

PARCC reports results according to five performance levels that delineate the knowledge, skills, and practices students are able to demonstrate.

The five Performance Levels for PARCC assessment are ranked as follows, with Level 1 being the lowest and Level 5 the highest:

- **Level 1:** The student performance demonstrated at this level *did not yet meet* academic expectations for the knowledge, skills, and practices embodied by the standards assessed at their grade level or course.
- **Level 2:** The student performance demonstrated at this level *partially met* academic expectations for the knowledge, skills, and practices embodied by the standards assessed at their grade level or course.
- **Level 3:** The student performance demonstrated at this level *approached* academic expectations for the knowledge, skills, and practices embodied by the standards assessed at their grade level or course.
- **Level 4:** The student performance demonstrated at this level *met* academic expectations for the knowledge, skills, and practices embodied by the standards assessed at their grade level or course.
- **Level 5:** The student performance demonstrated at this level *exceeded* academic expectations for the knowledge, skills, and practices embodied by the standards assessed at their grade level or course.

Students with Performance Levels 4 and 5 (met or exceeded expectations) have demonstrated readiness for the next grade level or course, which is considered “on track” for college and careers as defined by the new Illinois Learning Standards.
