What Byers Elementary wants to do for your child: At Byers we want to create an atmosphere where the child wants to learn, where students are respected as a unique individual by their classmates and their teachers. We also want to give each child a feeling of success so that he/she can respect him or herself. Furthermore, we want to draw from each child his/her full potential so that he/she will have the necessary social academic tools to become a happy and productive member of society.

We also feel each child has certain responsibilities in order to help us meet the goals mentioned above. The child must respect the rights and differences of the people around him/her, along with their personal property. The child should be able to see that learning is a two-way street and his/her attitude has a direct bearing on his/her success in school. Hard work and a constant will to excel should be part of each child's daily routine.

You as parents can help us meet these goals with your youngsters by considering the following suggestions:

1. See that your child gets the proper amount of sleep each night.
2. See that your child gets an adequate breakfast.
3. See that your child comes properly dressed for the weather.
4. Help teach your child positive health and cleanliness habits.
5. See that your child attends school regularly and on time.
6. Ask to see your child's work.
7. Praise your child when he/she does a good job with his/her work.
8. Talk positively about your child's teacher and school.
9. If you have a question or concern go directly to your child's teacher or principal.

ADMISSION TO SCHOOL: A child entering Kindergarten must be 5 years of age on or before June 1st of the school year of registration. STUDENT DISCIPLINE

The Board believes that effective student discipline is a prerequisite for sound educational practice and productive learning. The objectives of disciplining any student must be to help the student develop a positive attitude toward self-discipline and socially acceptable behavior.

All policies and procedures for handling general and major student discipline problems shall be designed to achieve these broad objectives. Disorderly students shall be dealt with in a manner which allows other students to learn in an atmosphere which is safe, conducive to the learning process and free from unnecessary disruptions.

The board in accordance with state law has adopted a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The code also emphasizes that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action.
