% of students that exceeded/met growth target	Descriptive Rating	Numerical Rating	Final District Percentage
75-100	Excellent	4	% of Exceeding/Meeting Target: _____
60-74	Proficient	3	
46-59	Needs Improvement	2	
0-45	Unsatisfactory	1	% Below Target: _____ Numerical Rating: _____

# Alden-Hebron School District 19

## Student Growth **District Assessment** Scoring Template

### Directions

The template should be used to organize MAP data.

1. First, the teacher adds the name or identification number for each student into the worksheet. Additional rows may be added as needed.
2. Then, the teacher enters each student's baseline RIT score. Teacher can choose from math, reading, or language usage MAP tested areas.
3. Next, using the MAP numerical ratings the teacher enters each student's established growth target.
4. The teacher enters the final performance data for each student obtained through NWEA.
5. The teacher enters if each individual student exceeded/met the growth target by answering yes or no.
6. Once all the relevant information has been entered in the worksheet, attainment of the student's growth targets and overall teacher rating of student growth measures will need to be computed.
7. The following scale will be used to compute the District Assessment rating:

<b>% of students that exceeded/met growth target</b>	<b>Descriptive Rating</b>	<b>Numerical Rating</b>
<b>75-100</b>	<b>Excellent</b>	<b>4</b>
<b>60-74</b>	<b>Proficient</b>	<b>3</b>
<b>46-59</b>	<b>Needs Improvement</b>	<b>2</b>
<b>0-45</b>	<b>Unsatisfactory</b>	<b>1</b>
