled in kindergarten, and who meets the basic residency requirement for school attendance may be enrolled in kindergarten upon written request to the District.

Any child who will be six (6) years of age on or before October 1 of the school year of enrollment and who has not completed a state-accredited kindergarten program shall be evaluated by the district and may be placed in the first grade if the results of the evaluation justify placement in the first grade and the child's parent or legal guardian agrees with placement in the first grade; otherwise the child shall be placed in kindergarten.

Any child may enter first grade in a district school if the child will attain the age of six (6) years during the school year in which the child is seeking enrollment and has successfully completed a kindergarten program in a public school in Arkansas.

Any child who has been enrolled in the first grade in a state-accredited or state-approved elementary school in another state for a period of at least sixty (60) days, who will become age six (6) years during the school year in which he/she is enrolled in grade one (1), and who meets the basic residency requirements for school attendance may be enrolled in the first grade.

Students who move into the District from an accredited school shall be assigned to the same grade as they were attending in their previous school (mid-year transfers) or as they would have been assigned in their

previous school. Home-schooled students shall be evaluated by the District to determine their appropriate grade placement.

The district shall make no attempt to ascertain the immigration status, legal or illegal, of any student or his/her parent or legal guardian presenting for enrollment.

Prior to the child's admission to a District school:

1. The parent, guardian, or other responsible person shall furnish the child's social security number, or if they request, the district will assign the child a nine (9) digit number designated by the department of education.
2. The parent, guardian, or other responsible person shall provide the district with one (1) of the following documents indicating the child's age:
 - a. A birth certificate;
 - b. A statement by the local registrar or a county recorder certifying the child's date of birth;
 - c. An attested baptismal certificate;
 - d. A passport;
 - e. An affidavit of the date and place of birth by the child's parent or guardian;
 - f. United States military identification; or
 - g. Previous school records.
3. The parent, guardian, or other responsible person shall indicate on school registration forms whether the child has been expelled from school in any other school district or is a party to an expulsion proceeding.
4. The child shall be age-appropriately immunized from poliomyelitis, diphtheria, tetanus, pertussis, red (rubeola) measles, rubella, and other diseases as designated by the State Board of Health, or have an exemption issued by the Arkansas Department of Health. Proof of immunization shall be by a certificate of a licensed physician or a public health department acknowledging the immunization. Exemptions are also possible on an annual basis for religious reasons from the Arkansas Department of Health.⁴ To continue such exemptions, they must be renewed at the beginning of each school year.

RESIDENCE REQUIREMENTS

"Reside" means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

"Resident" means a student whose parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside in the school district.

"Residential address" means the physical location where the student's parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside. A student may use the residential address of a legal guardian, person having legal, lawful control of the student under order of a court, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty-one (21) years whose parents, legal guardians, or other persons having lawful control of the person under an order of a court reside within the District and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parents or guardians for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District's schools separate and apart from his or her parents, guardians, or other persons having lawful control of him or her under an order of a court, the person must actually reside in the District for a primary purpose other than that of school attendance.

The children or wards of any person who is at least a half-time employee of this district but reside in another district are eligible to enroll in District schools.

PRESENTING A FRAUDULENT EXCUSE

A fraudulent excuse means one signed by some person other than the person whose name appears as signer, or one which gives some reason for the absence other than the true one — may be grounds for suspension. Any person signing such an excuse, if a student, may also be subject to suspension.

THE SCHOOL DAY FOR STUDENTS

The school day for students begins at 7:50 a.m. and ends at 3:10 p.m. Children should not arrive at school **before 7:30 a.m. each morning**. All non-bus students will be expected to leave immediately after the dismissal bell in the afternoon. No **student, having once arrived at school, will leave school premises at any time during the day without first receiving permission from the principal's office**. If students are noticed arriving before 7:30am without **parental supervision, the parents of those students will be contacted to address this issue**. **If a parent comes to school to pick up a child, they must first report to the main office of the building that the student is in. Pre-K-1-Patterson Building, 2-6-Wallace Building. If a student is checked out before 2:00 p.m. they will be charged with a 1/2-day absence.**

TARDIES

There are few reasons for an excused tardy. If a student is tardy, he will be given an unexcused tardy, except in the event of an unforeseeable accident verified by parents. (This does not mean oversleeping, running late, etc.) This slip will be given to the homeroom teacher. If a student is not her by **8:00 am** he/she will be considered tardy.

A student will be allowed two (2) tardies (excused or unexcused) per nine week grading period. The parent/guardian will receive notification when the student has two tardies. The fifth tardy and all subsequent tardies will result in the student being counted absent for $\frac{1}{2}$ day. This will count against the student's days allowed for the semester. If your child is tardy it is the parent/guardian's responsibility to come into the office to sign your child in.

TRANSFERS

The Fordyce School District shall review and accept or reject requests for transfers, both into and out of the district, on a continuing basis. The district may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another district to enroll as a student until the time of the person's expulsion has expired.

The responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

Any student transferring from a school accredited by the State Department of Education to a school in the Fordyce School District shall be placed into the same grade the student would have been in had the student remained at the former school.

Any student transferring from a home school or a school that is not accredited by the State Department of Education to a school in the Fordyce School District shall be evaluated by the staff of that school to determine that student's proper placement.

The Board also reserves the right to deny any request for transfer that might adversely affect the receiving districts' racial or special needs populations.

A first grade student who has not attended kindergarten will be given a reading survey test to determine grade placement. If the child scores at the kindergarten level, the child may be placed in kindergarten rather than first grade.

ACT 144 of 2003 provides that when any person owns a tract of land on which the person resides and which tract of land is located partially in one (1) school district and partially in another, the school-age children of that person shall attend school in the school district in which the residence is located. Exception: When a person owned an undivided tract of land on which that person domiciled for ten (10) or more years prior to August 13, 2001, and which undivided tract of land is located partially in one school district and partially in another, the school-age children of that person, and those of his or her successors in title, shall be eligible to attend the school in either of the districts, regardless of the location of the home on the property.

SCHOOL CHOICE

The superintendent will consider all applications for School Choice postmarked no later than the May 1 proceeding the fall semester the applicant would begin school in the District. The superintendent shall notify the parent or guardian and the student's resident district, in writing, of the decision to accept or reject the application within 30 days of its receipt of the application.

The District shall advertise in appropriate print and broadcast media to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline and the requirements and procedure for participation in the program. Such pronouncements shall be made in the spring, but in no case later than June 1.

When considering applications, priority will be given to applications from siblings or stepsiblings residing in the same residence or household of students already attending the District through school choice.

The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation. Letters of rejection shall state the reason(s) for the rejection.

The Board of Directors reserves the right, after a hearing before the board, not to allow any person who is currently under expulsion from another district to enroll in a District school.

Students admitted under this policy shall be entitled to continued enrollment until they graduate or are no longer eligible for enrollment in the District's schools. Any student admitted to this district under the provisions of this policy who chooses to return to his/her resident district during the school year voids the transfer and must reapply for a school choice admission if desiring to return to this district in the future.

NONDISCRIMINATION

It is the policy of the Fordyce School District to provide equal opportunities without regard to race, color, national origin, sex, age, qualified handicap, disability, religion, or veteran in its educational services, financial aid, and employment.

Inquiries concerning application of this policy may be referred to:

- All persons who seek the advice and assistance of the equity coordinator shall have explained to them the informal and the formal grievance procedures available to them through the school district as well as the existence of external complaint procedures available through state and federal agencies.

CHANGE OF ADDRESS OR PHONE NUMBER

Any change of address or phone number should be reported to the office immediately. It is vital that the office be able to get in touch with you in the event of illness or an emergency.

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

The Board recognizes that extracurricular activities when properly planned and conducted in an appropriate, safe environment; represent an essential part of the educational experience. The Board supports such extra classroom activities and will attempt to make them available on a voluntary basis to the students. It is the Board's goal to provide each student with a balanced program of academic studies and extracurricular activities to be determined by the school, parents and the students.

Extracurricular activities will be organized, supervised activities conducted under the auspices of the school system, the local school or an element thereof and on school property, which primarily involve students in other than a classroom situation and for which no credit separate from an approved course shall be given.

The following may be considered extracurricular activities:

1. Student government and its related activities and organizations
2. Musical festivals or contest, speech contests, debates and dramatic contests
3. Organized activities which are part of interscholastic activities
4. All types of interscholastic competition
5. Special interest clubs

The Board will approve specific extracurricular activities through the authority it extends to school principals to authorize and administer them in keeping with this policy and Board approved regulations.

The school principal will serve as coordinator of student extracurricular activities. The principal will provide for the necessary staff development and training for faculty sponsors and officers and leaders of organizations.

A faculty sponsor will be appointed to each activity. Sponsors will not absent themselves from class time to supervise any activity except as authorized by the principal.

There will be categories of extracurricular activities: (1) those which meet during a period or periods listed on the daily schedule and (2) those which meet partially or wholly at a time outside the regular school hours. Activities will not require that participants be frequently absent from regularly scheduled classes. Excessive expenditures of time and effort will be discouraged.

Membership will be limited to students enrolled in school. Organizations or activities that restrict membership because of race, creed or color are forbidden.

Activities sponsored by outside agents will be carefully reviewed and approved by the principal for participation if they are to be cosponsored by the school. Care will be taken to ensure that organizations sponsoring activities are not using the activity for advertising a company or agency name or a product.

Every effort will be made to prevent extracurricular activities from unduly interfering with the regularly scheduled school day. Participants will not be permitted in activities that may cause a school to violate state accreditation standards, regulations of the Arkansas Activities Association or other such organizations.

Scheduling of an activity period shall not reduce instructional time for any one class to less than 250 minutes weekly.

4.44—NATIONAL ANTHEM

Each school in the District shall broadcast The Star-Spangled Banner at:

- The commencement of each school-sanctioned sporting event; however, if two (2) or more school-sanctioned sporting events occur on the same day at the same school, then the broadcast of The Star-Spangled Banner may be performed at only one (1) of the events; and
- At least one (1) time each week during school hours.

The broadcast of The Star-Spangled Banner shall be selected from any recording that adheres to the Division of Elementary and Secondary Education (DESE) Rules, or, when appropriate, performed from original sheet music that adheres to DESE rules by:

CONDUCT AT SPORTING EVENTS

The 8AAA Conference supports good sportsmanship and desires that good sportsmanship be displayed by all concerned at all conference extracurricular activities. It is the desire of the conference to have all persons involved in any contest display positive behavior toward all others. Negative behavior in any form directed toward anyone present at the contest is highly discouraged and should not be exhibited.

Although the hometown administration is in charge of crowd control and enforcing good sportsmanship, it is incumbent upon any supervisor at any game to assist in discouraging poor sportsmanship in any form. Consequences for a person exhibiting poor sportsmanship could result in removal from the gym or contest area. In addition, if the behavior is determined to be severe, consequences could result in removal from all extracurricular activities for a period of up to one calendar year. School dress code is enforced at all extracurricular activities.

All students are to remain seated in the bleachers at all sporting events except for going to the restroom and visiting the concession stand and should be accompanied by an adult.

First Offense: Verbal Warning

Second Offense: Dismissed from ballgame

Third Offense: Dismissed from all ballgames for the remainder of the year

If a student is currently in ISS or serving OSS, he/she will not be permitted to attend a sporting event on the school campus. He /She will not be admitted into the game.

COUNSELOR

The counselor helps students, individually or in groups, to explore their needs, characteristics and differences in academic, career, personal and social matters. Students may use the counseling services by personal request or by referrals from parents or guardian, teachers, or administration.

CURRICULUM

A unit of Arkansas History shall be taught at each elementary grade level in every public school in this state with greater emphasis at the fourth (4th) grade level. ARK Law ACT 787 of 1997.

The State Legislature has found that character and citizenship education must be strengthened in public schools to prepare young people for positive dealings in the social order of today. During the school year, the faculty will select a program or develop a program and implement it with our students. ARK Law 631-1997

SPECIAL EDUCATION

The district shall provide a free appropriate public education and necessary related services to all children with disabilities residing within the district, required under the Individuals with Disabilities Education Act ("IDEA"), Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and Arkansas Statutes. It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified,

evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in state and federal statutes which govern special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding handicapped students. Among the coordinator's responsibilities shall be ensuring district enforcement of the due process rights of handicapped students and their parents.

PERMANENT RECORDS

Permanent school records, as required by the Arkansas Department of Education, shall be maintained for each student enrolled in the District until the student receives a high school diploma or its equivalent or is beyond the age of compulsory school attendance. A copy of the student's permanent record shall be provided to the receiving school district within ten (10) school days after the date a request from the receiving school district is received.

GRADING

No student will be expected to perform beyond his ability, but every effort will be made to secure maximum performance. Each student is expected to advance from his present level of achievement as rapidly as possible. The school's policy is not to criticize because the quality of work is below average but to build future learning on the background of each child's past experience.

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that reflect other educational objectives such as student learning expectations contained in the curriculum frameworks may also be given.

GRADING SCALE:

First, Second, Third, and Fourth, Fifth and Sixth Grades

A = 100 to 90

B = 89 to 80

C = 79 to 70

D = 60-69

F = 59 or lower

Kindergarten (S-Satisfactory, NI-Needs Improvement, and U-Unsatisfactory)

S = 100 to 85

NI = 84 to 70

U = 69 to 0

HOMEWORK

Homework can be an important part of the student's education. Assigned work should be completed and returned. Homework will be checked for accuracy and used to determine if a skill should be re-taught. Every grade level will establish if homework is appropriate based on the needs of the student in each subject area. How homework is graded will be determined by each grade level.

HONOR ROLL

Each marking period, the counselor's office will release a list of those students meeting honor roll requirements. Any student, in second through sixth grade, with all A's or A's and B letter grades in all subjects of their report card will be placed on the honor roll.

REPORTING

In the Fordyce School District, the report card, progress reports, and parent/teacher conferences are used for informing parents about the progress of their child in school. The report card is issued every nine (9) weeks; the progress reports are issued each mid nine-week period; and, parent/teacher conferences are held twice during the school year. More frequent communication will be held with the parent(s) or guardian(s) of students not performing at the level expected for their grade. You are also able to access your child's grades on an ongoing basis by going to www.fordyceschools.org. Your child's student ID number is the user name and the password is your child's birth date. Finally, click on Fordyce Elementary to access the grades. Our office will be happy to assist you if you have any problems.

Teachers will communicate personally with the parent(s) or guardian(s) of each student through a personal conference, telephone conference, or a home visit, to discuss the student's academic progress.

All grade level conferences with parent(s) and/or guardian(s) shall be scheduled at a time and place to best accommodate those participating in the conference. The school shall document participation and nonparticipation in required conferences. If a student is to be retained at any grade level, notice of retention and the reasons for retention shall be communicated promptly in a personal conference.

At least (2) times per year, a district shall report in writing to the parent and each teacher of a student in kindergarten through grade eight (K-8) the independent reading level at which student is reading. ARK Law Act 940.

PROMOTION/RETENTION

Each student identified as not meeting satisfactory proficiency levels in the previous spring testing, interim assessments, teacher evaluation and other data related to academic performance will be required to participate in activities outlined in his/her academic improvement plan. (AIP) The district shall notify the student's parent of the parent's role and responsibilities as well as the consequences for the student's failure to participate in the plan.

Students that are in grades one through six (1-6) identified for an academic improvement plan shall participate in a plan outlined for each individual. If a student is not making adequate progress academically he/she could possibly be retained. All students in grades K-6 will be reviewed and monitored for progress throughout the school year for adequate progress. This information will be communicated to the parent/guardian during, progress reporting, conferences and other communication efforts made by the teacher/school

TEXTBOOKS

The state provides textbooks for K-12 students. This naturally necessitates certain rules and guidelines to the care of state-owned textbooks. Students should keep in mind that these books are loaned to them. Therefore, each student will be held accountable for the care of the books issued to him/her. The following guidelines will be adhered to in the Fordyce School District:

1. At the end of the year all textbooks will be turned in. Those students who have lost books will be required to pay the full price of the book as determined by the price list issued by the State Department of Education.
2. All new books are projected to last seven (7) years. Therefore, the value of the book will depreciate approximately $\frac{1}{7}$ or .143 of the original cost each year. Students who return books that have been abused (back off, back loose, dirty, pages torn or writing in the books) will be assessed a fine in proportion to the damage. If a student receives a new book this year, remember that six (6) other students will have to use that same book before it will be replaced.

POLICIES FOR STUDENTS RIDING SCHOOL BUS

Students who ride a bus should follow the school bus regulations given to students during the first week of school. These regulations and the school bus are under the supervision of the driver and all bus students must obey the bus driver at all times.

Bus students who are disciplined for not following bus rules must have a parent/guardian's signature on a bus discipline sheet or a parent/principal conference before riding a bus as specified in the Bus Policy Consequences. Suspension, loss of bus riding privileges, or other disciplinary actions may be imposed when students violate the regulations. The Fordyce School District reserves the right to discipline all students for violations of bus regulations based on the severity of the incident. **Riding a bus is a privilege, not a right.**

MEETING THE BUS:

1. Be at the bus stop at the scheduled time. Stand back about ten feet from the bus stop and wait until the bus door is opened before loading.
2. Respect the property rights of others while waiting for the bus; do not gather under citizens' carports or porches and on lawns without the owner's permission

ENTERING/LEAVING THE BUS:

1. While loading or unloading, enter or leave the bus orderly and quickly as directed by the bus driver.
2. Use the front door to enter or leave the bus. Use the bus's back door only in an emergency or as directed by the driver.
3. If you must cross the road, or highway, to enter the bus, try to always wait on the right side of the road for the bus. If you should arrive at the stop as the bus is approaching, wait until the bus has completely stopped, and the driver has signaled for you to cross in front of the bus. Cross 10 feet in front of the bus, in clear view of the driver.
4. Students who must cross the road after leaving the bus, in the afternoon, must go to a point on the shoulder of the road 10 feet in front of the bus.
5. If you drop any object (books, paper, or pencil) while leaving the bus, do NOT attempt to retrieve the object until the bus has left the area and the road is clear.

RIDING THE BUS:

1. While riding the bus students are under the supervision of the driver and must obey the driver at all times. The driver has the authority to temporarily suspend the student from riding the bus.
2. Students are expected to conduct themselves in such a manner that they will not distract the driver or disturb the other riders on the bus.
3. Knives, firearms, sharp objects, or pets are not allowed on the bus.
4. Students are not to deface the bus, or any school property. Do not litter and keep the aisle clear at all times.
5. Do not tamper with any of the safety devices, such as the door latches, fire extinguishers, etc. Students must remain seated until the driver directs unloading.
6. Do not ask the driver to let you off any place other than your assigned stop, unless the principal has approved.
7. Ride ONLY the bus on which you are assigned. Visitors are NOT allowed to ride buses, unless school officials first give permission.
8. ACT 729 of 1997 prohibits smoking on the bus.
9. It is against district policy to curse, threaten, or abuse a bus driver.
10. Students are not allowed to play radios, IPODS, cell phones or band instruments on the bus. IPods with earphones are permissible with school official's approval.

EMERGENCY EVACUATION PROCEDURES:

In an emergency, students should remain calm and quiet, and listen for instructions from the driver. Your driver will practice an emergency exit from the front door, the back door, and any other emergency exits to make the students knowledgeable in case of an emergency.

Upon leaving the bus in an emergency situation, students are to move off the roadway to a safe distance from traffic. Students should NOT cross the road unless instructed by the bus driver.

BUS POLICY CONSEQUENCES:

- FIRST OFFENSE: Warning letter will be sent and parent will be contacted.
- SECOND OFFENSE: Riding privileges suspended for three (3) days with parent/student/principal conferences before riding privileges are restored.
- THIRD OFFENSE: Riding privileges suspended for five (5) days with parent/student/principal conferences before riding privileges are restored.
- FOURTH OFFENSE: Riding privileges suspended for the rest of the semester with parent/student/principal conferences before riding privileges are restored.

**It is important that students understand the need for them to be cooperative on the bus. It is for their safety. If students fight while on the bus it is the transportation department and the principals' discretion as to whether immediate suspension will apply instead of the steps outlined above. No eating will be allowed on the bus. This will be a zero tolerance which will result in an automatic 2-day bus suspension.

CAR RIDERS

Car riders should be dropped off in the mornings and picked up in the afternoons in front of the elementary cafeteria. The students should promptly report to their classroom. No student should be dropped off before 7:30 a.m. We have no one on duty before that time to supervise students. Students will be picked up in front of the cafeteria. This is a one-way street. Four cars can be loaded at a time if you pull down as far as possible to pick your child up. Students must be picked up in the afternoon by 3:30 p.m. A F.I.N.S petition will be filed on parents that are consistently late picking up their children.

No students are to be dropped off or picked up from the Patterson parking area located behind the cafeteria.

STUDENT DISCIPLINE

Discipline is intended to foster student growth while assuring each student of an acceptable environment in which to learn. In keeping with the philosophy that discipline is a means of teaching and that most effective teaching is done in a positive manner, disciplinary efforts are to be done in as positive a manner as possible. Positive discipline means working with students, which includes individual discussion and counseling, involvement of students in defining acceptable behavioral standards, and involvement of the individual in cases where a student has exhibited a lack of responsibility or self-discipline. It is the student's responsibility to cooperate with the teachers at Fordyce Elementary School so that the teaching efforts may be successful. Each student will be held responsible for their behavior and must accept the consequences for their actions. Student discipline may range from a minimum of a verbal reprimand to a maximum of a recommendation for expulsion. When positive efforts have not succeeded in correcting a student's behavior in relation to their learning environment, the following measures may be authorized:

- Parent contact and loss of privileges which may include (recess, participation in activities, or loss of field trips.)
- Corporal punishment in accordance with Board regulations
- In-School Suspension (ISS)
- Out of School Suspension (OSS) of the pupil in accordance with Board regulations
- Expulsion of the pupil in accordance with Board regulations

These **measures are not listed in chronological order**. The Administration reserves the right to issue consequences in accordance to the severity of the infraction. The student has the right to be informed of the reason for corrective measures taken. Corrective measures should always be based on the necessity for helping the student make a better adjustment to the learning environment. The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school

discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to a felony or an act that would be considered a felony if committed by an adult, an assault or battery, drug law violations, or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights. A.C.A. 6-18-502, 6-17-113

PARENT CONTACT: (Communication)

Parent contact is made by telephone, conference, email or letter. Loss of privileges includes recess and participation in an activity. Home visits can be made for those students who disobey classroom or school rules. It is very important for the school and the parents/guardians to communicate with each other and hopefully it can be positive. If there are issues that require our attention, we ask that you give us an opportunity to solve it together as a team. This is the chain of command that we ask that you use, if you need to address personnel in the following order.

- 1) The teacher/staff member.**
- 2) The Principal or Assistant Principal.**
- 3) Superintendent.**
- 4) If you don't get resolution you may ask the superintendent to appear before the Fordyce School Board.**

It is the parents' or legal guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority.

- A primary call number
(The contact may be by voice, voice mail, or text message)
- An email address
- A regular first class letter to the last known mailing address

LUNCH DETENTION (K-4th)

Lunch detention is assigned by principal/assistant principal. This is for classroom or playground/cafeteria infractions. FES sets aside a Study Hall time for each grade level to complete unfinished class work. Study Hall is not to be used as a punishment but a tool to help students' complete work from class that is necessary for success. Lunch detention is not for finishing class work/home work.

AFTER SCHOOL DETENTION

After school detention will be assigned to 5th and 6th grade students by the principal/assistant principal. This is for classroom, cafeteria, and playground infractions. After school detention will be 3:15-4:15. Transportation will not be provided. Parents are responsible for picking their child up at 4:15.

CORPORAL PUNISHMENT:

The Board of Education recognizes that good discipline in a school results when students are taught in the home to respect the rights of others and to settle disagreements in an agreeable manner.

The Board recognizes the need for firmness in dispensing with any isolated problems calling for disciplinary action which occur in the classroom and during school activities, whether on or off the school premises. Accordingly, the Board expects:

1. That the principal and faculty for each school will always be in a position to take disciplinary action.
2. A school that provides a relevant curriculum taught by effective personnel in pleasant surroundings.
3. A community that provides constructive outlets for its youth. The School Board encourages and supports this positive approach for developing a desirable climate of discipline in the school.
4. That disciplinary action will contribute to the general welfare of the school or class as a whole and will be directed toward the positive improvement of citizenship of the group or individual involved.

Corporal punishment may be administered for cause, be reasonable, and follow warnings that the misbehavior will not be tolerated. It will be administered by a certified employee and only in the presence of a school administrator or his designee(s), who will be a teacher or administrator employed by the school district. Such punishment can be given to students for disruptive or unmanageable conduct; insubordination; profane, vulgar, violent, or insulting language or other conduct that would tend to disrupt the education process. ACT 333 of 1995

The Board directs that corporal (physical) punishment, when deemed necessary, will be administered according to the following additional requirements:

1. Acts of misconduct which are so antisocial or disruptive in nature as to shock the conscience. Corporal punishment will not be administered unless an attempt has been made to modify the pupil's behavior by some means other than corporal punishment, and unless the pupil has been told that a continuation or repetition of his or her behavior may lead to corporal punishment.
2. It will be administered in the presence of at least one other certified employee as a witness who will be advised in the presence of the student the reason for the punishment.
3. It will not be administered in the presence of other students or in a spirit of malice or anger or in excess.
4. It will be administered to the lower posterior only.
5. Refusal to take corporal punishment results in automatic out of school suspension.

IN-SCHOOL SUSPENSION:

ISS is a punitive program designed as an alternative to an out-of-school suspension. A student in attendance in the ISS program is counted present at school and is given the opportunity to complete his/her classroom work.

When a student is assigned to ISS he/she will be constantly supervised. Each student will be isolated from other students and will not be allowed to leave their assigned area except for restroom breaks. Lunches will be provided from the school cafeteria; however, students will be responsible for the cost of the meal. Students assigned to ISS may choose to bring their own meal.

- Students in the ISS classroom will not be allowed to visit with other students in any way and will not be allowed to speak without first getting permission from the ISS teacher.
- Any acts of insubordination or violence while serving in ISS will result in an Immediate out-of-school suspension.

Students that are habitual offenders of detention can be assigned to ISS by the Principal or the Assistant Principal. This will be based on behavior only, not things such as not finishing work, returning books, returning homework folders or turning in home work. Parents will be notified when this process starts by letter or phone contact.

STUDENT SUSPENSION: (OUT-OF-SCHOOL)

Authority to suspend a student is delegated to the building principal. The Fordyce Schools consider suspension of a student to be a very serious action.

- The principal may temporarily dismiss a student for disciplinary reasons from class or school.
 - The principal will determine whether to reinstate the student in class or take further disciplinary action.
 - The parent or guardian will be notified by letter of the reason(s) for suspension.
 - A principal/parent conference will be required before a student can be admitted unless the principal has been contacted and given satisfactory reasons why the parent or guardian cannot appear.
1. Students who are suspended will not be permitted on any school campus, to attend or participate in assemblies, athletic contests or any school-sponsored activity.

The district shall keep a log of contacts attempted and made to the parent or legal guardian. Act 159 of 2007 requires attempts at contacting parents be made first by phone. If such contact fails, then contact may be by email, and if that is unsuccessful, contact may be by regular first class mail. Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board. Suspensions initiated by the Superintendent may be appealed to the Board.

STUDENT EXPULSION:

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct deemed to be of such gravity that suspension would be inappropriate, or where the student's continued attendance at school would disrupt the orderly learning environment or would pose an unreasonable danger to the welfare of other students or staff. The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and the hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, or student if age 18 or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session. During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted. However, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing. The Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school. The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

**ADMINISTRATIVE POLICY ON STUDENT HEARINGS HELD IN
EXECUTIVE SESSION:**

When a student expulsion hearing is held in executive session the administration shall adhere to the following procedures:

- The administration shall present their reasons for recommending expulsion.
- Following the administration's presentation and the student's presentation, the Superintendent will make a recommendation to the Board.
- At the conclusion of the recommendation the administration and all parties except the board will leave the room while the Board considers the evidence and reaches a decision.

DUE PROCESS

Students have the right to be immediately informed of alleged violations of standards of behavior as established by Board policy and/or violations of standards of behavior as established by Board policy and/or school rules and regulations and to be informed of appeal procedures.

Students have the responsibility to know and obey school rules and regulations, to express grievances in a polite and hospitable manner and to give parents correct information concerning conduct. Principals and teachers are responsible for notifying and conferring with parents and students in cases involving suspensions and expulsion recommendations. Parents have the responsibility to call principals for conferences when needed and to arrange with proper school authorities for desired student hearings.

AUDIO EQUIPMENT

Students will not possess, handle or play audio equipment to and from school, on school campuses or in school buildings during the instructional day. It will be the teacher's/sponsor's discretion for travel to and from an extracurricular activity.

- Parent contact/loss of privileges
- Confiscation of item - one (1) week for 1st offense
- Confiscation of item - one (1) semester for 2nd offense

CELL PHONES

Use and misuse of cell phones has become a serious problem that threatens the ability of the district's schools to properly and efficiently operate its education program. The school board believes it is necessary to restrict student use and possession of cell phones, other electronic communication devices, cameras, MP 3 players, iPods, and other portable music devices so that the opportunity for learning in the district's schools may be enhanced.

For the purpose of this policy, the use of a cell phone or other communication device includes any incoming call, text message, message waiting, or any other audible sound coming from the phone or device.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing technology equipment.

From the time of the first bell until after the last bell, students are forbidden from having cameras, MP 3 players, iPod, Apple Watches, AirPods or any other portable music device. Such devices may be stored in the principal or dean of student's office so long as they are in a silent mode of operation. Exceptions may be made by the building principal or his/her designee for health or other compelling reasons.

Before and after normal school hours, possession of cell phones, any paging device, beeper, or similar electronic communication devices, cameras, MP 3 players, iPod, Apple watches, AirPods and other portable music devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

Students using or possessing, other than those devices properly stored in the principal or assistant principal's office, cell phones or other portable music devices after the first bell and before the last bell shall have them confiscated. **Confiscated cell phones and other electronic communication devices must be picked up at the school's administration office by the student's parents or guardians.**

Different consequences are permitted depending on the age or grade of the bullying student.

¹ Example: a student might be disciplined both for bullying and sexual harassment, in an appropriate situation, or bullying and assault.

² Suggestion for the posted notice: Create a circle with a line through it over the word Bullying (similar to a non-smoking logo). Beside the logo write: Mean talk or hurting other people is called bullying. Bullying is against the rules and can get you in trouble, suspended, or expelled. If someone bullies you, or you see someone being bullied, get help by telling an adult.

SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, Principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, back packs and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction. The Superintendent, Principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

Questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student, or in response to a subpoena or arrest warrant. If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the Principal or the Principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis on student enrollment forms.

SEXUAL HARASSMENT OR OTHER SEXUAL MISCONDUCT

The Fordyce School District is committed to having an academic environment in which all students are treated with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

Believing that prevention is the best policy, the District will periodically inform students and employees about the nature of sexual harassment, the procedures for registering a complaint, and the possible redress that is available. The information will stress that the district does not tolerate sexual harassment and that students can report inappropriate behavior of a sexual nature without fear of adverse consequences. The information will take into account and be appropriate to the age of the students.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment as defined in this policy. Any student found, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Sexual harassment refers to unwelcome sexual advances, requests for sexual favors, or other personally offensive verbal, visual, or physical conduct of a sexual nature made by someone under any of the following conditions:

- Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
- Submission to or rejection of, such conduct by an individual is used as the basis for Academic decisions affecting that individual; and/or
- Such conduct has the purpose or effect of substantially interfering with an individual's Academic performance or creates an intimidating, hostile, or offensive academic Environment.

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature which has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances. Depending upon such circumstances, examples of sexual harassment include, but are not limited to: unwelcome touching; crude jokes or pictures; discussions of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics; and spreading rumors related to a person's alleged sexual activities.

Students who believe they have been subjected to sexual harassment, or parents of a student who believes their child has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Equity Coordinator, or administrator who will assist them in the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Once a written complaint of sexual harassment has been received, the Equity Coordinator shall empanel a fact-finding committee to review the complaint and interview parties with first hand

information regarding the complaint. The results of this process will be forwarded to the building principal who will take the appropriate action consistent with school policy. To the extent possible, complaints will be treated in a confidential manner. Limited disclosure may be necessary in order to complete a thorough investigation. Students who file a complaint of sexual harassment will not be subject to retaliation or reprisal in any form. Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion. Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Student Policy for Computer Use and Internet Access Fordyce Public School District

Purpose

All computer resources and facilities of Fordyce Public School District 2002000 shall be used solely for legitimate and authorized academic, instructional, research and public service purposes. District computer systems and networks are provided for actively enrolled students as a part of the academic program. Students are encouraged to become proficient in the use of the computers as a means of enhancing their educational experience. The District provides a high-speed link to the Internet for academic use only. The District's Internet provider maintains a filtering database to block controversial and/or explicit material from being accessed by students. However, widespread student use also necessitates certain rules of computer conduct. Use of computer and Internet resources is a privilege, not a right. Therefore, access to computer and Internet resources may be disabled, suspended or revoked if abused.

Students have a responsibility to use the school's computer resources in an efficient, ethical, and lawful manner. Upon identifying a violation of this policy that constitutes an immediate, clear danger to the District's computer systems or networks the Information Technology Department may immediately limit or suspend a student's access to school computer resources while the infraction is being investigated.

The District may monitor student user accounts, files, printing, Internet history, and/or login sessions for appropriate management purposes. Such purposes include but are not limited to performing archival and recovery procedures, evaluating system performance, compliance and ensuring system integrity and security.

Requirement for Access

The District will not grant access to computers or Internet resources without prior authorization of the student's parent or guardian. The student and parent/guardian must completely read, understand and accept this policy in full. A completed agreement slip must be signed by both the parent/guardian and student and returned to the Technology Department. A Network account will then be given to the student to access the school's computer and Internet resources.

Warranties

User data are considered his/her property, and therefore are his/her responsibility. While efforts are made to ensure that reasonable security procedures are carried out, the District and its personnel shall not be held liable for damage to, theft of, or loss of, user data by means of procedural error, equipment malfunction, vandalism, or natural or man-made disaster.

With regard to Internet access, Fordyce Public School District and its employees make no warranties of any kind, whether expressed or implied for the service it is providing and will not be responsible for damages to parents, guardians, or students that might incur. This includes loss of data or service interruptions. The District specifically denies any responsibility for the accuracy or quality of information obtained through Internet use.

Computer Use Policy

1. Before using the computer check the computer station. Notify the monitoring teacher if anything is damaged or missing.
2. Use only the applications that have been installed by District personnel.

4. Do not change the configuration of computer hardware, remove or replace cables of any kind, attach devices of any kind, change monitor settings, or modify computer hardware in any way. Changes of computer hardware configurations may be done only by the Information Technology Department.
5. Use only your own account and password for all computer work. Do not share your account and password with others. Damage or loss of personal files, even sabotage, can result from allowing others to use your account and password.
6. Do not use electronic devices such as a portable audio device in the computer laboratory. Food and/or beverage are not to be consumed around computer equipment.
7. Adhere to copyright laws. Users are expected to respect copyright laws, which govern the use, copying of software, citing of information and attributing authorship.
8. Backup important files to a floppy disk. Although files may be saved to the network server, it is the student's responsibility to take the necessary precautions to prevent loss of data.
9. For security exit all applications and log off the computer properly.
10. When you finish, clean up the area, set the computer as it was, push in the chair and make sure the printer area is cleaned up. Unwanted printouts should be recycled.

A student's network account will remain active until the student graduates. At which time the account and files saved within the student's network store will be deleted. If a student transfers out-of-district or is removed from our enrollment for any other reason, the account and files will be deleted. It is the students' responsibility to back up their files to disk and bring them home before they depart, if they wish to keep them.

Internet Use Policy

Guidelines

In addition to local resources, Fordyce Public School District provides access to the Internet. While there is access to a multitude of beneficial informational resources, some material may not be appropriate. To restrict access to controversial media the system uses blocking software as a precaution. Parents or Guardians are encouraged to discuss these responsibilities with their children and advise them on the possible controversial and negative aspects of this technology.

Acceptable Use

The purpose of this technology is to foster research and education. The transmission of any material in violation of United States or state regulation is strictly prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or materials protected by trade secret.

Privileges

Internet users enjoy certain rights and privileges, which include:

- **Safety:** To the greatest extent possible the students will be protected from harassment and unwanted contact. Users are instructed not to give out their home address, phone number, credit card information or password. However, making the Internet available to students carries with it the potential that users may encounter information that some have identified as controversial and of potential harm. Because information on the Internet appears, disappears, and changes, creating a “safe environment” is impossible, and implying that it is being done is a disservice to students, parents or guardians. The school’s focus is to provide the understanding and skills needed to use the Internet in ways appropriate to students’ educational and recreational needs rather than to control the environment.
- **Intellectual freedom:** Within the framework of responsibilities listed below, this is a free and open forum for expression, including viewpoints that are unorthodox or unpopular. Considerate and respectful disagreement is welcome.

Use of the Internet is a privilege not a right. Inappropriate use of this resource will result in a cancellation of this privilege and/or disciplinary sanctions. Inappropriate use of the Internet will result in disciplinary sanctions.

DISCIPLINE OF HANDICAPPED STUDENTS

Handicapped students who engage in misbehavior and disciplinary infractions are subject to normal school disciplinary rules and procedures so long as such treatment does not abridge the right to a free appropriate public education as mandated by PL-108-446.

- On each school campus the appropriate staff members will be made aware of those students who are receiving special services of the district.
- Close cooperation between special services teachers, classroom teachers, counselors, principals and parents concerning special students' educational and behavioral program is necessary.
- The IEP team for the handicapped students should consider whether discipline procedures should be adopted/included as part of the student's IEP.
- When recurring problems such as nonattendance, truancy, tardiness or persistent discipline problems cannot be worked out through preventative discipline procedures with a handicapped student, the office of the Special Education Supervisor shall be notified.
- The regular school disciplinary rules and procedures apply with the exceptions:
 - In emergency situations, suspension should be limited to the duration of the emergency.
 - Convene the IEP team to consider changes in the program.

- Rehabilitation Office (if age appropriate)
- Expulsion with homebound instruction

Procedure to follow if alternate placement is deemed appropriate:

POSSESSION OR USE OF ALCOHOL/ILLEGAL DRUGS

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Fordyce School District shall possess, attempt to possess, consume, use, distribute, sell, attempt to sell, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. Possession - possession includes having the drug on the person, in the immediate vicinity of the person or among personal possessions (Locker, book bag, etc.)

STUDENT BEHAVIOR

A teacher may remove from class a student who has been documented by the teacher as repeatedly interfering with the teacher's ability to teach the students in the class or with the ability of the student's classmates to learn; or whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to teach the student in the class or with the ability of the student's classmates to learn.

If a teacher removes a student from class twice during any nine (9) week grading period, the principal or his designee may not return the student to class unless a conference is held for the purposes of determining the causes of the problem, and possible solutions, and with the following individuals present:

ACT 1281 of 1999

WORK HABITS

Educators agree that the student is a product of his total life experiences. Many of his involvements are home and community centered. Many of his attitudes and those images resulting from out-of-school experiences will lead the child to substitute desirable attitudes and work habits for those of a negative nature.

Parents must become aware of and assume responsibility for a part of the total education of their child. In no area is this of more significance than in the area of work habits.

HEALTH OFFICE

A health nurse is employed by the school district. Parents of children requiring special health assistance must contact the district's health nurse. A plan will be developed for the child and appropriate personnel will be notified of the plan.

If your child is sick, contagious, or running a fever, please keep him/her at home. If your child becomes ill with a temperature, vomiting, or has a serious injury, we will make every effort to contact you.

HEAD LICE

Upon confirmation that a student has head lice, parents will be notified to pick up their child. Parents are required to treat the child immediately and take other precautions at home to prevent spreading to other family members. Parents/guardians are required to bring proof of treatment (box from the shampoo and a current receipt) and a school official must check that the student is nit free. A second treatment must be done in 10 days and documentation provided again with a follow-up check for nits by school officials. A parent whose child has chronic head lice and who may have excessive absences because of it will be reported to the Department of Human Services. This is considered neglect.

PRESCRIPTION MEDICINE

Prior to the administration of any medication to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. Unless authorized to self-administer, students are not allowed to carry any medications while at school. The parent or legal guardian shall bring the student's medication to the nurse, or in the absence of the nurse, to the Principal's office. The student may bring the medication if accompanied by a written authorization from the parent or legal guardian. Medications, including those for self-medication, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the (10) day period shall be destroyed by the nurse with a witness present.

The district's supervising registered nurse is responsible for creating procedures for the administration of medications on and off campus.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and rules.¹

Schedule II Medications²

Option 1: The only Schedule II medications that shall be allowed to be brought to the school are methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse).

For the student's safety, no student will be allowed to attend school if the student is currently taking any other Schedule II medication than permitted by this policy.³ Students who are taking Schedule II medications which are not allowed to be brought to school shall be eligible for homebound instruction if provided for in their IEP or 504 plans.⁴

Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall **not** be eligible to attend classes, but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.⁴

The fact that a student with a completed consent form on file is allowed to carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, stress dose medication, or combination does not require the student to have such on the student's person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, stress dose medication, or any combination on the student's person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

The school nurse or other school employees designated by the school nurse as a care provider who have been trained⁶ and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an IHP that provides for the administration of an epinephrine auto-injector in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer auto-injector epinephrine to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with an order from a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her /epinephrine auto-injector or the nurse is unable to locate it.

The school nurse for each District school shall keep epinephrine auto-injectors on hand that are suitable for the students the school serves. The school nurse or other school employee designated by the school nurse as a care provider who has been trained⁶ and certified by a licensed physician may administer auto-injector epinephrine to those students who the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes is having a life-threatening anaphylactic reaction.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer albuterol to administer albuterol to the student when the employee believes the student is in perceived respiratory distress.

The school nurse or other school employees designated by the school nurse as a care provider who have been trained⁶ and certified by a licensed physician may administer an injectable emergency dose medication in emergency situations to students who have an IHP that provides for the administration of an injectable emergency dose medication in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer an injectable

emergency dose medication to administer an injectable emergency dose medication to the student when the employee believes the student is having an adrenal crisis due to adrenal insufficiency.

Students who have met the requirements to be authorized to self-administer a stress dose medication under this policy shall provide the school nurse an emergency injectable dose of the student's medication. This emergency injectable dose will be used in the event the school nurse, or other school employee certified to administer an injectable emergency dose medication, in good faith professionally believes the student is having an adrenal crisis due to adrenal insufficiency.

Notes: A.C.A. § 17-87-103(11) provides for the administration of Glucagon, insulin, or both to students suffering from diabetes.

Districts are not under any obligation to "recruit" volunteers and 4.11 of the Rules explicitly states that no employee shall be pressured into volunteering.

¹ The time frame in this paragraph is not statutorily mandated and may be changed to better suit your district and the employment contract of the school nurse. Any changes you make, however, need to address the need for students to have their medications through the last day of school and the reality of parent's work schedules.

² This policy offers two different options regarding permissibility of students attending and participating in classes while taking Schedule II medications. Be sure only one option is included in the adopted policy and delete the "Option One" or "Option Two" language after your selection along with the language for the unchosen option in the final version. Be sure to consult with your school nurse when selecting an option.

³ Here is a helpful, but not all-inclusive, list of prohibited Schedule II medications: Opium, morphine, codeine, hydromorphone (Dilaudid), methadone, meperidine (Demerol), cocaine, oxycodone (Percodan), amobarbital, pentobarbital, sufentanil, etorphine hydrochloride, phenylactone, dronabinol, secobarbital, and fentanyl.

⁴ A student who has surgery or is in an accident may be taking a Schedule II medication outside of those a student may take and be permitted to attend classes under Option 1 or may have been told by his/her doctor to not attend class during the time the student is taking the Schedule II medication. In such cases, a 504 plan can be developed to cover the duration of the student's recovery, which could include homebound instruction.

⁵ The specific authorization should be provided on the doctor's letterhead along with the completed Medication Administration Consent Form (4.35F).

⁶ The certification may be received through training that is provided by a nationally recognized organization experienced in training laypersons in emergency health treatment or other persons approved by the Department of Health. Examples of National programs are those provided by the American Heart Association and the American Red Cross.

STUDENT ILLNESS/ACCIDENT

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student's parent or legal guardian. The student will remain in the school's health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school's expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student's emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

PHYSICAL EXAMINATIONS OR SCREENINGS

The Fordyce School District may provide from time to time for the administration of physical exams or screenings of its students. The intent of the exams or screenings shall be to detect contagious or infectious diseases or defects in hearing, vision, or other elements of health that would adversely affect the student's ability to achieve to their full potential.

The district shall notify parents, at least annually, of the specific or approximate dates of any non-emergency, invasive physical examination or screening that is: required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students. For the purposes of this policy, "Invasive Physical Examination" is defined as any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student.

A student may be required to pass a physical exam before being allowed to participate in certain

extracurricular activities to help ensure they are physically capable of withstanding the rigors of the activity. It is understood that students who refuse to take such an exam will not be allowed to participate in the desired activity.

TELEPHONE

In order to provide a healthy environment and to set the proper example for our students, the use of all tobacco products is prohibited in the buildings and vehicles of the Fordyce School District. This policy applies to all employees of the school district, students and visitors. This policy also applies to all public school functions (ball games, concerts, etc.). This policy is in effect 24 hours per day, every day. ACT 779 of 1997

Possession or use of tobacco products by students on district property, in district vehicles and at school-sponsored events (whether on or off district property) is prohibited at all times.

The use of tobacco products by all visitors to the school district is prohibited. This includes non-school hours and all events sponsored by the school or others. Advertising of tobacco products is prohibited in school buildings, on school property, at school functions, and in all school publications. This includes clothing that advertises tobacco products.

VISITATION

Please do not expect the teacher to interrupt class work or to discuss individual problems with you. A conference for this purpose should be arranged ahead of time.

RULES, REGULATIONS AND POLICIES NOT COVERED

The Fordyce Elementary School administration reserves the right to discipline all students for violations of rules, regulations and policies not covered in this handbook and issue consequences in accordance with the severity of the infraction.

VIDEO SURVEILLANCE

The board has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras. The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording.

Videos containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook, any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

The issues involved in parental rights to viewing videos are complicated, but the Family Policy Compliance Office (1-PCO) of the Family Educational and Right Act (FERPA), has recently simplified the matter. For example, a video of a fight between two (or even several) students in which other students happen to have been incidentally included in the background of the video generates the following viewing conditions.

- a. Either or both of the students' parents may view the video **without** first having to receive permission from the other student's parent(s). None of the parents of the "incidental" students have to give their permission for the viewing of the video by the "involved" students' parents.
- b. If a student's parent lives beyond a reasonable distance to physically come to view the video, the district may mail the video to a "receiving" school near to the parent, where the parent may view the video and then the receiving school will mail the video back to your district. The personnel at the receiving school should not view the video, but merely arrange for the parent to view it by himself/herself.
- c. The district is **not** obligated to give a copy of the video to the parent or their lawyer. If, however, you choose to give the parent a video, you are obligated to go through all of the hoops that used to be the case for simple viewing of the video. Specifically, faces of the "involved" students other than that of the parent's student must be redacted or else you will have to receive written permission from the parents of the other involved students.
- d. Remember that the rights of the parents transfer to the students once the student turns 18.
- e. Once the video has been viewed by the parties requesting to view it, the law does not require you to keep the video. Common sense would suggest, however, retaining the video at least until the disciplinary process is completed.

PARENTAL INVOLVEMENT

Parents/Guardians are encouraged to participate and be involved in their child's education process through an established Parent Advisory Board. This group is comprised of parents and teachers that volunteer their time to coordinate fund raisers and other activities to help promote motivation and provide many different tools for all students and teachers as well.

Fordyce Elementary also promotes parent involvement through our annual Orientation and Open House at the beginning of each school year. We also encourage our parents/guardians to attend our annual family nights for Math, Science, and Literacy.

RESOLUTIONS FOR PARENTAL CONCERNS AND TEACHER CONTACT

Fordyce Elementary Parents are invited to resolve any issue or concern by being provided with the opportunity to meet with the principal and/or teachers during the teacher's planning time. Every effort will be made to help the parent resolve their concerns or issues by setting up an appointment during times that will not take the teacher away from instructional time.

Teachers send home weekly folders and notes and are encouraged to make phone calls and send post cards to report to the parent positive and any other information that is needed in order to keep the lines of communication open. The use of e-school grading system is available so that parents are able view information about their child on-line.

Parents are asked to be as accommodating with us as we are with them because this allows us to work together as a team for the success of the student.
