All The News That Is

Lady Mountaineers in State Playoffs

Last Thursday, The Lady Mountaineers defeated Willamette Valley Christian 27-26.

On Saturday, they played in the Casco League Tournament at McMinnville High School. The FCHS girls defeated C.S. Lewis 28-22 and came in third in the league.

The Lady Mountaineers will play tonight against Damascus Christian at 6 p.m. in the first round of the state playoffs.

Boys Basketball Season Ends

The FCHS boys basketball season ended last week with a 30-53 loss to the St. Paul Buckaroos.

The score was 19-25 at halftime, and was neck and neck for the first three quarters. We felt defeated and a little bit aggravated. We should have won, but we just had too many errors and not enough points on the board. The feeling of getting sent home in the first round is gonna do nothing but make us work harder in the off season and make sure that it doesn't happen next year.

- Elliott Foust

All School Field Trip

Tomorrow, Wednesday, February 22, FCHS students will attend the NW Youth Careers Expo at the Oregon Convention Center in Portland.

Winter Concert Postponed

The Falls City School District's Winter Concert, which was scheduled for tonight at 6 p.m., has been postponed. The date is TBA.

A home game against C.S. Lewis.

The Gaslight Gazette

All the News That Isn't

A Review of the San Andreas Faultline

Located in California, the San Andreas Fault is one of America's most famous faultlines. Thus, the *Gaslight Gazette* is happy to release our review of this scenic attraction. To that end, we've dispatched a pair of journalists to the faultline.

After spending several weeks on location, the journalists reported that "nothing has happened. How long do we have to sit out here in the wilderness?" They went on to describe the faultline as "indistinguishable from normal ground unless there's an earthquake" and "lacking in any attractions," as well as having "non-existent customer service." Seismologists have also determined that the faultline is overdue to release massive seismic energy. Thus, in closing, the *Gaslight Gazette* is giving the San Andreas Faultline 2 out of 5 stars, and does not recommend visiting it.

Look forward to more reviews of scenic locations in future issues of the *Gazette*, such as the Equator, the Moon, and the Pacific Ocean.

Spray Eagles are now the Spray Bottles

"Eagles are generic," said a student familiar with the name change. "We wanted to attack the Lyle Cougars in a new way. Don't ask what we put in the bottles."

Newport High School Clams up about Mascot Change

When asked about the change from the Cubs to the Clams, a Newport High School spokesclam spit seawater and refused to open up.

So Last Year Words

OMG! Last year we were so bussin! We were dabbin' on those haters and we would yeet those pimps to the curb.

Last year caused a lot of emotional damage, but we were still so swag. Our eyebrows were on fleek, SLAY! We always kept it low-key freal. And that's mad crazy! So let's try and keep this year on the downlow.
