*Notes – January 2019*

**Revenue**

**1.01 General Property (Real Estate):** Due to receiving our first advance property tax payment in January for the first half 2019 settlement, the budget vs. actual variance was 26%. This increased revenue is temporary and it is anticipated the budget vs. actual variance will decrease by the time we receive our final tax payment in February.

**1.035 Unrestricted Grants-In-Aid:** We continue to exceed projections in the state foundation funding line. The budget vs. actual variance slightly increased in January to 3.6%. We received our final Casino Tax payment in January and the amount received for the year exceeded projections by \$880.

**Expenditures**

**3.01 Personal Services:** Expenditures continue to trend less than projections. The budget vs. actual variance is 2.4%, which is the same variance seen in December. We are on track to spend very close to projections for the fiscal year.

**3.02 Employee's Retirement/Insurance Benefits:** The budget vs. actual variance increased from 1.4% (under budget) in December to 2.4% (over budget) in January. We are close to the projected expenditure on this line; however, due to the timing of the Ohio Bureau of Workers' Compensation premium payment in January, we spent more than projected for the month. The good news is that our 2019 premium is approximately \$12,000 less than projected.

**3.03 Purchased Services:** Purchased services expenditures were 10.9% less than projected for the month of January. We continue to see significant decreases in spending for students who attend community schools. We have also seen a decrease in our water and sewage bills. Electric bills are also trending less than expected; however, with the cold weather we had in January, we may see an increased cost in February.

**3.05 Capital Outlay:** Expenditures were 4.6% less than projected in January. We monitor this line carefully and charge capital items to the permanent improvement fund when appropriate, which gives relief to the general fund.
