INDEPENDENT AUDITOR'S REPORT

To the Board of Education Alden-Hebron Community Consolidated Unit School District No. 19 Hebron, Illinois

We have audited the accompanying basic financial statements of

Alden-Hebron Community Consolidated Unit School District No. 19

as of and for the year ended June 30, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Illinois State Board of Education as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Alden-Hebron Community Consolidated Unit School District No. 19 on the basis of financial reporting provisions of the Illinois State Board of Education, which is a basis of accounting other than accounting principles

generally accepted in the United States of America, to meet the requirements of the Illinois State Board of Education. Also as described in Note 1, Alden-Hebron Community Consolidated Unit School District No. 19 prepares its financial statements on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Alden-Hebron Community Consolidated Unit School District No. 19 as of June 30, 2018, or changes in financial position for the year then ended.

Unmodified Opinion on Regulatory Cash Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of Alden-Hebron Community Consolidated Unit School District No. 19 as of June 30, 2018, and the revenue it received and expenditures it paid for the year then ended, in accordance with the financial reporting provisions of the Illinois State Board of Education as described in Note 1.

Change in Accounting Principle

As described in Note 18 to the financial statements, the District implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* and GASB Statement No. 85, *Omnibus 2017*. Our opinion is not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Alden-Hebron Community Consolidated Unit School District No. 19's basic financial statements. The supplemental information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements.

Such information is the responsibility of management and was derived from, and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the average daily attendance figure included in the computation of operating expense per pupil and per capita tuition charges, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is

fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2018 on our consideration of Alden-Hebron Community Consolidated Unit School District No. 19's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Alden-Hebron Community Consolidated Unit School District No. 19's internal control over financial reporting and compliance.

Restriction on Use

This report is intended solely for the information and use of management, the Board of Education, others within the District, and the Illinois State Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Alden-Hebron Community Consolidated Unit School District No. 19 Hebron, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of

Alden-Hebron Community Consolidated Unit School District No. 19

as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Alden-Hebron Community Consolidated Unit School District No. 19's basic financial statements and have issued our report thereon dated October 10, 2018. Our opinion was adverse because the financial statements are not prepared in accordance with generally accepted accounting principles. However, the financial statements were found to be fairly stated on the cash basis of accounting, in accordance with regulatory reporting requirements established by the Illinois State Board of Education, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alden-Hebron Community Consolidated Unit School District No. 19's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alden-Hebron Community Consolidated Unit School District No. 19's internal control. Accordingly, we do not express an opinion on the effectiveness of Alden-Hebron Community Consolidated Unit School District No. 19's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, which we consider to be a material weakness. This was reported to the management of Alden-

Hebron Community Consolidated Unit School District No. 19 in a separate letter dated October 10, 2018.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alden-Hebron Community Consolidated Unit School District No. 19's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Alden-Hebron Community Consolidated Unit School District No. 19 in a separate letter dated October 10, 2018.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ALDEN-HEBRON COMMUNITY CONSOLIDATED UNIT SCHOOL DISTRICT NO. 19 NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Alden-Hebron Community Consolidated Unit School District No. 19's (District) accounting policies conform to the cash basis of accounting as defined by the Illinois State Board of Education Audit Guide.

A. Principles Used to Determine Scope of Entity

The reporting entity includes the governing board and all related organizations for which the District exercises oversight responsibility.

The District has developed criteria to determine whether outside agencies with activities which benefit its citizens, including joint agreements which serve pupils from numerous districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships.

The joint agreements have been determined not to be part of the reporting entity after applying the manifesting of oversight, scope of public service and special financing relationships criteria and are therefore excluded from the accompanying financial statements because the District does not control the assets, operations, or management of the joint agreements. In addition, the District is not aware of any entity which would exercise such oversight as to result in the District being considered a component unit of the entity.

B. Basis of Presentation – Fund Accounting

The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and liabilities arising from cash transactions, fund balance, revenue received, and expenditures disbursed. The District maintains individual funds required by the State of Illinois.

These funds are grouped as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types and account groups are used by the District:

<u>Educational Fund</u> - The Educational Fund is the general operating fund of the District. It is used to account for all transactions that are not specifically covered in another fund. Certain expenditures that must be charged to this fund include the direct costs of instructional programs, health and attendance services, lunch programs, all costs of administration and related insurance costs. Certain revenues that must be credited to this fund include educational tax levies, tuition, and textbook rentals. Special Education is included in this fund.

Operations and Maintenance Fund – The Operations and Maintenance Fund is used to account for all costs of maintaining, improving, or repairing school buildings and property, renting buildings and property for school purposes, or paying of premiums for insurance on school buildings. Operations of this fund are generally financed by a special tax levied for these purposes.

<u>Debt Services Fund</u> – The Debt Services Fund is used to account for all principal, interest, and administrative costs for debt payments. Operations of this fund are generally financed by a special tax levied for these purposes.

<u>Transportation Fund</u> – The Transportation Fund is used to account for the costs associated with transporting pupils for any purpose. Revenue received for transportation purposes from any source must be deposited into this fund, including property taxes levied and state grants received for these purposes.

<u>Illinois Municipal Retirement/Social Security Fund</u> – The Illinois Municipal Retirement/Social Security Fund is used to account for costs of providing retirement benefits under Illinois Municipal Retirement Fund and Social Security, if there are separate taxes levied for these purposes. If separate taxes are not levied for these purposes, then the payments shall be charged to the fund where the salaries are charged.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities and contributions and donations from private sources.

<u>Working Cash Fund</u> – The Working Cash Fund is used to account for a separate tax levied for working cash purposes and for any bonds sold for this purpose. Cash available in this fund may be loaned to any fund of the District.

<u>Agency Fund</u> – The Agency Fund is used to account for Student Activity Funds and Convenience Accounts, which are assets held by the District as an agent for the students and teachers. This fund is custodial in nature and does not involve the measurement of the results of operations. The amounts due to the Activity Fund organizations are equal to the assets.

<u>General Fixed Assets Account Group</u> – The General Fixed Assets Account Group is used to record physical assets of the District that have a long-term (i.e. more than one year) period of usefulness.

<u>General Long-Term Debt Account Group</u> – The General Long-Term Debt Account Group is used to record total bonded debt and other long-term debt of the District.

Measurement Focus

The financial statements of all funds, except the Agency Fund and two account groups, focus on the measurement of spending or "financial flow" and the determination of changes in financial position rather than upon net income determination. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (cash receipts and other financing sources) and decreases (cash disbursements and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

General Fixed Assets and General Long-Term Debt Account Groups

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. Fixed assets used in operations are accounted for in the General Fixed Assets Account Group, rather than in the funds.

Long-term liabilities expected to be financed from funds are accounted for in the General Long-Term Debt Account Group, not in the funds.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

C. Basis of Accounting

Basis of accounting refers to when revenues received and expenditures disbursed are recognized in the accounts and how they are reported in the financial statements. The District maintains its accounting records for all funds and account groups on the cash basis of accounting under guidelines prescribed by the Illinois State Board of Education. Accordingly, revenues are recognized and recorded in the accounts when cash is received. In the same manner, expenditures are recognized and recorded upon the disbursement of cash. Assets of a fund are only recorded when a right to receive cash exists which arises from a previous cash transaction. Liabilities of a fund, similarly, result from previous cash transactions.

Cash basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do not arise from previous cash transactions.

Proceeds from sales of bonds are included as other financing sources in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

If the District utilized accounting principles generally accepted in the United States of America, the basic financial statements would be replaced with government-wide financial statements and fund financial statements. The fund financial statements would use the modified accrual basis of accounting. The government-wide financial statements would be presented on the accrual basis of accounting.

D. Budgets and Budgetary Accounting

The budget for all funds is prepared on the cash basis of accounting, which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. This is an acceptable method in accordance with Chapter 105, Section 5/17-1 of the Illinois Compiled Statutes. The budget was passed on September 19, 2017.

For each fund, total fund disbursements may not legally exceed the budgeted disbursements. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing on that date. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally adopted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year.
- 5. The Board of Education may make transfers between the various items in any fund not exceeding in the aggregate 10% of the total of such fund as set forth in the budget.
- 6. The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption.

E. Cash and Cash Equivalents and Investments

Separate bank accounts are not maintained for all District funds. Instead, the funds maintain their balances in common accounts, with accounting records being maintained to show the portion of the common bank account balances attributable to each participating fund.

Occasionally certain of the funds participating in the common bank accounts will incur overdrafts (deficits) in the account. Such overdrafts in effect constitute cash borrowed from other District funds and are, therefore, interfund loans which have not been authorized by School Board action. At June 30, 2018, no District fund had a cash overdraft.

The District has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at the lower of cost or market. Gains or losses on the sale of investments are recognized upon realization.

F. Inventories

It is the District's policy to charge all purchases of items for resale or supplies to expenditures when purchased. No inventory accounts are maintained to reflect the values of resale or supply items on hand.

G. Interfund Activity

Interfund activity is reported either as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate. All other interfund transactions are treated as transfers.

H. General Fixed Assets

General fixed assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as disbursements in the funds and capitalized at cost, if over \$500, in the General Fixed Assets Account Group. Donated general fixed assets are stated at estimated fair market value as of the date of acquisition. Depreciation accounting is not considered applicable (except to determine the per capita tuition charge, which is calculated on a straight-line basis with useful lives of 50 years for Buildings, 20 years for Improvements Other than Buildings, and 5 to 10 years for Equipment).

I. Governmental Fund Balances

Governmental fund balances are reported as "reserved" because they are legally segregated for a specific future use. The remaining balances are "unreserved" fund balances. From time to time, the Board agrees to set aside or "designate" resources for future uses – such as for specific capital projects. These unreserved, designated balances are based on management's tentative plans and can be changed.

J. Property Tax Calendar and Revenues

Property taxes are levied each calendar year on all taxable real property located in the District on or before the last Tuesday in December. The 2017 tax levy was passed by the board on November 21, 2017. Property taxes attach as an enforceable lien on property as of January 1 of the calendar year they are for and are payable in two installments early in June and early in

September of the following calendar year. The District receives significant distributions of tax receipts within one month after these dates.

K. Total Memorandum Only

The "Total Memorandum Only" column represents the aggregation (by addition) of the line item amounts reported for each fund and account group. No consolidating or other eliminations were made in arriving at the totals; thus they do not present consolidated information.

These totals are presented only to facilitate financial analysis and are not intended to reflect the financial position or results of operations of the District as a whole.

NOTE 2 - DEPOSITS AND INVESTMENTS

Deposits with financial institutions are fully insured or collateralized by securities held in the District's name. The District is allowed to invest in securities as authorized by the <u>School Code of Illinois</u>, Chapter 30, Section 235/2 and 6; and Chapter 105, Section 5/8-7.

Investments

As of June 30, 2018, the District had the following investments and maturities:

			Investment Maturities (in Years)								
Investment	F	air Value	Le	ess Than 1		1-5	5	5-10	More Than 10		
State Investment Pools	\$	1,576,894	\$	1,576,894	\$	-	\$	-	\$	-	

The fair value of investments in the State Investment Pools is the same as the value of pool shares. The State Investment Pools are not SEC-registered, but do have regulatory oversight through the State of Illinois.

Interest Rate Risk. The District's investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments based on credit risk. The District's investment policy further limits its investment choices to ensure that capital loss, whether from credit or market risk, is avoided. As of June 30, 2018, the District's investments were rated as follows:

Investment	Credit Rating	Rating Source
State Investment Pools	AAAm	Standard and Poor's

NOTE 3 - CHANGES IN GENERAL FIXED ASSETS

A summary of changes in General Fixed Assets follows:

	Balance						Balance
July 1, 2017 Additions		De	letions	Jui	ne 30, 2018		
\$	865,735	\$	-	\$	-	\$	865,735
	3,374,663		9,079		-		3,383,742
	1,607,384		155,823		-		1,763,207
\$	5,847,782	\$	164,902	\$	-	\$	6,012,684
		July 1, 2017 \$ 865,735 3,374,663 1,607,384	July 1, 2017 \$ 865,735 3,374,663 1,607,384	July 1, 2017 Additions \$ 865,735 \$ - 3,374,663 9,079 1,607,384 155,823	July 1, 2017 Additions De \$ 865,735 \$ - \$ 3,374,663 9,079 1,607,384 155,823	July 1, 2017 Additions Deletions \$ 865,735 \$ - \$ - 3,374,663 9,079 - 1,607,384 155,823 -	July 1, 2017 Additions Deletions July \$ 865,735 \$ - \$ - \$ 3,374,663 9,079 - - 1,607,384 155,823 - -

NOTE 4 - CHANGES IN GENERAL LONG-TERM DEBT

Changes in general long-term debt are summarized as follows:

	E	Balance							E	Balance
	Ju	July 1, 2017 Add		dditions Retirements		Adjustments		June 30, 2018		
Lease Purchase Agreements	\$	204,555	\$	147,000	\$	84,500	\$	(41,718)	\$	225,337
General Obligation School										
Bond, Series 2010		435,000		-		20,000		-		415,000
	\$	639,555	\$	147,000	\$	104,500	\$	(41,718)	\$	640,337

The General Obligation School Bond is paid out of the Debt Service Fund and all lease purchase agreements are paid out of the Transportation Fund. Two adjustments were made to Long-Term Debt in fiscal year 2018. One was for a lease on a bus that was returned and the other was for a trade-in that occurred.

Long-term debt payable consisted of the following at June 30, 2018:

	Maturity	Interest	Face		Carrying	
	Date	Rate	 Amount		Amount	
Lease Purchase Agreements	Variable	2.65% - 3.1%	\$ 548,183	\$	225,337	
General Obligation School Bond,						
Series 2010	9/28/2030	3.25%-4.75%	520,000		415,000	

At June 30, 2018 the annual debt service requirements to service all long-term debt are:

Year Ending June 30	Principal	 Interest		Total
2019	\$ 113,124	\$ 25,983	\$	139,107
2020	77,709	22,708		100,417
2021	69,221	20,077		89,298
2022	55,282	17,564		72,846
2023	25,000	15,438		40,438
2024	30,000	14,250		44,250
2025	30,000	12,825		42,825
2026	35,000	11,400		46,400
2027	35,000	9,737		44,737
2028	40,000	8,075		48,075
2029	40,000	6,175		46,175
2030	45,000	4,275		49,275
2031	45,001	1,407	_	46,408
	\$ 640,337	\$ 169,914	\$	810,251

NOTE 5 - INTERFUND LOANS

There are no outstanding interfund loans at June 30, 2018.

NOTE 6 - SPECIAL TAX LEVIES AND RESERVED EQUITY

Social Security Tax Levy

Cash receipts and the related cash disbursements of this reserved tax levy are accounted for in the Illinois Municipal Retirement/Social Security Fund. A portion, \$27,932, of this fund's equity represents the excess of cumulative receipts over cumulative disbursements, which is reserved for future social security disbursements.

NOTE 7 - DEFICIT FUND BALANCE

No District fund had a deficit balance at June 30, 2018.

NOTE 8 - PROPERTY TAXES

Taxes recorded in these financial statements are from the 2017 (\$2,436,944) and 2016 (\$1,983,762) tax levies. A summary of the past three years' assessed valuations, rates, and extensions follows:

Tax Year		201	7	2016			2015		
Assessed Valuation	\$81,327,861		\$7	\$78,182,754			\$72,405,048		
	Rates		Extensions	Rates Extension		Extensions	Rates	E	xtensions
Purpose			_			_			
Educational	3.8177	\$	3,104,839	3.9266	\$	3,069,924	4.0000	\$	2,896,195
Special Education	0.3315		269,630	0.3443		269,199	0.3718		269,195
Operations and Maintenance	0.6677		543,003	0.6867		536,897	0.7342		531,576
Debt Service	0.0469		38,140	0.0488		38,140	0.0527		38,140
Transportation	0.3358		273,123	0.3540		276,736	0.5240		379,373
Municipal Retirement	0.1141		92,833	0.1215		95,000	0.1244		90,057
Social Security	0.0901		73,289	0.0000			0.0541		39,157
	5.4038	\$	4,394,858	5.4819	\$	4,285,896	5.8610	\$	4,243,693

NOTE 9 - OVEREXPENDITURE OF BUDGET

For the year ended June 30, 2018, the following funds had expenditures which exceeded the budget:

		Exce	Excess of Actual				
Fund	 Budget	Actual	Ov	er Budget			
Transportation	\$ 441,571	\$ 533,961	\$	92,390			

NOTE 10 - OPERATING LEASES, AS LESSEE

The District leases copiers under operating leases. Total lease expense for fiscal year 2018 was \$28,960. Annual requirements to cover outstanding lease agreements at June 30, 2018 are:

Year Ending June 30		Amount		
2019	- 5	\$	26,833	
2020			26,833	
2021			21,290	
2022			13,530	
2023			1,128	
	3	\$	89,614	

NOTE 11 - RETIREMENT FUND COMMITMENTS

A. Teachers' Retirement System of the State of Illinois

General Information About the Pension Plan

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action

with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at http://www.trsil.org/financial/cafrs/fy2017; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with ten years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last ten years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2% of final average salary up to a maximum of 75% with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with ten years of service, or a discounted annuity can be paid at age 62 with ten years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3% increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of 3% of the original benefit or ½% of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2019.

Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2017 was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-Behalf Contributions to TRS - The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2018, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$1,845,625 in pension contributions from the State of Illinois.

<u>2.2 Formula Contributions</u> - Employers contribute 0.58% of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2018 were \$14,584.

<u>Federal and Special Trust Fund Contributions.</u> When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2018, the District pension contribution was 10.10% of salaries paid from federal and special trust funds. For the year ended June 30, 2018, salaries totaling \$0 were paid from federal and special trust funds that required District contributions of \$0.

Employer Retirement Cost Contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the ERO. The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5% and applies when the member is age 55 at retirement. For the year ended June 30, 2018, the District paid \$0 to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2018, the District paid \$124 to TRS for employer contributions due on salary increases in excess of 6% and \$0 for sick leave days granted in excess of the normal annual allotment.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2018, the District has a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The State's support and total are for disclosure purposes only. The District's proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District follows below:

District's proportionate share of the net pension liability	\$ 301,969
State's proportionate share of the net pension liability associated with the District	18,753,452
Total Net Pension Liability	\$ 19,055,421

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2017, relative to the contributions of all participating TRS employers and the State during that period. At June 30, 2017, the District's proportion was 0.0003953%, which was an increase of 0.0001555% its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$1,845,625 and revenue of \$1,845,625 for support provided by the State. At June 30, 2018, the deferred outflows of resources and deferred inflows of resources related to pensions were from the following sources:

	 red Outflows Resources	 rred Inflows Resources	t Outflows Resources
Differences between expected and actual experience	\$ 3,280	\$ (139)	\$ 3,141
Net difference between projected and actual earnings on pension			
plan investments	207	-	207
Changes of assumptions	20,154	(8,677)	11,477
Changes in proportion and differences between employer			
contributions and proportionate share of contributions	118,051	(154,742)	(36,691)
Employer contributions subsequent to the measurement date	 14,584	 -	14,584
	\$ 156,276	\$ (163,558)	\$ (7,282)

\$14,584 of deferred outflows of resources related to pensions results from employer contributions subsequent to the measurement date. Other deferred outflows of resources and deferred inflows of resources related to pensions will be part of the pension expense in future years as follows:

Year Ending June 30	 Amount		
2019	\$ (3,674)		
2020	(23,659)		
2021	(8,575)		
2022	11,344		
2023	 2,698		
	\$ (21,866)		

Actuarial Assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	varies by amount of service credit
Investment Rate of Return	7.0%, net of pension plan investment
	expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014. The same assumptions were used in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	14.4%	6.94%
U.S. equities small/mid cap	3.6%	8.09%
International equities developed	14.4%	7.46%
Emerging market equities	3.6%	10.15%
U.S. bonds core	10.7%	2.44%
International debt developed	5.3%	1.70%
Real estate	15.0%	5.44%
Commodities (real return)	11.0%	4.28%
Hedge funds (absolute return)	8.0%	4.16%
Private Equity	14.0%	10.63%
Total	100.0%	

Discount Rate

At June 30, 2017, the discount rate used to measure total pension liability was 7.00%, which was a change from the June 30, 2016 rate of 6.83%. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2017 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2016, the discount rate used to measure the total pension liability was 6.83%. The discount rate was lower than the actuarially-assumed rate of return on investments that year because TRS's fiduciary net position and the subsidy provided by Tier II were not sufficient to cover all projected benefit payments.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point-higher (8.00%) than the current rate.

				Current		
	1	% Lower	Dis	count Rate	1	% Higher
		6.00%		7.00%		8.00%
Employer's proportionate share		<u>.</u>				
of the net pension liability	\$	371,008	\$	301,969	\$	245,420

TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2017 is available in the separately issued TRS *Comprehensive Annual Financial Report.*

B. Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011 are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last ten years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last ten years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

All appointed employees of a participating employer who are employed in a position normally requiring 600 hours (1,000 hours for certain employees hired after 1981) or more of work in a year are required to participate. At December 31, 2017, the measurement date, the District's membership consisted of:

Retirees and beneficiaries currently receiving benefits	39
Inactive plan members entitled to but not yet receiving benefits	42
Active plan members	31
Total	112

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2017 was 11.33%. For the fiscal year ended June 30, 2018, the District contributed \$86,600 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The components of the net pension liability of the IMRF as of December 31, 2017, calculated in accordance with GASB Statement No. 68, were as follows:

Total Pension Liability	\$ 3,826,594
IMRF Fiduciary Net Position	3,638,199
District's Net Pension Liability	188,395
IMRF Fiduciary Net Position as a Percentage	
of the Total Pension Liability	95.08%

See the Schedule of Changes in the Employer's Net Pension Liability and Related Ratios in the Supplemental Financial Information following the notes to the financial statements for additional information related to the funded status of the plan.

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2017 using the following actuarial methods and assumptions:

Assumptions

Inflation 2.50%

Salary Increases 3.39% - 14.25% including inflation

Interest Rate 7.50%

Asset Valuation Method Market value of assets

Projected Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition, last updated for the 2017 valuation according to an

experience study from years 2014 to 2016.

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2017:

Asset Class	Target Allocation	Projected Return
Equities	37.0%	6.85%
International Equities	18.0%	6.75%
Fixed Income	28.0%	3.00%
Real Estate	9.0%	5.75%
Alternatives	7.0%	
Private Equity		7.35%
Hedge Funds		5.05%
Commodities		2.65%
Cash	1.0%	2.25%
	100.0%	

Single Discount Rate

The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this discount rate, the expected rate of return on plan investments is 7.50%; the municipal bond rate is 3.31%; and resulting single discount rate is 7.50%.

Changes in the Net Pension Liability

	Total			Plan	Net		
		Pension		Fiduciary	Position		
		Liability	Net Position			Liability	
		(A)		(B)		(A)-(B)

	\$ (172,183)

C. Social Security

Employees not qualifying for coverage under the Teachers' Retirement System of the State of Illinois or the Illinois Municipal Retirement Fund are considered "non-participating employees." These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security. The District paid the total required contribution for the current fiscal year.

NOTE 12 - POST EMPLOYMENT BENEFIT COMMITMENTS

A. Teacher Health Insurance Security Fund (THIS)

General Information About the OPEB Plan

Plan Description

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General (http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp). The current reports are listed under "Central Management Services" (http://www.auditor.illinois.gov/Audit-Reports/CMS-THISF.asp). Prior reports are available under "Healthcare and Family Services" (http://www.auditor.illinois.gov/Audit-Reports/HEALTHCARE-FAMILY-SERVICES-Teacher-Health-Ins-Sec-Fund.asp).

Benefits Provided

The State of Illinois offers comprehensive health plan options, all of which include prescription drug and behavioral health coverage. The State of Illinois offers TCHP, HMO, and OAP plans.

- Teachers' Choice Health Plan (TCHP) benefit recipients can choose any physician or hospital
 for medical services; however, benefit recipients receive enhanced benefits, resulting in lower
 out-of-pocket costs, when receiving services from a TCHP in-network provider. TCHP has a
 nationwide network and includes CVS/Caremark for prescription drug benefits and Magellan
 Behavioral Health for behavioral health services.
- Health Maintenance Organizations (HMO) benefit recipients are required to stay within the health plan provider network. No out-of-network services are available. Benefit recipients will need to select a primary care physician (PCP) from a network of participating providers. The PCP will direct all healthcare services and make referrals to specialists and hospitalization.
- Open Access Plan (OAP) benefit recipients will have three tiers of providers from which to choose to obtain services. The benefit level is determined by the tier in which the healthcare provider is contracted.
 - Tier I offers a managed care network which provides enhanced benefits and operates like an HMO.
 - Tier II offers an expanded network of providers and is a hybrid plan operating like an HMO and PPO.
 - Tier III covers all providers which are not in the managed care networks of Tiers I or II (i.e., out-of-network providers). Using Tier III can offer benefit recipients flexibility in selecting healthcare providers but involves higher out-of-pocket costs. Furthermore, benefit recipients who use out-of-network providers will be responsible for any amount that is over and above the charges allowed by the plan for services (i.e., allowable charges), which could result in substantial out-of-pocket costs. Benefit recipients enrolled in an OAP can mix and match providers and tiers.

Contributions

For the fiscal year ended June 30, 2018, the State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.18% of salary and for every employer of a teacher to contribute an amount equal to .88% of each teacher's salary. For the fiscal year ended June 30, 2017, the employee contribution was 1.12% of salary and the employer contribution was .84% of each teacher's salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the Teachers' Health Insurance Security Fund (THIS), an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-Behalf Contributions to THIS. The State of Illinois makes employer benefit contributions on behalf of the District. For the year ended June 30, 2018, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net OPEB liability associated with the District, and the District recognized revenue and expenditures of \$28,240 in benefit contributions from the State of Illinois.

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs</u>

At June 30, 2018, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state benefit support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 3,197,765
State's proportionate share of the net OPEB liability associated with the District	3,482,304
Total	\$ 6,680,069

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2017, relative to the contributions of all participating THIS employers and the State during that period.

At June 30, 2017, the District's proportion was 0.012323%, which was an increase of 0.000739% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District had benefit expense of \$25,932 and on-behalf revenue/expense of \$28,240 for support provided by the State. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred		Deferred		
	Outflows of		Inflows of		of Net Out	
	Resources		urces Resource		of	Resources
Differences between expected and actual experience	\$	-	\$	(1,811)	\$	(1,811)
Net difference between projected and actual earnings on						
OPEB plan investments		-		(35)		(35)
Changes of assumptions		-		(380,722)		(380,722)
Changes in proportion and differences between employee						
contributions and proportionate share of contributions		175,014		-		175,014
Employer contributions subsequent to the measurement date		22,127		-		22,127
	\$	197,141	\$	(382,568)	\$	(185,427)

\$22,127 of deferred outflows of resources related to OPEB results from employer contributions subsequent to the measurement date. Other deferred outflows of resources and deferred inflows of resources related to OPEB will be part of the OPEB expense in future years as follows:

Year Ending June 30	
2019	\$ (34,874)
2020	(224,573)
2021	(81,395)
2022	107,678
2023	 25,610
	\$ (207,554)

Actuarial Assumptions

The total OPEB liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary Increases	Depends on service and ranges from 9.25% at 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.
Investment Rate of Return	0%, net of OPEB plan investment expense, including inflation
Healthcare Cost Trend Costs	Actual trend used for fiscal year 2017. For fiscal years on and after 2018, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decrease to an ultimate trend of 4.5%. Additional trend rate of 0.59% is added to non-Medicare costs on and after 2020 to account for the Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for THIS experience. For disabled annuitants, mortality rates were based on the RP-Disabled Annuitant Table. All tables reflect future improvements using Projection Scale MP-2014.

The actuarial assumptions that were used in the June 30, 2016 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2012 through June 30, 2015.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Illinois Public Treasurers' Investment Pool	100.0%	0.68%
	100.0%	

Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since TRIP (Teachers' Retirement Insurance Program) is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 2.85% as of June 30, 2016, and 3.56% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, THIS's fiduciary net position at June 30, 2017 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on THIS investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

At June 30, 2017, the discount rate used to measure the total OPEB liability was 3.56%.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.56%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower (2.56%) or 1 percentage-point higher (4.56%) than the current rate.

	Current					
	19	6 Decrease	Di	scount Rate	19	% Increase
		2.56%		3.56%		4.56%
Employer's proportionate share of the net OPEB liability	\$	8,016,048	\$	6,680,069	\$	5,611,075

Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage-point lower or 1 percentage-point higher. The key trend rates are 8.00% in 2018 decreasing to an ultimate trend rate of 5.09% in 2025, for non-Medicare coverage, and 9.00% in 2018 decreasing to an ultimate trend rate of 4.5% in 2027 for Medicare coverage.

		Healthcare						
	19	6 Decrease	Co	st Valuation	19	% Increase		
		7.00% (a)		Rate		9.00% (b)		
Employer's proportionate share of the net OPEB liability	\$	5,391,500	\$	6,680,069	\$	8,529,593		

- (a) One percentage point decrease in healthcare trend rates are 7.00% in 2018 decreasing to an ultimate trend rate of 4.09% in 2025, for non-Medicare coverage, and 8.00% in 2018 decreasing to an ultimate trend rate of 3.50% in 2027 for Medicare coverage.
- (b) One percentage point increase in healthcare trend rates are 9.00% in 2018 decreasing to an ultimate trend rate of 6.09% in 2025, for non-Medicare coverage, and 10.00% in 2018 decreasing to an ultimate trend rate of 5.50% in 2027 for Medicare coverage.
- B. Post Employment Benefit Commitments Retiree Insurance Plan

Plan Overview

In addition to the Teacher Health Insurance Security Fund, the District provides post-employment benefits other than pensions ("OPEB") to employees who meet certain criteria. The Plan, a single-employer defined benefit plan, provides the following coverage:

Medical Coverage Full-Time Employees - IMRF

Pre-65 Coverage:

IMRF employees may continue District health insurance in retirement, however they are responsible for paying the full cost of the medical premium. Eligible Spouse/Dependent coverage may continue should the Retiree coverage terminate under COBRA provisions when an applicable qualifying event occurs. The Spouse/Dependent is responsible for the full cost of coverage. Post-65 Coverage:

IMRF employees may continue District helath insurance in retirement past Medicare eligibility, however they are responsible for paying the full cost of the medical premium. Eligible Spouse/Dependent coverage may continue should the Retiree coverage terminate under COBRA provisions when an applicable qualifying event occurs. The Spouse/Dependent is responsible for the full cost of coverage. Full-Time Employees - TRS

Pre-65/Post-65 Coverage:

TRS employees are not permitted to remain on District insurance in retirement and must seek outside coverage such as that offered through the THIS (Teacher Health Insurance Security) Fund. The District will pay for the TRIP Managed Care single health insurance premium for TRS retirees who meet the following criteria:

- -TRS employee retires at age 55-59 with 35 years of service to the District or retires at age 60+ with 20 years of service to the District.
- -TRS employee signs a non-rescindable agreement to retire by June 30th of the year prior to retirement.

The District does not pay for any portion of the TRIP premium in retirement nor provide a reimbursement/stipend for insurance costs for TRS retirees not meeting the above criteria. Once Medicare eligible, the District does not pay for any portion of the TRIP premium in retirement nor provide a reimbursement/stipend for insurance costs.

The Plan does not issue a stand-alone financial report.

Eligibility

Employees of the District are eligible for retiree health benefits as listed below:

Full-Time Employees - IMRF

Tier I IMRF Full-Time Employees:

- -Age 55 with at least 8 years of service (Reduced Pension)
- -Age 55 with at least 30 years of service (Reduced Pension)
- -Age 55 with at least 35 years of service (Full Pension)
- -Age 60 with at least 8 years of service (Full Pension)

Tier II IMRF Full-Time Employees:

- -Age 62 with at least 10 years of service (Reduced Pension)
- -Age 62 with at least 30 years of service (Reduced Pension)
- -Age 62 with at least 35 years of service (Full Pension)
- -Age 67 with at least 10 years of service (Full Pension)

Full-Time Employees - TRS

Tier I TRS Full-Time Employees:

- -Age 55 with at least 20 years of service (Reduced Pension)
- -Age 55 with at least 35 years of service (Full Pension)
- -Age 60 with at least 10 years of service (Full Pension
- -Age 62 with at least 5 years of service (Full Pension)

Tier II TRS Full-Time Employees:

-Age 62 with at least 10 years of service (Reduced Pension)

Membership in the plan consisted of the following at June 1, 2017, the date of the latest actuarial valuation:

Active Employees	67
Inactive Employees Entitled to but not yet Receiving Benefits	0
Inactive Employees Currently Receiving Benefits	0
Total	67

Contribution

The required contribution is based on projected pay-as-you-go financing requirements. Employees are not required to contribute to the plan.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2018, and the total OPEB liability was determined by an actuarial valuation as of July 1, 2017.

Actuarial Assumptions

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate 3.87%
Salary Rate Increase 2.25%
Expected long-term investment rate of retur N/A

	TRS N/A	coverages at age 65 at these rates.	

The actuarial assumptions used in the July 1, 2017 valuation were based on procedures that conform to the Alternative Measurement Method and generally accepted actuarial principles and practices.

There is no long-term expected rate of return on OPEB plan investments because the District does not have a trust dedicated exclusively to the payment of OPEB benefits.

Discount Rate

The District does not have a dedicated trust to pay retiree healthcare benefits. Per GASB 75, the discount rate should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale).

A rate of 3.87% is used, which is the S&P Municipal Bond 20-Year High-Grade Rate Index as of June 28, 2018.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage-point higher than the current discount rate:

Plan's Total OPEB Liability/(Asset)								
1%	1% Increase Valuation Rate			1%	Decrease			
\$	288,292	288,292 \$		\$	344,064			

Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage-point lower or 1 percentage-point higher than the current healthcare cost trend rates:

Plan's Total OPEB Liability/(Asset)							
Healthcare Cost							
1%	1% Increase		1% Increase Valuation Rate			1%	Decrease
\$	352,611	\$	314,176	\$	281,209		

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2018, the District recognized OPEB expense of \$24,533. At June 30, 2018, the District had no deferred outflows of resources and deferred inflows of resources related to OPEB.

Changes in total OPEB liability related to the difference in actual and expected experience, or changes in assumptions regarding future events, are recognized in OPEB expense over the expected remaining service life of all employees (16.91 years, active) in the postretirement plan.

NOTE 13 - INTERFUND TRANSFERS

There were no interfund transfers during the year ended June 30, 2018.

NOTE 14 - JOINT VENTURES

A. Special Education District of McHenry County (SEDOM)

The District and sixteen other districts within McHenry County have entered into a joint agreement to provide special education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the management council.

A summary of financial condition (cash basis) of SEDOM at June 30, 2017 (most recent information available) is as follows:

Assets	\$ 10,586,737
Liabilities	\$ 67,339
Fund Equity	10,519,398
	\$ 10,586,737
Revenues Received	\$ 10,650,472
Revenues Received Expenditures Disbursed	\$ 10,650,472 10,749,142
	\$ -,,

Complete financial statements for SEDOM can be obtained from the Administrative Offices at 1200 Claussen Drive, Woodstock, Illinois 60098.

B. Lake County Area Vocational System (LCAVS)

The District and seventeen other districts within Lake and McHenry Counties have entered into a joint agreement to provide vocational programs for member districts that are not offering these services individually. Each member district has a financial responsibility for annual and special assessments as established by the management council.

A summary of financial condition (cash basis) of LCAVS at June 30, 2017 (most recent information available) is as follows:

Assets	\$ 29,908,627
Liabilities	\$ 5,792
Fund Equity	29,902,835
	\$ 29,908,627
Revenues Received	\$ 9,405,611
Expenditures Disbursed	9,654,348
Other Financing Sources/(Uses)	-
Net Increase/(Decrease) in Fund Balance	\$ (248,737)

Complete financial statements for LCAVS can be obtained from the Administrative Offices at 19525 W. Washington Street, Grayslake, Illinois 60030.

C. McHenry County Cooperative for Employment Education

The District and eight other districts within McHenry County have entered into a joint agreement to provide vocational education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the Board of Control.

A summary of financial condition (cash basis) of McHenry County Cooperative for Employment Education at June 30, 2017 (most recent information available) is as follows:

Assets	\$ 240,301
Liabilities	\$ -
Fund Equity	 240,301
	\$ 240,301
Revenues Received	\$ 572,764
Expenditures Disbursed	555,092
Net Increase/(Decrease) in Fund Balance	\$ 17,672

Complete financial statements for McHenry County Cooperative for Employment Education can be obtained from the Administrative Offices at 2200 North Seminary Ave., Suite 207, Woodstock, Illinois 60098.

NOTE 15 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The District is a member of the Collective Liability Insurance Cooperative (CLIC), a joint risk management pool of school districts through which property, general liability, automobile liability, crime, excess property, excess liability, and boiler and machinery coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

The relationship between the District and CLIC is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The District is contractually obligated to make all annual and supplementary contributions for CLIC, to report claims on a timely basis, cooperate with CLIC, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by CLIC. Members have a contractual obligation to fund any deficit of CLIC attributable to a membership year during which they were a member.

CLIC is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Board of Directors. CLIC also provides its members with risk management services, including the defense and settlement of claims, and establishes reasonable and necessary loss of reduction and prevention procedures to be followed by the members.

During the year ended June 30, 2018, there were no significant reductions in insurance coverage. Also, there have been no settlement amounts that have exceeded insurance coverage. The District is insured under a retrospectively-rated policy for workers' compensation coverage. Whereas, the initial premium may be adjusted based on actual experience, adjustments in premiums are recorded when paid or received. During the year ended June 30, 2018, there were no significant adjustments in premiums based on actual experience.

NOTE 16 - CONTINGENCIES

The District is not aware of any litigation which might have a material adverse effect on the District's financial position.

NOTE 17 - LEGAL DEBT LIMITATION

The Illinois School Code limits the amount of indebtedness to 13.8% of the most recent available equalized assessed valuation (EAV) of the District. The District's legal debt limitation is as follows:

2017 EAV	\$ 81,327,861
Rate	 13.8%
Debt Margin	\$ 11,223,245
Current Debt	 640,337
Remaining Debt Margin	\$ 10,582,908

NOTE 18 - CHANGE IN ACCOUNTING PRINCIPLE

Effective for the year ended June 30, 2018, the District has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions and GASB Statement No. 85, Omnibus 2017. These Statements establish financial reporting standards for postemployment benefits other than pension agreements offered by the District. These statements also require additional disclosures about the postemployment benefits other than pension offered by the District.

Contributions as a Percentage of Covered-Valuation Payroll		11.31%		12.55%		13.53%		12.49%

Notes to Schedule:

Actuarial Method and Assumptions Used on the Calculation of the 2017 Contribution Rate *

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Actuarial Cost Method: Aggregate entry age = normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: 26-year closed period

Asset Valuation Method: 5-year smoothed market; 20% corridor

Wage Growth: 3.5%

Price Inflation: 2.75%, approximate; No explicit price inflation assumption is used in this valuation.

Salary Increases: 3.75% to 14.50%, including inflation

Investment Rate of Return: 7.50%

Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011 to 2013.

Mortality: RP-2014 Blue Collar Healthy Mortality Table, adjusted to match current IMRF experience. For disabled lives, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

*Based on Valuation Assumptions used in the December 31, 2015 actuarial valuation; note two year lag between valuation and rate setting.

^{* -} The amounts presented were determined as of the prior fiscal-year end

Changes of Assumptions:

For the 2017 and 2016 measurement years, the assumed investment rate of return was of 7.0%, including an inflation rate of 2.5% and a real return of 4.5%. Salary increases were assumed to vary by service credit.

For the 2015 measurement year, the assumed investment rate of return was 7.5%, including an inflation rate of 3.0% and a real return of 4.5%. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also 7.5%, including an inflation rate of 3.0% and a real return of 4.5%. However, salary increases were assumed to vary by age.
