CLASS DESCRIPTIONS:

CHOPPED: Learn how to make quick family style meals using seasonal ingredients such as Tomatoes, Pumpkin, Squash, Apples, Beans, Greens, Rice, and meaningful grains. Students receive recipes, learn how to prep properly, knife skills review, and plating how to's...but how they put their spin on a dish, that's the main objective! Let's get creative

Cost: \$180

ROBOTICS: This unique class combines elements of basic robotics and introductory circuitry. Students use LEGO® WeDo 2.0, which enables them to explore the building blocks of coding. From simple drag and drop interfaces to developing more complex algorithms, kids explore the world around them and bring their ideas to life with code. They also work with the smaller than a golf ball, Ozobot, as they explore coding and programming. Learn basic circuitry using wires, batteries, lights, and more.

Cost: \$180
