Parent/Guardian: New York State law (Chapter 281) permits schools to request a dental examination in the following grades: school entry, K, 2, 4, 7, & 10. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your dentist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health. I understand that I am free to choose my own dentist for further care.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

- No, The student listed above is not in fit condition of dental health to permit him/her attendance at the public schools.

NOTE: Not in fit condition of dental health means that a condition exists that interferes with a student's ability to chew, speak or focus on school activities including pain, swelling or infection related to clinical evidence of open cavities. The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.
