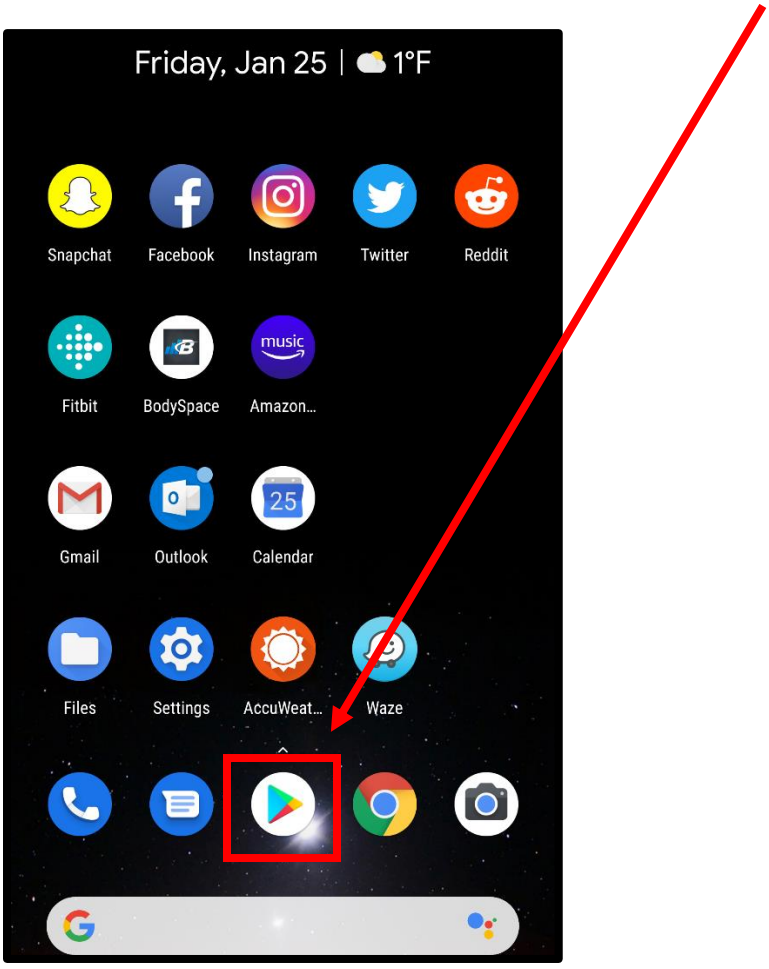
Madison Central School District

MADISON NEWS

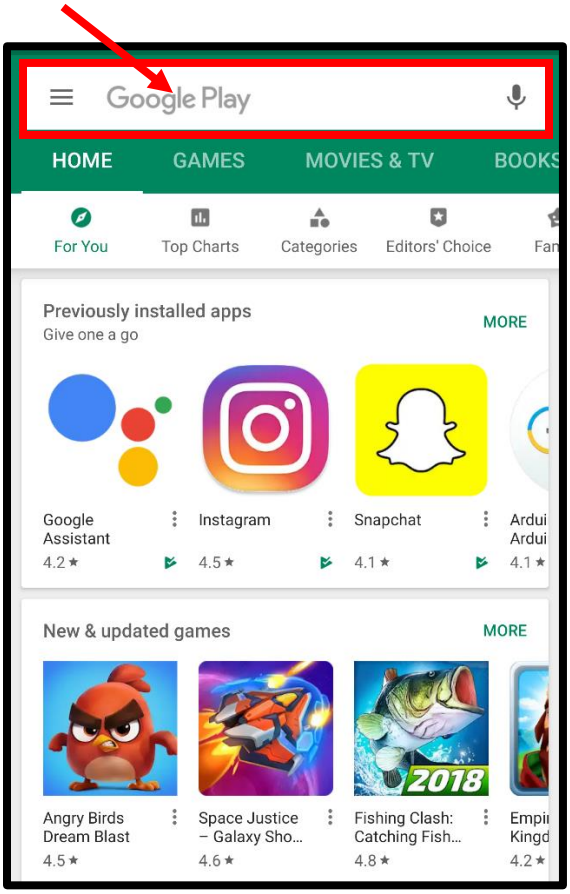
This guide will walk you through how to download the brand-new Madison Central School District App.

Steps for Android Phone

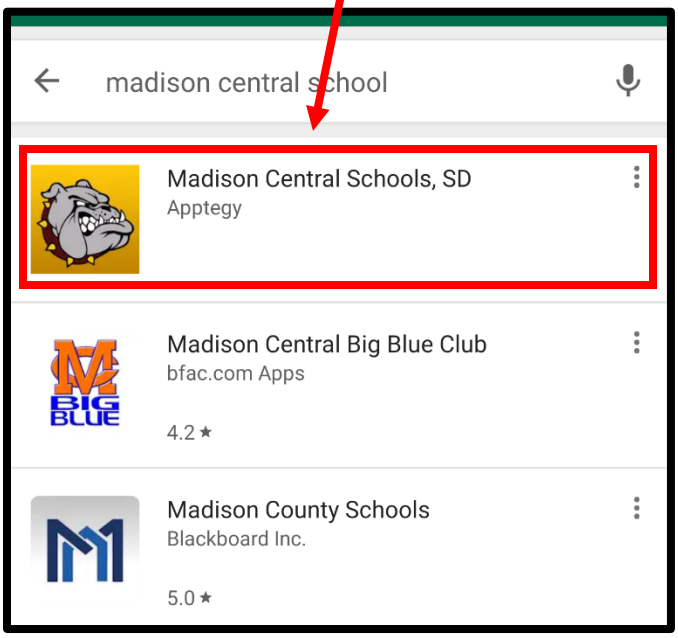
1. Open your Android's Google Play Store. Its app icon resembles a 'Play' button and you will find it on your home screen. It is the highlighted image in the below image.



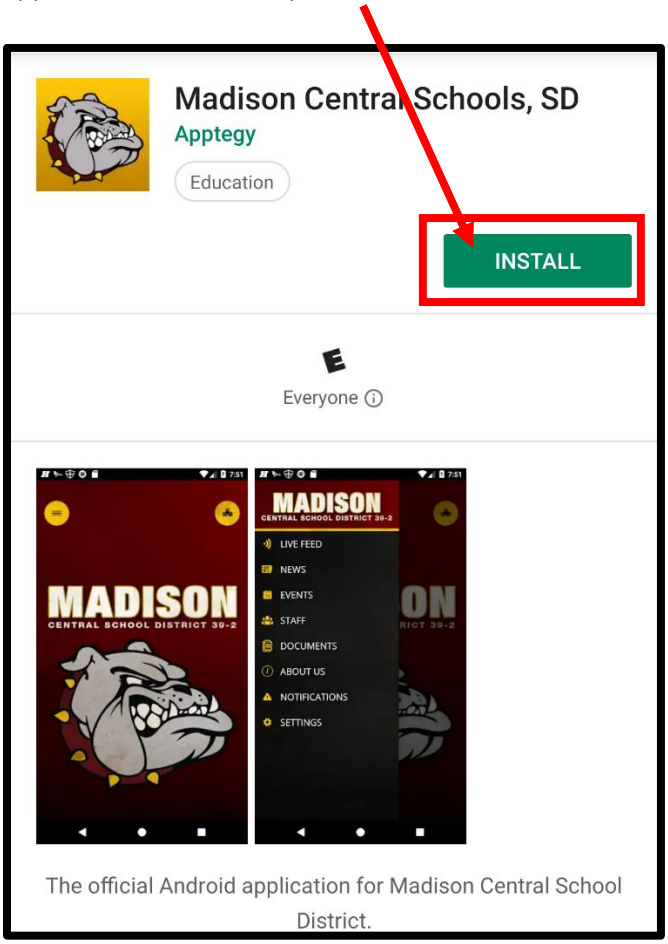
2. Click the Search Bar and type ‘Madison Central Schools, SD’



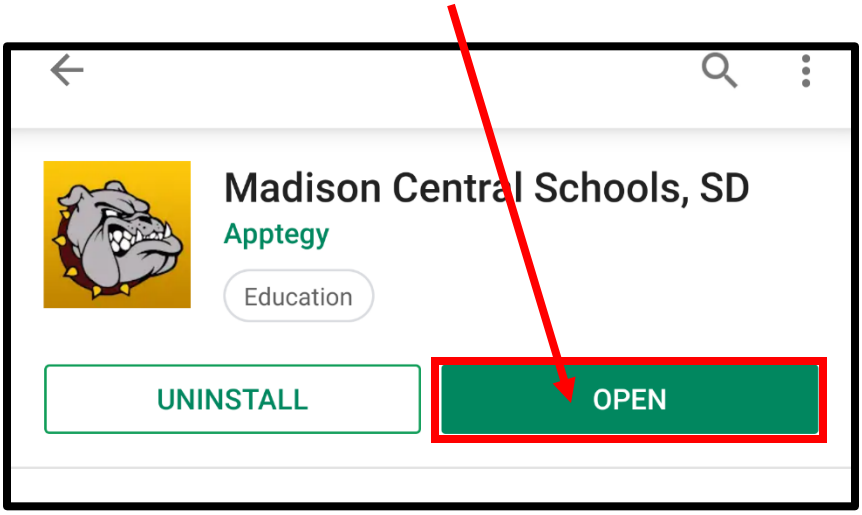
3. Once the results populate, click the App with the name ‘Madison Central Schools, SD’ and has our Bulldog Logo.



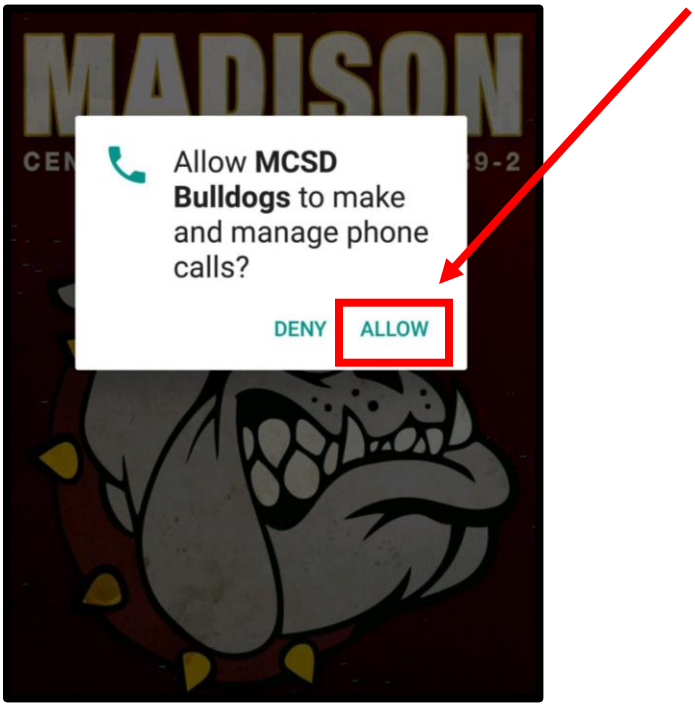
4. Once the App page opens, click the green Install button. It may take a moment to download the app. Leave this screen open until it is finished.



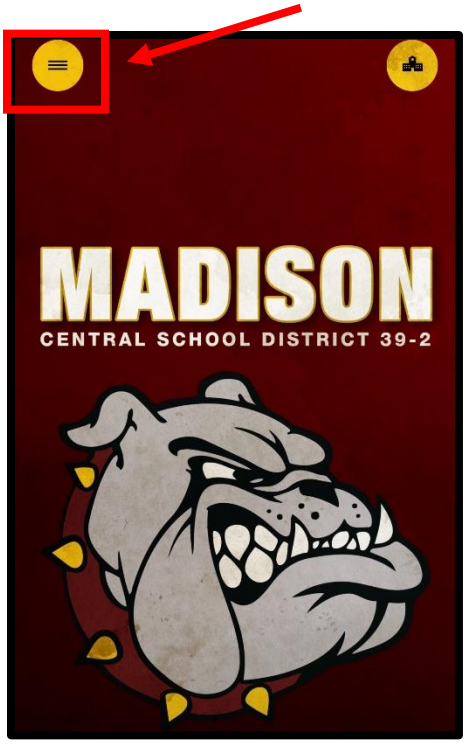
5. Once the app is finished installing. Click the green Open button.



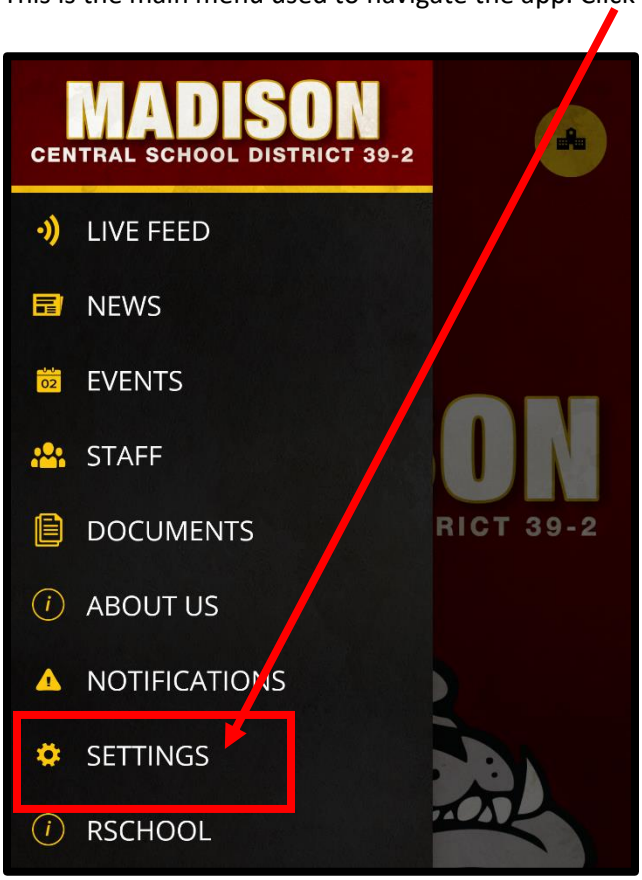
6. The first time the app opens, you will receive the following message. Click the Allow button to continue. If you receive any other messages that ask you to allow or deny permission, please select allow so that you receive all of the important notifications.



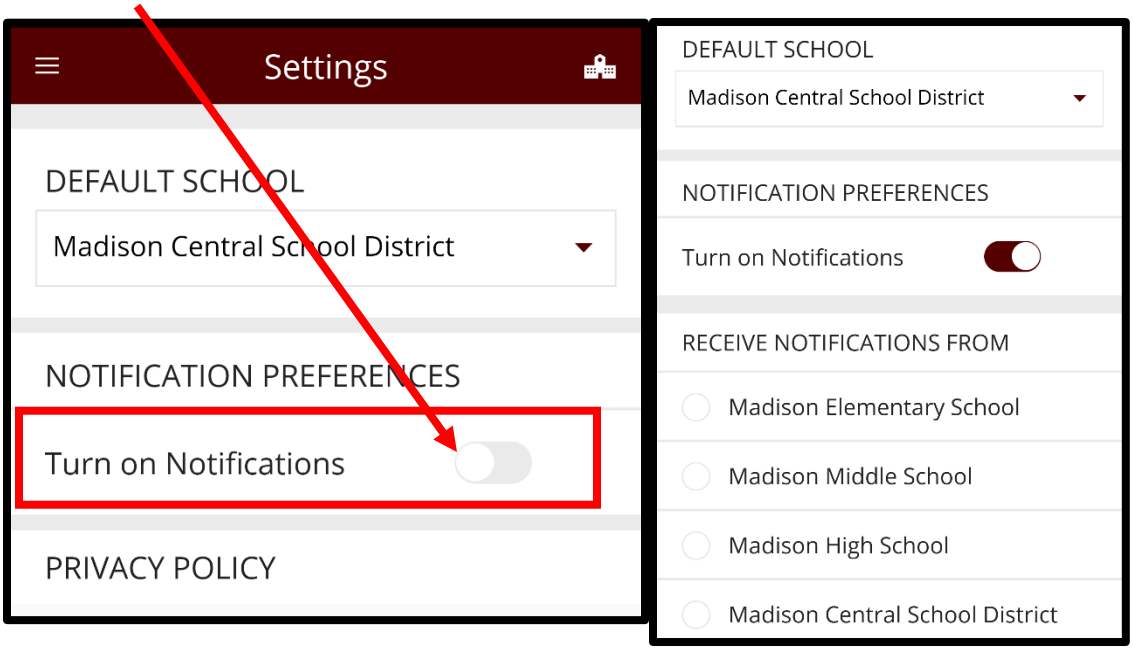
7. This is what the Home Screen of the app looks like. We need to take care of a few settings to finish up. Click the three lines on the left-hand side.



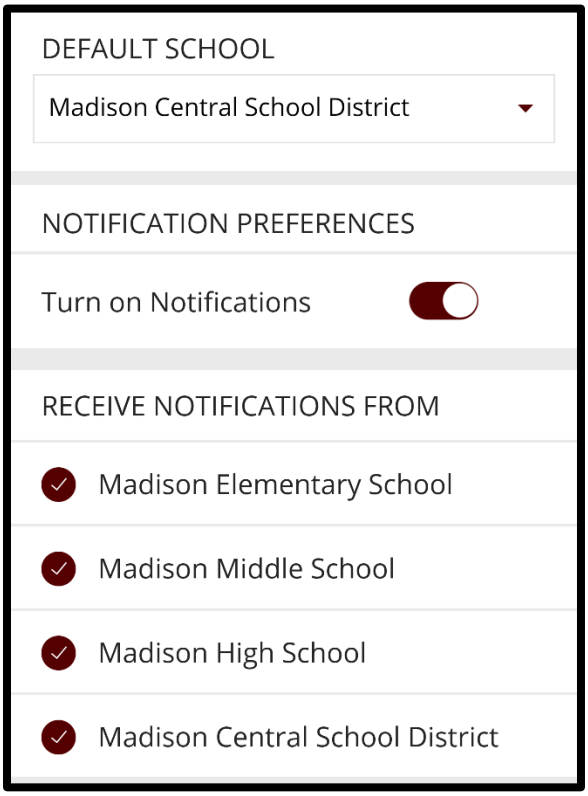
8. This is the main menu used to navigate the app. Click the Settings tab.



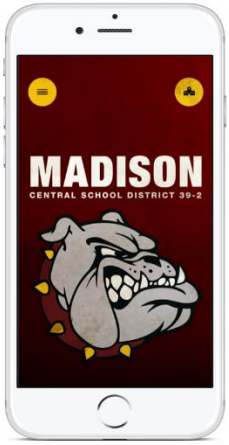
9. Click the button to the right of Turn on Notifications. A new menu should appear underneath that.



10. This is where you can choose which schools you want to receive notifications from. We recommend you select the 'Madison Central School District' and then whatever school that you have a student enrolled in. You are more than welcome to choose all 4 options.



Thank you for being a part of our amazing Bulldog Community!!!



It's Everything Madison,
in your pocket.

Cafeteria Menus · Events · Staff Directory · Alerts · Athletics

Download on the App Store
