## COVID Return to School Guidelines for 2023-2024

Vaccination Status	Type of Exposure	Quarantine Guidelines	Other Precautions	Return to Work or School
Not vaccinated	Exposed	No quarantine necessary, unless symptoms develop.	Test 5 days after exposure <b>if</b> symptoms develop.  Recommendation to wear a mask for 10 days after exposure.	No symptoms work/school as usual.
Current vaccination	Exposed	No quarantine necessary, unless symptoms develop.	Test 5 days after exposure <b>if</b> symptoms develop.  Recommendation to wear a mask for 10 days after exposure.	No symptoms work/school as usual.
Vaccinated or unvaccinated	<b>Test Positive</b>	5 days isolation if mild illness.  10 days isolation if very sick or weakened immune system.	Recommendation to wear a mask for 10 days after exposure.	May return to work/school 5 days after a positive test <b>ONLY</b> if you are fever free 24 hours without medication and your symptoms have improved.

Based upon CDC recommendations for K-12 Schools. See [cdc.gov](https://www.cdc.gov) for more information.
