

INVEST in your middle schooler's health

VACCINATIONS FOR MIDDLE SCHOOLERS

**Take action today --
Get your middle schooler fully vaccinated!**

TDAP VACCINE

protects against three serious diseases: tetanus, diphtheria, and pertussis (whooping cough).

Middle schoolers should get one Tdap shot.

MENINGOCOCCAL VACCINE

protects against a type of bacteria that can cause serious infections of the lining of the brain and spinal cord (meningitis) and bloodstream.

Middle schoolers should get one meningococcal (MenACWY) shot.

HPV VACCINE

protects both girls and boys from future infections that can lead to certain types of cancer.

Middle schoolers should get two doses of HPV vaccine 6 to 12 months apart.

FLU VACCINE

helps protect against seasonal flu. Even healthy middle schoolers can get very sick from flu and spread it to others.

Middle schoolers should get an annual flu vaccine ideally before the end of October.

COVID-19 VACCINE

help protects kids from getting COVID-19 and from getting seriously ill even if they do get COVID-19.

Check the Centers for Disease Control and Prevention's website to see if your middle schooler is eligible for the COVID-19 vaccine using this link: bit.ly/3tvbuPn
