

CITY HOT SPOTS

The Lawrenceburg Municipal Utilities will have City Hall open Monday for any student to work during the eLearning Day, and students will be provided a free lunch if they are at City Hall around lunch time. They will be provided wide and fast speed internet for their school work.

Second, Ludlow Hill Park will be a hotspot with the same wide and fast speed internet. Unfortunately, the park does not have any inside accommodations.

Also, the Community Center and other vendors around Lawrenceburg and Greendale provide free wifi access.
