Section 1: Literacy Plan Rationale

Greene County Tech Primary holds the belief that an effective literacy plan can meet each individual student's needs within the building. Student achievement is the responsibility of all of the stakeholders within the Greene County Tech School District: students, educators, parents, and elected officials that represent the citizens. The community as a whole will only be as successful as the school system within the town. "How well children succeed in school affects their future endeavors in life" (Miller, McCardle & Hernandez, 2010). It is our duty to support all students to obtain the literacy skills needed to be productive members of society in the 21st century.

Phone 870-236-6439 • Fax 870-239-0680

According to the current statistics in Arkansas, 34 percent of graduating seniors in the state are not meeting reading readiness benchmarks (ACT, 2018). The state of Arkansas has recognized the importance of creating a comprehensive initiative for improving literacy. Greene County Tech Primary has provided professional development to the classroom teachers based on the science of reading as defined by § 6-17-429(k)(1) in June and July of 2019. After the completion of the professional development, the staff members of GCT Primary will meet one of the prescribed pathways to obtain proficiency in knowledge and practice in scientific reading instruction (in conjunction with the SOR observations by building administration after RISE training is completed).

During the 2021-2022 school year, the Kindergarten classroom performed as follows on the STAR assessment : Early Literacy student growth percentile median 45, pretest standard score 479 and posttest standard score 656. Therefore, for Kindergarten Early Literacy a change of +177 was achieved. In the First Grade classroom students performed as follows on the STAR assessment: Early Literacy student growth percentile median 71, pretest standard score 632 and posttest standard

GREENE COUNTY TECH Primary School

score 779. Therefore, for First Grade Early Literacy a change of +147 was achieved. In Kindergarten out of the 11 students that qualified to take the STAR Reading, the following progress was documented: pretest standard score 0, posttest standard score 66, with a +66 change during the school year. In First Grade 129 students qualified to take the STAR Reading assessment with the following progress documented: pretest 168, posttest 243, with a change of +40 reported. In conjunction with the STAR assessment, GCT Primary also uses the Dynamic Indicators of Basic Early Learning Skills to assess and progress monitor students in Kindergarten and First Grade. DIBELS is a standardized and research based assessment that measures the early foundational skills needed for reading. DIBELS can be vital in providing indicators as to which students will meet benchmark, those students who are considered “at-risk,” and are vital in determining which children will possibly need additional interventions. The Developmental Spelling Assessment (DSA) will be implemented in Kindergarten through First Grade. The DSA is based on developmental spelling theory and includes two components: a Screening Inventory for determining a child's stage of development, and parallel Feature Inventories for highlighting strengths and weaknesses in

GREENE COUNTY TECH Primary School

Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

knowledge of specific orthographic features. The following plan will be composed of five main components: strengthening literacy development in Kindergarten and First Grade; providing a strategic intervention plan; examining school policy and culture for supporting literacy development; building leadership among the stakeholders; and teacher professional development.

Research suggests that “90% of children with reading difficulties will achieve grade level reading if they receive help by the First Grade (Velluntio et al., 2008). The purpose of the GCT Primary literacy plan will be to intervene before students start experiencing reading difficulty. By providing explicit, systematic, cumulative and diagnostic instruction all students will have the opportunity to achieve at high levels.

Section 2: Literacy Vision Statement

Greene County Tech Primary School has a mission to provide a safe learning environment that is nurturing and challenging for all students. Students will learn to read for understanding and pleasure, and will learn to write for effective communication. GCT Primary will work with parents and the community members to support students as they

GREENE COUNTY TECH Primary School

Phone 870-236-6439 • Fax 870-239-0680

grow in knowledge and character to develop the skills and behavior necessary to become responsible, productive members of society. The number of students that will be in need of support will be calculated at the beginning of each school year. A data driven plan will be used to monitor the effectiveness of the literacy program to ensure that all students' targeted-individual needs are being met.

Greene County Technical School Primary Literacy Goal

Goal 1: Leadership

- By spring 2022, the Principal and Literacy Team at each school site will lead the implementation of the Greene County Tech Primary Literacy Plan to ensure student growth.

Goal 2: Assessment

- By June 2022, all educational staff will be proficient in using assessment data to improve student learning and professional practice in teaching literacy standards.

Goal 3: Instruction

- By June 2022, instructional staff will implement appropriate literacy strategies in reading and writing based on data and driven by the *Arkansas Curriculum Standards for English Language Arts*. In addition, the literacy team and teachers will review new

Literacy Core Reading programs for the next school year according to Arkansas Curriculum Standard guidelines. For the 2021-22 our focus is on phonemic awareness and phonics skills.

Goal 4: Staff Development

- By 2022, the District will refine the Professional Learning Community (PLC) model to include a professional development plan that reinforces differentiation (within the tiers) and offers support based on student data, state mandates, and district and site initiatives.

Goal 5: Student Support

- By 2022, staff, schools, and the district will design high quality learning experiences for our high needs population: students with disabilities and/or economically disadvantaged.

Section 4: Action Plan Maps

Goal 1: Leadership

- By spring 2022, the Principal and Literacy Team at each school site will lead the implementation of the *GCT Primary Literacy Plan* to ensure student growth.

	Action Step I	Action Step II	Action Step III
Action Step	Communicate District Literacy Plan to all stake-holders (staff, students, parents, school community).	Implement District Literacy Plan across grade levels and content areas to collaborate between the grades.	Monitor effectiveness of GCT Primary Literacy Plan.

Goal 3c: Instruction – First Grade Writing/Reading

· During each calendar school year instructional staff will implement plans for students identified at risk for reading difficulties

- Ensure adequate time for literacy instruction
 - Suggested Literacy Instructional Block would include the following:
 - Phonological Awareness (10 minutes)
 - Phonics (30 minutes) (letter ID, decoding, handwriting, encoding)
 - Comprehension (40 minutes)
 - Read Aloud and Shared Reading
 - Oral Language
 - Vocabulary

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

- Small Group Reading (60 minutes) Meet with skill-based groups every day to address foundational gaps and support core instruction; RF, L, RI, or RL standards are covered.
- Writing (30 minutes)
- Develop intervention plans for students identified at risk for reading difficulties
 - Administer diagnostic assessments to determine specific skill deficits
 - Provide evidence-based interventions through a multi-tiered system of support (RTI)
 - Establish a process for progress monitoring for each tier of instruction within a multi-tiered system of support

Screen all K-2 students for reading difficulties (Act 1268 dyslexia requirements)

1. Phonological and phonemic awareness
2. Sound symbol recognition
3. Alphabet knowledge
4. Decoding skills
5. Rapid naming
6. Encoding skills

Students in the Greene County Tech School District identified with characteristics of dyslexia, as defined by and in compliance with Arkansas Dyslexia Resource Guide (December 2017,) may include both blended (hybrid and/or virtual (online) remote (distance) delivery approaches depending on the specific intervention being used. As such, students may learn at least in part through virtual (online) learning, with some element of student control over time, place, path, and/or pace; and at least in part in a supervised, brick and-mortar location away from home (school or learning center) or virtual (online) remote (distance) learning whereby interventionists/therapists and students are not in the same place. Instruction and learning may take place asynchronously and/or synchronously The delivery method will require interventionists and/or therapists to be trained to deliver the specific program with fidelity in compliance with the publishers of the program and supported by evidence based research. The delivery approach for students with characteristics of dyslexia.

The Greene County Tech School District shall screen each student in K-2 and others required by the Arkansas Department of Education rule using the Dynamic Indicators of Basic Early Literacy Skills

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

(DIBELS) or an equivalent screener. Additional screening assessments will be administered to measure components that are not measured by DIBELS or the equivalent screener. Initial screening measures consist of short, informal probe(s) given to all students to identify those at risk or at some risk for not meeting grade-level standards. The Dyslexia Screening Process shall include:

Initial Screening

The initial screening of students shall be performed with fidelity and will include without limitation (Ark. Code Ann. § 6-41-603):

1. Phonological and phonemic awareness;
2. Sound symbol recognition;
3. Alphabet knowledge;
4. Decoding skills;
5. Rapid naming; and
6. Encoding skills.

Initial screenings will be conducted by teachers or reading interventionists for students in grades K-2 (required) and 3+ (per teacher referral) either onsite or Via Zoom/Google meet when screening data can be obtained in this format. If the screener under subdivision (a)(1) of the law shows that a student is at risk, or at some risk then a level I dyslexia screener shall be administered (Ark. Code Ann. § 6-41-603). If the (initial) screener under subdivision (a)(1) of section 6-41-603 shows that a administered (Ark. Code Ann. § 6-41-603 (3)(A)). The level I dyslexia screening of a student shall be performed with fidelity and include the components listed under subdivision (a)(2) of this section (Ark. Code Ann. § 6-41-603 (3)). The level I dyslexia screening process shall include documentation of the components of literacy to include but not limited to the following:

1. Phonological and phonemic awareness;

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

2. Sound symbol recognition;
3. Alphabet knowledge;
4. Decoding skills;
5. Rapid naming; and
6. Encoding skills.

Level I Screening

The level I dyslexia screening is a process of gathering additional information that should include progress monitoring data, work samples, formative literacy assessments, parent interviews, teacher questionnaires, early indicator checklists and additional age and grade appropriate dyslexia screening tools for the six areas. Level I screenings will be conducted onsite or Via Zoom/Google meet when screening data can be obtained in this format. The determination of existing characteristics of dyslexia should be based on multiple sources of data. A school-based decision-making team should meet to review student records and progress, inform parents of concerns, and obtain parental consent when additional assessments are needed to determine if characteristics of dyslexia exist. The level I dyslexia screening process shall include documentation of the components of literacy to include but not limited to the following:

1. Phonological and phonemic awareness;
2. Sound symbol recognition;
3. Alphabet knowledge;
4. Decoding skills;
5. Rapid naming; and
6. Encoding skills.

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

Initial and Level 1 screenings are conducted onsite or Via Zoom/Google meet when screening data can be obtained in this format. However, Level II screeners are completed in person. Services are provided based on the students' academic needs.

K-12 students will participate in a blended or virtual tier III intervention with a trained interventionist who is trained to provide therapy/interventions using an evidence-based dyslexia intervention program which is on the approved list of dyslexia interventions provided by ADE/DESE.

Students in grades K-5 who have been identified with characteristics of dyslexia and are enrolled in a virtual platform will receive general education instruction delivered through Edgenuity, Inc. platform with allowable accommodations provided as documented in each student's IEP/Section 504 Plan/ELPAC plan. Special education services will be provided per each student's IEP/Section 504 Plan/ELPAC plan. These students will receive evidence-based dyslexia interventions through a virtual/remote delivery method with an interventionist trained to deliver the specific program with fidelity in compliance with the publishers of the program and supported by evidence-based research.

Students in grades 6-12 enrolled in the virtual instructional delivery option who have been identified with characteristics of dyslexia and have an IEP/Section 504 Plan/ELPAC will receive both general and/or special education services per his/her an IEP/Section 504 Plan/ELPAC plan. If applicable, virtual general education instruction will be delivered through Virtual Arkansas platform with allowable accommodations provided as documented in each student's IEP/Section 504 Plan/ELPAC plan. These students will receive evidence-based dyslexia interventions through a virtual/remote delivery method with an interventionist trained to deliver the specific program with fidelity in compliance with the publishers of the program and supported by evidence-based research.

Asynchronous: Interventionists/therapists and students engage in teaching and learning at different times and different locations through educational and instructional technology. Can be effective depending on the specific intervention being used, the age of the student and the level of training the interventionists has achieved.

Synchronous: Interventionists/therapists and students are engaged in teaching and learning at the same time through educational and instructional technology. May be more effective for younger learners or those for whom asynchronous interaction may not effectively meet IEP goals and objectives. Can be

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

effective depending on the specific intervention being used and the level of training the interventionists has achieved.

Asynchronous and synchronous: Interventionists/therapists and students are engaging in teaching and learning at the same time and at different times through educational and instructional technology

Level II Screener

If a student's performance on an initial screener, level I screening, or level II dyslexia screening under § 6-41-603 indicates a need for dyslexia intervention services, the student's parent or legal guardian shall be: (1) Notified of the results of the dyslexia evaluation; and (2) Provided with information and resource material, including without limitation: (A) The characteristics of dyslexia; (B) Appropriate classroom interventions and accommodations for students with dyslexia; and (C) The right of the parent or legal guardian to have the student receive an independent comprehensive dyslexia evaluation by a: (i) Licensed psychological examiner; (ii) School psychology specialist; (iii) Licensed speech-language pathologist; (iv) Certified dyslexia testing specialist; or (v) Dyslexia therapist. (Ark. Code Ann. § 6-41-604 (a)) The level II dyslexia screening is a more detailed process for identifying a pattern of strengths and weaknesses documenting the characteristics of dyslexia. The determination of existing characteristics may be based on performance criteria (i.e. cut-points, benchmarks) of the chosen assessments to be used as the level II dyslexia screening. Norm-referenced, diagnostic assessments designed to measure

the underlying cause, characteristics, and outcomes should be administered to identify the characteristics of dyslexia. The specific skills to be tested include phonological awareness, rapid naming, word reading, decoding, fluency, spelling, and reading comprehension.

The school-based decision making team may use these five key questions to determine if the student needs dyslexia intervention services. The information gleaned from these questions reflects components of the definition of dyslexia as expressed in Ark. Code Ann. § 6-41-602. If the level II dyslexia screening conducted by the school district indicates a student exhibits characteristics of dyslexia (first three questions answered with a "yes"), the student shall be considered to have met the typical profile of a student with dyslexia and should be provided intervention services (Ark. Code Ann. § 6-41-603) using a

GREENE COUNTY TECH Primary School

1300 South Rockingchair Road
Paragould, AR 72450
Phone 870-236-6439 • Fax 870-239-0680

dyslexia program delivered with fidelity. If it is determined that the student has functional difficulties in the academic environment due to characteristics of dyslexia, the necessary accommodations or

equipment for the student shall be provided under Section 504 of the Rehabilitation Act of 1973 (Ark. Code Ann. § 6-41-603) as they existed on February 1, 2013, if qualified under the applicable federal law. In other words, having a learning problem does not automatically qualify a student for accommodations under Section 504. The impairment must substantially limit one or more major life activities in order to be considered a disability under Section 504. The determination of substantial limitation must be made on a case-by-case basis with respect to each individual student. The Section 504 regulatory provision at 34 C.F.R. 104.35 (c) requires that a group of knowledgeable persons draw upon information from a variety of sources in making this determination.

Goal 4: Staff Development

The District will refine the Professional Learning Community (PLC) model to include a professional development plan that reinforces differentiation (within the tiers) and offers support based on student data, state mandates, and district and site initiatives.

	Action Step I	Action Step II	Action Step III
Action Step	State mandated requirements will be offered to faculty to meet the Science of Reading proficiency level	<ul style="list-style-type: none"> ● Collect and analyze student achievement data and staff data in order to identify course/instructional needs ● STAR, DIBELS, K-1 Foundational Skills Survey data ● Survey staff for input 	Encourage staff presentations and professional leadership

Section 5: Greene County Tech Primary Building Plan for Assessing and Reporting Data

Assessment:

- Kindergarten and First Grade will collect data on all students in the area of Literacy using Dibels, and the DSA
- Kindergarten and First Grade will be assessed using the STAR testing. Dates will be provided when 2021-2022 memo is sent out to school districts

Reporting Techniques:

- Literacy Team meetings will be held after STAR testing cycles to review data with the teaching staff and school administration
- All classroom teachers will send data (Dibels and the DSA) to the literacy coach
- Data will be reviewed and sent to the next school building in Permanent folders at the conclusion of the 2021-2022 school year

Phone 870-236-6439 • Fax 870-239-0680

Section 6: District Expectations and Supports for Schools

- Greene County Tech Primary will submit the literacy plan to the school LEA by May 1 of each calendar school year. The plan will then be submitted for board approval to be posted on the school website by no later than August 1st of each calendar year.
- Building Principals will include updates to school literacy team and school employees at monthly faculty meetings and team meetings
- The school literacy team will conduct PLCs for Kindergarten and First Grade
- Building principals will report building progress to district administrators
- The district will provide funding for employees to complete the appropriate professional development requirements with respect to the science of reading
- The GCT district will support the adopted GCT Primary building literacy plan as approved by the school board

The goal of the Primary Literacy Team is to meet monthly to monitor and adjust as needed the aforementioned literacy goals. At the conclusion of the 2021-2022 school year, the team will reconvene to assess and plan goals for the next school year. The

Appendix C: Intervention Model

Criteria:

- Support the core instructional program
- Provide systematic and explicit instruction fluidly throughout the tiers
- Address the critical components of reading according to the RISE and science of reading
- Provide targeted instruction specific to needs based on diagnostic assessments

	Kindergarten- First Grade
Phonemic Awareness	Heggerty Phonemic Awareness (Tier I and Tier II) Benchmark Phonetic Connections (Tier I) Sonday System (Tier II)
Fluency	Sonday System (Tier II)
Vocabulary	Isabel Beck- Bringing Words to Life (Tier I and Tier II)

Phone 870-236-6439 • Fax 870-239-0680

Appendix D: Literacy Team Roles and Responsibilities

The reading specialist team with the assistance of the literacy coach will be responsible for identifying students that are in need of additional support, tracking progress of the individual student's growth, and implementing targeted interventions. Furthermore, the reading specialist will report any concerns or lack of progress to the classroom teacher and the student assistance team.

The literacy team in conjunction will synthesize data based on student performance. Building leaders will set literacy goals based on the data collected and needs of the students. The literacy plan will then be reviewed and actions will be set in place based on the data driven process.
