

"It felt good to talk and cry with people who actually knew what I was going through and could relate because they are going through a similar situation."

# CHILDREN'S GRIEF SUPPORT SERVICES

**Virtual Support Available**

Children grieve very differently than adults and often experience feelings of isolation, confusion and despair. Community Hospice is dedicated to helping children and teens who have experienced a death loss by supporting them during their grief journey. Led by experienced grief specialists and trained volunteers, Community Hospice offers education, resources and specialized programs to help meet the needs of our community's youth. Programs are offered in various locations including school campuses throughout our community.

Our Children's Grief Programs provide children and teens the opportunity to participate in activities that ultimately help them express their thoughts and feelings, adapt and cope to the many changes in their lives, and memorialize their person who has died. Participants will have an initial screening to ensure the appropriate support services are provided. Help is just a phone call away, 209.578.6300.
