

Dear Parents and Families;

Modesto City Schools is offering an on-line computer program for summer learning called **Freckle™**. Students in grades TK-8th can log in through our district website and access academic skills practice and standards based learning all summer long. With **Freckle™**, your child will be able to practice Math, ELA, Social Studies and Science at his or her own ability level!

See information on how to access your child's **Freckle™** account on the MCS district website at mcs4kids.com. You and your child can also access the program the following way:

1. Access the Modesto City Schools website at mcs4kids.com
2. From the information bar, select "Students"
3. From the drop down menu, select "Applications"
4. Scroll down to the bottom of the page, select "Freckle"
5. For first time sign on or using a new device to sign on, from the Clever student sign in page, select "Log in with Active Directory"
6. If you receive a page stating that Clever could not find your account, select "Log in with a different account"
7. Use your child's MCS student sign on and password
(6 digit student number)[@monet.k12.ca.us](mailto:monet.k12.ca.us)
(pass word is birthdate xx/xx/xxxx)
8. Select "Freckle" from Clever dashboard page

Once they have logged in, it is important that the initial placement tests are done **independently**, without any help at home. If they are having difficulty with a concept during practice lessons, there are video tutorials on the site for help.

Thank you for supporting your child's education at home.
