## CCSO is a S.C.E. approved charter district. The current provision allows the district to use up to five (5) days in June. These days are for emergency situations such as inclement weather or utility interruptions. They are not planning days on the calendar. Days missed due to inclement weather are typically designated as school days. In the event a missed day is not made up through days of learning, in-person makeup days will be held on the following Teacher Inservice/Flex Days: February 6, March 28, and May 23.
