

Notice of Student Academic Standards in Effect for the 2022-23 School Year

Academic Standards are statements that identify what students should know and be able to do in the classroom. Standards serve as goals for teaching and learning. Setting high standards enables students, parents, educators, and citizens to know what students should have learned at a given point in time. Once standards are identified, a curriculum must be developed that helps students meet and go beyond the standards. Curriculum includes standards, benchmarks, instructional strategies, activities, resources, and assessments.

The Pecatonica Area School District (PASD) utilizes standards from one or several state and/or national organizations, including all or parts of the standards. PASD generally relies on the state standards promulgated by the Wisconsin Department of Public Instruction. The chart below indicates what set of standards each curricular area utilizes.

Discipline	Standards
Agriculture	<ul style="list-style-type: none"> ● Wisconsin Standards for Agriculture, Food, and Natural Resources
