Classroom Teachers

The North Carolina Department of Public Instruction (NCDPI) allots teachers for projected student population county-wide rather than at individual schools. The 2014-15 teacher allotment formulas are shown below.

1 per 18 in ADM
1 per 17 in ADM.
1 per 24 in ADM.
1 per 23 in ADM.
1 per 26.5 in ADM.
1 per 29 in ADM.

Allotments to individual schools will always result in higher class sizes than the chart above shows for three reasons:

- o First, at the elementary level, the classroom teacher allotment must pay for teachers of subjects such as art, music, and physical education as well as regular classroom teachers. The art, music, and physical education positions must thus come "off the top" of the allotment.
- o Second, at individual schools, the number of students at each grade level will rarely equal an exact multiple of *any* allotment formula. Some grades will have a lower or higher number of students in each class due to differences in the total number of students at each grade level.
- Third, additional students arrive during the year and are placed in existing classrooms.
 We do not receive additional funding for students who arrive after the first month of school.

NCDPI's projection for Buncombe County Schools' grade-level totals for 2014-15 is shown on the next page. If our actual first month ADM for 2014-15 falls by more than 100 students from this level, our classroom teacher allotment will be adjusted downwards.

NCDPI allots PRC 001 positions district-wide, rather than requiring they be used at specific schools. In order to leverage the State position allotment, at the beginning of the school year the higher-paid teachers are placed in PRC 001, and lower cost teachers are budgeted to be paid from other sources of funds, including State dollar allotments.

To give two examples, PRC 032 supports special education programs and pays both teachers and instructional support personnel. Total State funding goes farther if more expensive special education teachers are paid from the PRC 001 position allotment, and less expensive teachers are paid from PRC 032 funds. Similarly, a more comprehensive English as a Second Language program can be supported if more expensive ESL teachers are paid from PRC 001, and less expensive teachers are paid with PRC 054 monies.

In addition, federal grants in some cases allow a less expensive teacher at the same school to be charged to the grant in lieu of the teacher actually performing the grant work. Because all federal grants are dollar awards, trading out positions between State and federal funding sources allows us to maximize the use of federal funds. For example, teachers in the Federal IASA Title I program often have a high number of years on their certificates and advanced degrees. Trading-out the actual Title I teacher at a school for a lower-paid classroom teacher at the same school stretches Title I funding for the school. The Federal grant pays for a lower-cost teacher, but the State PRC 001 allotment pays for the higher-cost Title I teacher.

Although Buncombe County Schools may pay a supplement as additional salary to teachers, it does not have the authority to set teacher base salaries. The State of North Carolina establishes teacher salary schedules.

Because these State-mandated salary schedules increase pay for experience, for additional education beyond the Bachelor's degree, and for obtaining National Board certification, the cost of a teacher can vary considerably. For example, a beginning teacher with only a Bachelor's degree earns only \$33,000 for his or her 215 day school-term employment, but a teacher with a doctorate, National Board certification, and 35 years experience earns \$63,530 for his or her 215 day school-term employment, almost twice as much.

We are fortunate that the State classroom teacher allotment is a "position allotment," rather than a dollar allotment, meaning that the State of North Carolina will cover the full cost of the teachers paid from that allotment. NCDPI monitors this allotment by the number of positions charged to the allotment, not by the dollars spent. In some States, schools are unable to hire the best qualified teachers because of their high cost.

The downside to PRC 001 being a position allotment is that, if turnover occurs during the year and a lower-paid employee is hired into a State-paid position, Buncombe County Schools cannot use the saved dollars within the position allotment to hire additional positions—those savings instead normally revert to the State of North Carolina at the end of the fiscal year.

Please note that the major reason for the increase from FY 14 to FY 15 in Fund 2 PRC 001 is because NCDPI disallowed the use of PRC 008. Those expenditures were coded to PRC 001 in the current year. Reference page 2-22 and 2-23 for further clarification.

Central Office Administration

The North Carolina Department of Public Instruction (NCDPI) allots dollars in PRC 002 to pay central office administrator positions of Superintendent, Associate/Assistant Superintendent(s), Finance Officer, and Personnel Administrator, as well as Directors of programs such as Child Nutrition, Instruction, Maintenance, Testing, and Transportation.

The allotment formula for PRC 002 was frozen for each local education agency (LEA) at the 2002-03 level with the General Assembly making across-the-board adjustments each year to the statewide total. The formula placed more emphasis on funding a "base" for each LEA than for funding for higher ADM, so smaller units receive much more funding per pupil from PRC 002 than do larger LEA's. Yearly across-the-board changes also tend to disadvantage larger LEA's.

The State of North Carolina does not issue salary schedules for Central Office Administrators. Instead, the State sets a maximum and a minimum pay for different levels of administrative positions. Each LEA not only assigns each central office administrator to one of these levels but also determines how to compensate individuals within the range specified. PRC 002 is a dollar allotment, not a position allotment, so actual salaries paid determine how many individuals can be funded from the State allotment and how many have to be paid from other sources.

In some cases, Federal grants can pay for the percentage of time that an administrator supervises that program. In general, however, local funds have to be used to make up the difference when all central office administrators cannot be paid within the funds allotted by the State. Local funds are also required when the salary paid to an administrator exceeds the pay ranges established by the State.

In addition to the administrators paid from the Central Office allotment with either local or State funds, there are three other Directors paid from other funding sources: the Director of Technology (local PRC 015), the Director of Communications (local PRC 897), and the Director of Federal Programs (Federal PRC's 50 and 51 and local 104). A part of the Federal Programs Director has to be paid locally because of a limitation on administrative costs chargeable to the Federal PRC 104 grant.

Non-instructional Support Personnel

The PRC 003 Non-instructional Support Personnel allotment can be used to pay the following types of employees:

• Substitutes for classroom teachers

Custodians

•Clerical Staff (Office Personnel)

The State pays "non-contributory employee benefits" – longevity pay, leave payouts when an employee separates, and both unemployment and workers' compensation insurance – from a separate non-budgeted allotment (PRC 009) rather than charging them to the same allotment that pays the employee's salary and other benefits – social security, retirement, and health insurance.

This State practice influences how PRC 003 funds are used. Because workers' compensation premiums for "blue collar" workers such as custodians is 6.3 times as high as the rate for "white collar" workers such as office personnel, the maximum value is received from State PRC 003 funds when they are used to pay for custodians rather than other job categories. Funds left in State PRC 003 after covering custodians' pay and benefits are used to pay clerical personnel.

The following clerical positions categories are currently paid from local PRC 003.

School-based:

NCWise Clerical - All schools

Head Secretary/Treasurers-Elementary

Bookkeepers - High & Middle

Secretary to Principal-High & Middle

Guidance Clerical - High

Sec. to Asst Principal - High

Central Office:
Maintenance Department Clerical

Payroll

Accounts Payable

Personnel

Benefits

Media Department

Student Services Clerical

Communications

Testing Department Clerical

Curriculum Clerical

Career Tech Ed Clerical

Purchasing Clerical

Facilities Planning Clerical

Please note that the reason it appears this allotment has increased this year is because many of these individuals were paid from PRC 155 Education Jobs federal funds in August and September last fiscal year. The Education Jobs money has expired September 30, 2012 meaning that state and local funds has to carry more of the expense for this category this year.

School-Based Administrators

The State of North Carolina provides one principal position for each school with at least 100 ADM or at least seven (7) state-paid teachers. Buncombe County Schools has 42 schools that qualify under this definition and therefore receives 504 months of employment for principals. (We only receive one principal position for both Middle College and Early College because both programs share the same physical site.)

In addition, the State provides one month-of-employment (MOE) of an assistant principal for each 98.53 in ADM. In 2014-15, our 25,640 in projected ADM yields 260 months of employment (MOE) for assistant principals. In addition, in recognition of the consolidation of Lucy Herring and Orthopedic Schools into the Progressive Education Program, NCDPI allows an additional 24 MOE to be requested annually, and that request was approved.

The number of assistant principal positions employed exceeds the State allotment, so additional funding beyond the State allotment is required. As was true for PRC 001 (Classroom Teachers), because PRC 005 is a position-type allotment, we leverage State funding by placing our more highly-paid assistant principals on State PRC 005 and pay the remainder from local PRC 005 or State PRC 010 (a dollar allotment funded by transfers from other State position allotments).

Instructional Support Personnel

Like Classroom Teachers, Instructional Support Personnel are allotted as positions rather than dollars. The North Carolina Department of Instruction (NCDPI) allots 1 position for every 218.55 ADM. Our 2014-15 initial allotment is 118 Instructional Support positions

In the Allotment Policy Manual, NCDPI defines the purpose of this allotment as:

Funding for salaries for certified instructional support personnel to implement locally designed initiatives that provide services to students who are at risk for school failure as well as the student's families. It is the intent of the General Assembly that the positions must be used first for counselors, then for social workers and other instructional support personnel that have a direct instructional relationship to students or teachers to help reduce violence in the public schools.

The Allotment Policy Manual makes clear that these positions cannot be used as administrators, coordinators, supervisors, or directors.

In fiscal year 14-15, the allotment after charter school reduction is 115.5 State-funded positions, and is used as follows:

- 1 Social Worker
- 45 Media Specialists
 - 1 Health Drug Educator
- 68.5 Guidance Counselors (including family-school specialists and student advocates with guidance licenses)

Dollars for K-3 Teachers

This allotment provides a separate account into which LEA's may transfer funds to pay for certified personnel. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable.

Part of the flexibility in the budget bill allowed LEA's to transfer funds from Teacher Assistants to hire teachers to serve K-12 via an ABC transfer. Buncombe County Schools took advantage of this flexibility in 2012-13 and may find this to be helpful in 2013-14 as the year progresses. The ABC transfer process was not allowed until much later in the fiscal year this year compared to last which is part of the reason why no such transfer has taken place thus far.

This program was deemed a duplicate of PRC 001 mentioned above. For this reason, these expenditures have been moved to PRC 001 this year.

Non-contributory Employee Benefits

State PRC 009 is not an allotment, but is an important piece of the allotment puzzle. The State of North Carolina pays certain benefits from PRC 009 rather than charging them to EITHER position or dollar allotments. These include longevity pay (except in PRC 013), any terminal payments (such as annual leave pay-out, bonus leave pay-out, and longevity pay-out) when an employee separates from service, and disability payments. NCDPI also covers the cost of workers' compensation premiums for all State-paid employees from monies it controls, but those payments are not shown on PRC 009.

As shown on the following pages, in fiscal year 2012-13, the State paid out just over \$3 million in longevity pay, disability pay, and terminal leave pay for state-paid Buncombe County Schools staff in addition to the amounts shown on State allotments.

Loss of non-contributory benefit payments was a hidden cost in the State's shifting of funding for non-instructional personnel from State allotment PRC 003 to Federal Stabilization funds because payments previously made from PRC 009 for those employees would have to be made from Federal Stabilization funds once the employees' salaries were moved to Federal stabilization funds. This is why it was important to at least move custodians back to State funds.

State funds are not budgeted for this category until the final budget revision each year because the PRC 009 funds are never shown on the allotment document. In the final budget amendment, an estimated amount is included for each purpose/function.

In the Local Current Expense Fund budget, we show only unpredictable expenditures (terminal payments and disability pay) in PRC 009. Other expense charged to PRC 009 in the State Public School Fund that can be estimated on an employee by employee basis are instead budgeted in the same PRC as the individual normal pay and benefits in order to show total program costs more accurately.

Beginning in 2013-14 the State Chart of Accounts has been updated for the payment of the new 1% reserve, as required by 2013 HB4. For payment of the 1% reserve for state paid employees State PRC 009 will be used and for locally paid employees the burden will be on local funds. The expenditure will be coded to the purpose code of the original salary, PRC 009, with object code 233. For federal employees, the 1% reserve only, will be available in each respective federal PRC and coded with the purpose code of the salary and object code 233. The unemployment object code will also be added to PRC 035 for Child Nutrition employees. The 1% tax was only for fiscal year 2013-14 and is no longer budgeted.

NBPTS Educational Leave

PRC 011 is another non-allotted program. The State pays for a substitute so teachers can have several days to prepare submissions to the National Board for Professional Teaching Standards (NBPTS). Through 2009-10, the State also paid the submission fee for teachers to submit their folders for evaluation. In 2010-11, the State discontinued that practice and only provides loans to teachers to cover the application expense.

Although the amounts provided to in PRC 011 are relatively modest, the fact that a teacher has to be State-paid to qualify for the state support does have an impact on how we can assign teacher among the various funding sources. Occasionally we have to pay a lower-cost teacher from State funds than we otherwise would and pay a more expensive teacher from other funds in order to let the teacher avail himself/herself of the State's support for the NBPTS application process.

Teachers who receive NBPTS certification receive a 12% increase in pay on an on-going basis. North Carolina has one of the highest concentrations of NBPTS-certified teachers in the nation, and Buncombe County Schools has one of the highest concentrations of NBPTS-certified teachers in the State.

Driver Education

The funding for the Driver Education allotment comes from a different source than all the other allotments – the State Highway Fund. Accordingly, funds provided for PRC 012 can never be transferred to any other allotment.

Buncombe County Schools contracts for Driver Education services rather than providing them directly. Under the current legislation fiscal year 2014-15 is the last year that the state will fund this program.

Career and Technical Education - Months of Employment

The fourth and final employment –based allotment made by the North Carolina Department of Public Instruction is the Months of Employment allotment (PRC 013) for Career and Technical Education teachers. NCDPI provides a base of 50 MOE to each local education agency (LEA); remaining funds are then allotted out based on the ADM of grades 8-12.

PRC 014 can pay Career Technical teachers, but it is a dollar allotment, not a position allotment.

Career and Technical Education – Program Improvement

This allotment supports Career Technical Education (CTE) program services and activities and can be used for instructional salaries, instructional support, or clerical personnel who help expand, improve, modernize, and develop quality CTE programs in grades 6-12.

Funds must be used to support the CTE Local Plan which is approved by the Buncombe County School Board and submitted to the Department of Public Instruction each year.

In Buncombe County Schools, PRC 014 funds pay substitutes for teachers who participate in staff development activities or who are involved in Career and Technical Students Organizations (CTSO's) as well as travel expenses of teachers and students who compete in state supported CTSO's. Funds also pay contracted services such as hazardous waste disposal for parts cleaners and criminal background checks for clinical Allied Health students.

The initial budget is in a generic 5120 purpose/function code, but BCS codes actual expenditures to the more descriptive purpose/functions that correspond to the CTE standard program areas in the curriculum:

- 5121 Agriculture
- 5122 Business/Information Technology
- 5123 Family/Consumer Science
- 5124 Health Occupations
- 5125 Marketing
- 5126 Middle Grades CTE
- 5127 CTE Technology
- 5128 Industry/Trades

The money can be spent in the following object codes: Supplies and Materials (411), Computer Software (418), Repair Parts and Materials (422), Non Inventory Equipment (461) and Inventory Equipment (462).

School Technology

State PRC 015 funds can be used only for parts, equipment and staff development to encourage wider use of technology in classrooms. No staff can be paid from State funds: technology personnel must all be paid from other sources, primarily the Local Current Expense Fund.

Technology support is provided by two separate units: technology infrastructure development and support activities (headed by the Director of Technology) and instructional/administrative technology support services (lead by the staff of Media/Instructional Technology).

Infrastructure Development & Support Purpose/Functions 5862, 6401, 651X Instructional/Administrative Support Purpose/Functions 5110, 5115, 5810, 5863, 6403, 6860

With 12,000 networked computers, phones, wireless access points, intercoms, printers, switches, and audio-visual devices in 45 physical locations, Buncombe County Schools has the largest North Carolina technology organization west of Greensboro except for Mission Hospital.

As shown by the staff category listing, infrastructure development and support has three major work groups in addition to the Director's office: maintenance, network operations, and specialty areas (video security, audio-visual, and telecommunications).

The **network operations** group insures reliability and safety of the entire Buncombe County Schools network including both internal communications and internet access. Among the unit's functions are controlling user access, setting standards for desktop software and hardware, and providing virus protection, security for email communications and internet filtering. Applications supported are: class content management (Moodle), central calendaring (OfficeTracker), BlackBerry Enterprise Services, media content (Destiny), Testing Web (Testing Server SPSS), Time/Attendance Clock-in (TACS), Child Nutrition Server, HVAC online services, Google Email, SuccessMaker elementary math and reading software, and the BOLT system.

Turning to the specialty areas, **video security** operations include installation, maintenance, and management of servers, cameras, and communications for video security in high schools, middle schools and the CEC; **audio-visual** operations include standardization and purchase of audio-visual equipment as well as maintenance of TVs, displays, cameras, digital recorders, players, projection equipment, UPS batteries, sound equipment, and all other electronic equipment used by schools; and **telecommunications** operations include installation and maintenance of network cabling used for data, phones, voice messaging, speakers, intercoms, public address systems, horns, bells, buzzers, scoreboards, air handling equipment, mounted projection equipment, interactive display equipment, media distribution equipment, cell phones, and clocks.

As also shown by the staff listing on the preceding page, the Instructional/Administrative Support area also has three major work groups.

The school-based **Distance Learning Lab** assistants provide a opportunity for students to take on-line courses by maintaining and operating the computer labs that access on-line classes.

The NC WISE/Administrative Computing team offers training and support to users of administrative (non-instructional) software applications, including NCWISE (eSIS), and AS/400 applications, SPEED and TACS Payroll, and Microsoft Office products. Student statistical information such as average daily attendance, average daily membership, attendance percentages, and membership by ethnicity and gender are available.

The **Instructional Support** team strives to provide high quality research-based professional development based on continuous improvement to promote best practices within the district. Instructional Technology Facilitators collaborate with teachers and media coordinators to promote seamless technology integration, conduct staff development, and model instruction throughout the district. One of the Instructional Technology Facilitators oversees the distance learning instruction which includes Course Recovery, North Carolina Virtual Public High School, and the Learn and Earn Program.

Summer Reading Camps

The funding for the Summer Reading Camps was appropriated with the funding for the Excellent Public Schools Act (FY 2013-2014).

Summer Camps shall be:

- (1) Six to eight weeks long, four to five days a week,
- (2) Include at least three hours of instructional time per day,
- (3) Be taught by compensated licensed teachers selected based on demonstrated student outcomes in reading proficiency; and
- (4) Allow volunteer mentors to read with students.

Faculty Exchange Teachers

Position conversion used to cover costs associated with bringing an international visiting faculty member to the LEA through the International Exchange Program will be converted at the statewide average salary (including benefits) for classroom teachers.

Buncombe County Schools partners with VIF International Education which builds global education programs that prepare students for success in an interconnected world. For more than 25 years, educators have leveraged VIF's professional development and curriculum, language acquisition and teacher exchange programs to generate engaging learning environments where students can excel in core curriculum as well as develop valuable 21st century skills. A certified B Corp headquartered in Chapel Hill, N.C., VIF provides a pathway for teachers, schools and districts to become globally designated.

Buncombe County Schools has 12 FTE in 2014-15 from this program.

Disadvantaged Student Supplemental Funding

Although funding is allotted by a formula, each LEA must develop a plan based upon student needs to submit to the State Board of Education for approval. That plan must focus on meeting the needs of disadvantaged students.

For year 2014-15 this funding will be used for 9 FTE of ESL teachers as well as 4 FTE of teachers serving our Middle College. The 4 FTE serving Middle College is one teacher in the areas of Math, Social Studies, Science, and English.

The Middle College program on the campus of AB Tech provides an option for students who may have already entered the workforce and for whom the traditional high school social environment is not a good fit.

DSSF funds are entirely devoted to salary and benefit expenses for the following positions:

Middle College	A C Reynolds MS	A C Reynolds HS
1 Math teacher	.4 ESL teacher	.5 ESL teacher
1 Social Studies teacher		
1 English teacher	Cane Creek MS	C D Owen HS
1 Science	.1 ESL teacher	.5 ESL teacher
Clyde A Erwin HS		
1 ESL Teacher	Enka Middle	Enka HS
	.5 ESL teacher	.5 ESL teacher
Newcomer Center		
1 ESL Teacher	C A Erwin Middle	Fairview ES
	2 ESL teacher	.25 ESL teacher
Hominy Valley ES		
.5 ESL teacher	TC Roberson HS	Valley Springs MS
	.5 ESL teacher	.50 ESL teacher
C D Owen MS		
.5 ESL teacher	Glen Arden ES	NB High School
	.25 ESL teacher	.50 ESL teacher
NB Middle School		
.50 ESL teacher

Indian Gaming Funds

Session Law 2012-6, Senate Bill 582 states:

Funds received in the Indian Gaming Education Revenue Fund are hereby appropriated as received to the State Public School Fund for quarterly allotment by the State Board of Education to local school administrative units, charter schools, and regional schools on the basis of allotted average daily membership. The funds allotted by the State Board of Education pursuant to this section shall be nonreverting. Funds received pursuant to this section by local school administrative units shall be expended for classroom teachers, teacher assistants, classroom materials or supplies, or textbooks."

To eliminate having to manage and balance a small allotment, these funds may be ABC transferred into a larger allotment in order to be better utilized. For example, these funds may be moved to the Teacher Assistant allotment (PRC 027).

Instructional Assistants

When the State first created the K-3 instructional assistant allotment, a teacher assistant was provided for every K-3 teacher given in the initial classroom teacher allotment. Even though the PRC 027 allotment was a dollar rather than a position allotment, the State would increase the dollars allotted if additional K-3 classroom teacher positions were given after the 10th day due to an increase in K-3 ADM. A 1:1 ratio of K-3 assistants to teachers was assured.

Around 1995, however, the formula to fund instructional assistant positions was changed to dollars-per-ADM based solely on the K-3 student count. The new formula did not keep pace with salary increases for teacher assistants mandated by the General Assembly. In some years, the dollars per ADM was even reduced to help balance the State budget. In addition, during the late 1990's and early 2000's class size reductions resulted in an increased number of K-3 classrooms. The dollars per ADM formula for the K-3 instructional assistant allotment was never increased to adjust for the higher number of teachers.

For year 2014-15 the planning allotment was \$7,613,699, but after the budget was approved our initial allotment came in at only \$5,943,009, an over \$1.6 million decrease. In order to help offset this, the decision was made to not fill 30.5 vacant teacher assistant positions.

Behavioral Support

This allotment was originally named after the student who was the subject of a class action suit against the state: "Willie M". The allotment targets the most severely behaviorally and emotionally impaired students. Applications are submitted for these funds in the spring, and allotments are typically made in the late summer immediately prior to start of school. The proposals submitted describe how the funds would be used and typically request about twice as much money as is approved. If funds are not completely allotted across the state, some unfunded requests have the chance of being at least partially funded later on in the year.

Buncombe County Schools uses these funds to support a Day Treatment Program that is run cooperatively with Families Together, a community mental health service provider. Students must have a qualifying mental health diagnosis in order to access the program. Both regular and special education students are served in classrooms staffed with two teachers, two assistants, and mental health support workers. Placements are usually limited to 90 days.

Digital Learning

The purpose of these funds is to deliver educator professional development related to Home Base Systems. The Home Base related training must be focused on using digital and other instructional technologies to provide high-quality, integrated digital teaching and learning to all students, and acquiring quality digital content to enhance instruction.

Children with Special Needs

The State PRC 032 allotment is Buncombe County Schools' primary source of funding for special education. The allotment is based on the April 1 headcount of the preceding year, but a cap limits funding to 12.5% of the projected ADM for the coming year. The chart below shows April headcounts for the past five years. The December 1 headcount generates federal funding.

These funds address almost every area of need within special education programs. Because we cannot bill Medicaid for staff who are paid from federal sources, all therapists (Occupational, Physical, Speech Language) are typically paid from State PRC 032 so that we can bill Medicaid for their services. Occupants of these positions usually have advanced degrees and are relatively expensive. The majority of our special education teachers are also paid from this source. In recent years, the cost of nursing services for students that require a full time nurse with them throughout the school day has grown -- currently three students require this service, which we contract through home health providers. PRC 032 also support psychologists and Program Placement Specialists who provide support in the schools for administrators and teachers.

This funding also covers preschool needs. We provide a special education teacher to each Headstart program housed in our elementary schools as well as itinerant teachers to serve students in the day care and preschool settings across the county.

Local PRC 032 funds pay the local supplement and local travel for itinerant staff. Positions unable to be paid from State PRC 032 are paid by local funds including four Child Find Specialists who work district-wide to access community resources for students referred for evaluation and those currently identified as special education students. In addition, a Curriculum Manager and an Exceptional Children Program Manager are funded locally. They oversee the Child Find Specialists, as well as the Behavior and Autism Outreach, Homebound, State Improvement Project in Reading and Math, and Academically/Intellectual Gifted programs.

Some general information about the Special Services Department programs may also be helpful. In addition to State PRC 029, 032, and 063 funds, the special needs population services are funded by several Federal grants.

Buncombe County Schools provides an array of program options available to meet the needs of students with disabilities. Special education services are provided in all schools. The majority (65.6%) of school aged students are served in the regular setting. Over ninety-four percent of preschool students with disabilities are served in settings with typically developing peers. Related services are provided to support students in accessing their special education services.

Services are delivered by 188 special education teachers, 13 school psychologists, 34 speech and language therapists, 185 teacher assistants, 6 Occupational Therapists, 3 Physical Therapists, 1 Physical Therapy Assistant, 4 Child Find Specialists and 9 unit wide Program Placement Specialists. Administratively, the program is staffed with a Director, Assistant Director, 3

Curriculum Managers, a Transition Specialist, a Data Manager and an Office Support position.

The Progressive Education Program (PEP) is a unique service provided by Buncombe County Schools for special needs students. The PEP program is a centralized program serving the most significantly disabled K-12 students who require constant adult supervision and assistance. Special education students are eligible to remain in public school until age 22 if they have not completed diploma requirements and the PEP routinely has students remaining until they age out. These students have multiple cognitive, physical, and health related disabilities. Students are served at one of three sites: Estes; Valley Springs; and TC Roberson. They typically receive multiple related services, specialized transportation and utilize a significant amount of assistive technology and equipment. The program is administered by a Director with the assistance of a Curriculum Manager. The program averages between 150 and 160 students with around 100 students in the high school program and 25 each at the middle and elementary sites.

Below is the allotment formula from DPI.

Children with Disabilities		
School Aged	\$3,926.97 per funded child count. Child count is comprised of the lesser of the	
	April 1 handicapped child count or 12.5% of the allotted ADM.	
Preschool	Base of \$58,628 per LEA; remainder distributed based on April 1 child count of ages	
	3, 4, and PreK- 5, (\$3,117.47) per child.	
Group Homes	Approved applications.	
Developmental Day Care (3-21)	To be allotted in Revision	
Community Residential Centers	To be allotted in Revision

Academically/Intellectually Gifted

Academically/Intellectually Gifted (AIG) funds are allotted by the state based on 4% of each LEA's enrollment.

For Buncombe County Schools, our 25,640 ADM would compute to an allotment for 1,025.60 students; this is then multiplied by the per child amount of \$1,280.77 to get funding amount.

The elementary AIG program assigns itinerant teachers to serve students in a K-2 Nurturing program and provide enrichment for identified students in grades 3-5.

The middle school level, AIG teachers are typically assigned to one school and provide services through consultation, subject group placement, or individualized programs.

High school students are provided consultation, honor classes and/or AP classes, individualized programs, subject acceleration, or dual enrollment.

School Resource Officers (SRO)

In accordance with Session Law 2013-360, Section 8.36, this account provides funding to local administrative units, regional schools, and charter schools for school resource officers in elementary and middle schools.

This funding is used to help pay the SRO contract with the County of Buncombe.

Compensation Bonus

This program is to provide funding for a compensation bonus for those teachers who didn't receive an increase based on the new salary schedule. The individuals most affected by this were the teachers that had 29+ years of experience, but others could have been affected as well. The compensation bonus, in most instances, is \$1,000 per year paid monthly, and is only for fiscal year 2014-15 per current legislation.

Limited English Proficiency

The North Carolina Department of Public Instruction (NCDPI) allots dollars in PRC 054 to provide funding for instructional services to students with limited English proficiency.

The funds allotted for limited English proficiency must be expended only for English as Second Language (ESL) teachers, ESL teaching assistants, tutors, textbooks, professional development, materials and supplies/equipment, and for additional interpreting/translation services to families of those students.

The allotment is based on a 3-year weighted average headcount or at least 2.5% of the ADM of the LEA.

Interpreters are paid from a combination of State and local PRC 054 funds, with instructional services being paid with State funds and administratively-related services being paid with local funds.

Learn and Earn

State PRC 055 is a Learn and Earn grant that supports the Buncombe County Schools Early College Program and the Nesbitt Discovery Academy. The funding stream for this and other Learn and Earn grants was a "Gates Grant" to the State of North Carolina from the Microsoft Foundation.

Major line items in PRC 055 include funds for counselors, textbooks, staff development and contracted services.

The majority of funds budgeted for contracted services are for the contract with Asheville-Buncombe Technical Community College (ABTCC) for their portion of the grant. Buncombe County Schools passes through this funding to AB Tech because Buncombe County Schools serves as the fiscal agent for the Learn and Earn grant.

Local PRC 055 covers the local supplement and related benefits for the counselors at Early College and Nesbitt Discovery Academy.

Student Transportation

The Buncombe County Schools' Transportation Department operates the 7th largest school bus transportation system in North Carolina. Each school day 290 school buses travel 16,600 miles and transport 16,800 students.

School bus drivers, who are well-trained and professional, along with highly-skilled mechanics, carry out the state's rigorous 30-day inspection and preventive maintenance program to ensure safe transportation for our students to and from school.

Funding for school bus transportation includes drivers' salaries and benefits, Transportation Department support staff (i.e., mechanics, fuel truck drivers, parts room personnel, cost clerks, routing specialists, and supervisors) salaries and benefits, utilities for the garage facility, supply items, and parts, oil, tires, and fuel for the buses.

Each employee in the Transportation Department and each school bus driver strive to provide safe, reliable and efficient transportation service to our state's most valuable resource -- Children.

The state transportation allotment for local education agencies (LEAs) is calculated by a funding formula based on efficiency measures. School transportation is the only part of the North Carolina Department of Public Instruction's budget that is funded on an efficiency based formula. The budget is examined each year and LEAs are funded on their ability to operate an efficient transportation system. The funding formula determines a budget rating by comparing all LEAs against one another. The main components that produce the budget rating are: (1) number of students transported, (2) number of buses operated, and (3) total expenditures.

If the State runs short of cash towards the end of the fiscal year, the transportation program is one area that is hit hard. For example, State transportation funds were frozen on April 16, 2009. Transportation departments were only allowed to purchase fuel and repair parts to keep the bus fleet running through the remainder of the school year, which has created low inventory levels. School bus driver overtime has been eliminated and drivers' time is being audited to help offset the reduction in state funding.

We will not know our final allotment until late November or early December when DPI finishes running the funding formula and issues our final allotment. In 2013-14 when our final allotment was calculated we received an additional \$1.8 million and should receive close to the same amount in 2014-15.

There is also continuing concern about fuel prices escalation because the State does not always make additional allotments to cover fuel price increases.

Instructional Supplies/Equipment

The State Instructional Supply and Equipment allotment (PRC 061) is in some ways more flexible that the corresponding allotment provided in the Local Current Expense Fund (also PRC 061) because State funds may be used to purchase capital equipment as well as consumable instructional materials.

Funds may also be transferred by individual schools between this State allotment and the State textbook funds, up to the total allotted in each category that year. However, funds that have been "carried-over" past fiscal year end in the Textbook allotment cannot be moved back into the State Instructional Supplies/Equipment allotment in a subsequent year. Once left in the State Textbook account past fiscal year-end, funds can only be used to purchase textbooks.

State funds do have some other restrictions on them that local funds do not – for example, State funds must be used only for items used directly by students. They cannot be used to purchase items that enhance the instructional program but that are used only by teachers.

In addition, all State funds have to be spent for the benefit of students in the same fiscal year as they are allotted. For instance, State funds cannot be used to pay for a newspaper or magazine subscription in the spring that will not start until school resumes in the fall. State Instructional Supply/Equipment funds cannot be used to purchase multiple years' worth of consumable goods.

Local Instructional Supply funds are more flexible and less restrictive in many of these areas, but are restricted to be used for consumable items because of the bifurcation of current expense and capital funding in the School Budget and Fiscal Control Act.

Principals had indicated that they would rather have less instructional supply funding than to have additional reductions to their non-instructional support personnel. The transfer of the State PRC 061 allotment into State PRC 003 accomplished that objective. Essentially, 53% of the State Instructional Supply allotment was given up in order to keep more custodians and clerical staff employed. Arrangements are being made on a case by case basis to enable schools to have access to capital funds when they need to buy instructional equipment during 2013-14.

For the past few years, the schools have received an equivalent of what was appropriated from the state. As in past years, the state funds may be transferred to PRC 003 in order to help sustain that allotment. The allotment transfer process was not approved by the State Board in time for the transfer to be made at the time this document was prepared.

Special Program Funds – Exceptional Child

PRC 063 is a special allotment for Developmental Day services made available through the State Board of Education to assist in providing special education and related services to eligible children with disabilities who are placed in accredited development day centers by local education agencies.

The program serves children with disabilities ages 3 through 21 in a developmental day center approved by the NC Department of Health and Human Services.

Buncombe County Schools uses these funds to support preschoolers enrolled at Irene Wortham Center and its new acquisition, Community Child Care.

Applications for funding are submitted annually and funds are considered "pass through" as they can only be used for the purpose of paying for these Developmental Day services.

The per-child allocation is for ten months of special education and related services and includes a rate per child per year for educational supplies, materials and equipment. The amount per child is prorated based on the entry date of the child.

The per-child amount for 2013-14 was \$10,041.00 for 10 months of service including \$50.00 for instructional supplies. Buncombe County Schools currently has an allotment of 25 slots for funding for this year. The district must seek approval for additional slots and more funding if more students appear during the year.

This funding comes through installments. We have only received one installment so far this year and expect the budget to be similar to last year, depending on enrollment in the program.

PRC 068/069

Alternative Schools/ At Risk Student Services

This allotment supports efforts to identify students likely to drop out of school before graduation and to provide special alternative instructional programs for these at-risk students. *When these programs are offered in a separate school*, the General Assembly has mandated that a separate PRC 068 be used for those expenditures so that they can be easily tracked and reported back to the legislature. *Alternative programs within traditional schools* are reported in PRC 069.

We receive "pass through" funding for a 12 month teacher and a 12 month assistant at the Swain Recovery Center which offers residential substance abuse treatment services.

School Connectivity

The School Connectivity allotment is made to enhance the technology infrastructure for public schools. Each Local Education Agency (LEA) must submit a School Technology Plan and have it approved by the North Carolina Department of Public Instruction (NCDPI) in order to become eligible to receive funding under this allotment. Expenditures made from the allotment must correspond to the approved School Technology Plan for the district.

State Textbook Allotment

The State Textbook Fund pays for the operation of the State Textbook Warehouse located in Raleigh and for textbook orders place by warehouse personnel on behalf of the 115 Local Education Agencies (LEA's). In years when an appropriation is made for textbooks, LEA's are given a "credit balance" upon which they may draw to order textbooks. LEA's in turn distribute the "credit balance" to their individual schools.

Similar to state PRC 061 instructional supplies, for the past couple of years these funds have been transferred to PRC 003 or PRC 027 and traded with local textbook funds in order to help offset the cuts in those areas.

Payments to Charter Schools

According to our latest invoices and the Charter School population estimate from NCDPI, Buncombe County Schools has seen a decrease of roughly 450 students that have chosen to attend charter schools. This raises our total from around 650 to 1100 students.

PRC 156 ARRA – Race to the Top

The State Stabilization Funds' Race to the Top competitive grants will be awarded to encourage and reward states that are "creating the conditions for education innovation and reform; implementing ambitious plans in four education reform areas and achieving significant improvement in student outcomes."

States will use the funds to create comprehensive strategies for addressing four key areas of reform that drive school improvement:

- Adopting international benchmarked standards and assessments that prepare students or success in college and workplace.
- Recruiting, developing, retaining and rewarding effective teachers and principals.
- Building data systems that measure student success and inform teachers and principals how they can improve their practices.
- Turning around the lowest-performing schools.

While a federal program, the Local Current Expense Fund provides funding to coaches related to Race to the Top activities.

Confucius Classrooms Chinese Guest Teacher Program

The Chinese Guest Teacher Program is the result of a partnership between the University of North Carolina's Center for International Understanding, College Board and Hanban, an affiliate of the Chinese Ministry of Education. Through this partnership, Buncombe County Schools is able to offer Mandarin language instruction at all six comprehensive high schools and at Buncombe County Early College. Currently, Buncombe County Schools employs three guest teachers from China. Salaries of the Chinese Guest Teachers are subsidized through this program.

The program also offers the benefits of cultural exchange for educators and students. Because of the subsidies offered by this program, several Buncombe County educators have been able to travel to China. Buncombe County Schools also hosted a delegation of Chinese educators and leaders in our area in September of 2011. Since the inception of this program, several teacher-led student groups have traveled to China during summer break.

School Activity Bus Fees (Ineligible Transportation Expense)

Because the same mechanics work on school activity buses as on "yellow" buses used to transport students to and from school each day and because gasoline and other items stocked by the Buncombe County Schools transportation department may be used to fuel or repair activity buses, an automated system keeps careful track of which vehicles are being worked on and what inventory is being issued.

Expenditures that are not eligible to be charged to the State Transportation allotment (PRC 056 in the State Public School Fund) are mandated by the North Carolina Department of Public Instruction not only to be charged to local funds instead of State funds but also to be charged to a different Program Report Code (PRC) than eligible expenditures. The designated PRC is 706.

Board of Education

The seven members of the Board of Education are elected to four-year terms. One candidate is elected from each of the six Buncombe County Schools attendance areas, and one is elected atlarge. Candidates are elected on a nonpartisan basis. Voters in each district vote for candidates from all districts and for the at-large candidate.

The Board establishes policies to guide Buncombe County Schools in areas that are not dictated by State law. The Board also sets programmatic priorities and provides leadership direction. Under some circumstances, the Board also serves a due-process function, providing a hearing for parents or others who wish to appeal administrative decisions.

The Board has defined Buncombe County School's vision as "preparing all students to realize their potential in a rapidly changing, diverse, global society" and set forth the district's mission "to collaborate with all stakeholders to provide a safe, caring, and engaging learning environment that prepares all students to become responsible citizens in a diverse, global society."

The monthly meetings of the Board, as well as Advisory Council meetings and other community forums, provide an opportunity for community participation in goal setting. The Board's members represent Buncombe County Schools at community functions, governmental meetings, and State and national convocations.

Buncombe County Schools is the state's 10th largest school system and the largest district in Western North Carolina. It is also Buncombe County's second largest employer with nearly 4,000 full-time employees and 42 schools:

- 23 Elementary Schools, Grades K-5
- 3 Intermediate School, Grades 5-6
- 7 Middle Schools, Grades 6-8
- 6 High Schools, Grades 9-12

- 2 Special Schools/Programs
- 1 Middle College
- 1 Early College
- 1 Discovery Academy

Buncombe County Schools has received district accreditation by the Southern Association of Colleges and Schools.

The operating expenses for the Board Members themselves are low. As is customary in North Carolina school districts, however, the "Board of Education" budget contains sizeable district-wide expenditures, such as for insurance, legal fees, and audit fees, because they relate to the entire district rather than to any specific area of operations.

Maintenance

The Maintenance Department provides HVAC, electrical, plumbing, carpentry, business equipment, health/safety, painting, custodial supplies and waste water treatment plant support for the 4,550,202 square ft. of Buncombe County Schools' facilities. The Maintenance staff helps maintain over 1,200 acres of BCS property, storm drainage systems and playgrounds. Staff also repairs and maintains the kitchen equipment in all Buncombe County Schools that the school-based Child Nutrition staff use to prepare and serve breakfast and lunch to students daily.

The Department also maintains and services 181 vehicles used by Special Services, Central Office, and Maintenance staff. The Maintenance department does its own NC DOT inspections, regular service maintenance and general repair.

Maintenance also oversees a number of contracts for Buncombe County Schools, ranging from trash pickup and recycling dumpsters to permitting for NC environmental and pressure vessel requirements.

In addition, the Maintenance Department completes 250-300 Capital Outlay projects per year.

Because utility expenses are such a large part of the district's budget, particular emphasis is given to maintaining the energy management systems in place and monitoring utility expenditures.

Testing

Local Current Expense funding for the Testing department provides:

- Contracted services for reports from the College Board and for secure disposal of testing materials,
- Office supplies for the generation of training materials, reports, and other communications
- Workshop expenses for Testing personnel to attend meetings and conferences
- Employment of three temporary testing assistants for 300 hours each to assist in end-of-year processing.

Sex Education Contract

In the past, Buncombe County Schools contracted with the Health Adventure and the Buncombe County Health Department for professional delivery of this sensitive curriculum to students. However, Health Adventure closed its doors and was no longer available to provide the classes. We hired two of the Health Educators from the Health Adventure to continue to do the programs for us. They are now BCS employees.

Intramural/ Extracurricular Stipends

Funds in this program report code (PRC) are used to pay a stipend or salary to high, middle, and elementary school staff members who carry out extra-curricular responsibilities related to the intramural and extra-curricular programs.

These programs include such activities as: prom, student council, yearbook, senior project, newspaper, drama, Girls on the Run and Odyssey of the Mind, to name a few.

Each school principal determines how to share a specified amount of funding among the many staff members who provide activities for students outside of the normal school day. Funds for the activities themselves are provided at the individual school level in "club and class" accounts.

Allotments to Schools

Some of the Local Current Expense Fund's appropriation from the County Commissioners is passed through to individual schools to provide funding for their office expenses and also to provide them with discretionary funds to spend for the student population as a whole and for activity/enrichment activities that would not otherwise be possible.

Elementary Curriculum Planning/Support

The Elementary Division of Instructional Services provides support and services for elementary school staffs and students. The Curriculum Department as a whole provides instructional support for each school using the instructional coaching method with the goal of supporting the long-term professional development of teachers. Curriculum leaders help principals and teachers identify their unique strengths and weaknesses, encourage staff to establish and meet long-term continuous improvement goals, and provide sustaining feedback and resources for long-term development.

Only the staff development specialist, a non-licensed position, is paid from PRC 846. That position manages the SEA System and all staff development activities.

The remaining employees working in the division are paid from other PRC's. The Director of Elementary Education is paid from local PRC 002 (central office administration). The thirteen elementary curriculum coaches and two math coaches are paid from a variety of funding sources including State and local PRC 007 (instructional support personnel), Title I Federal funds (PRC 050), and Title II Federal Funds (PRC 103).

The Director of Elementary Education and the elementary coaches plan educational strategies jointly with the specialists in the areas of math, science, arts education, and health/physical education as well as the Directors of Middle and High School Education and the Associate Superintendent for Instructional Services. The coaches then carry out these strategies by working directly with classroom teachers.

The PRC 846 budget provides mileage reimbursement to the curriculum coaches for occasional travel from school to school to coach, conducting workshops or attending meetings. Travel for the Elementary Education Director is included in this budget as well. Some supplies and materials for schools are purchased with PRC 846 funds such as At-Risk Folders, K-2 Assessment folders and Math Assessments. A line-item for Elementary Education Support contracts is also funded. This enables the Director of Elementary Education to bring consultants in to provide professional development for the curriculum coaches.

The annual accreditation renewal fee for the Southern Association of Colleges and Universities (SACS) is paid from this budget.

High School Curriculum Planning/Support

The High School Division of Instructional Services provides support and services for high school students, teachers and administrators. The Curriculum Department as a whole provides instructional support for each school using the instructional coaching method with the goal of supporting the long-term professional development of teachers. Curriculum leaders help principals and teachers identify their unique strengths and weaknesses, encourage staff to establish and meet long-term continuous improvement goals, and provide sustaining feedback and resources for long-term development.

As is the case in the Elementary School Curriculum Planning and Support Division, most of the employees performing High School Curriculum Planning and Support are paid elsewhere.

Only the additional salary/benefit payments for four curriculum specialists (whose base salary is paid from local PRC 007) are budgeted here. They support:

- K-12 Arts Education,
- Health/Physical Education,
- Mathematics
- 6-12 Language Arts/Social Studies.

A fifth specialist in Science does not receive additional salary because he is retired and working as contract employee.

The Director of High School Education is paid from local PRC 002 (central office administrators), and the two positions with which he works most closely, the High School Math Coach and the High School Literary Coach, are paid from Title I (Federal PRC 050) and Title II (Federal PRC 103), respectively.

The Director and the High School Math and Literary Coaches engage in joint planning sessions with the subject areas specialists listed above and then disseminate materials and strategies developed during those sessions to individual high school teachers. The Director of High School Education also works closely with the Directors of Elementary and Middle School Education and the Associate Superintendent for Instructional Services as well as Directors from other Departments in order to assure that the Buncombe County Schools K-12 curriculum constitutes a continuum of service and is aligned to North Carolina standards.

Because curriculum-based competitions are an excellent student motivator, a significant part of this division's budget supports these competitions. Student organizations must still seek donations and/or engage in fund-raising to finance their travel to competition events, but the subsidy provided by this division helps ease that burden.

Middle School Education/Beginning Teacher Program

The Middle School Division of Instructional Services provides curriculum support and instructional services to middle school staffs and students. The Curriculum Department as a whole provides instructional support for each school using the instructional coaching method with the goal of supporting the long-term professional development of teachers. Curriculum leaders help principals and teachers identify their unique strengths and weaknesses, encourage staff to establish and meet long-term continuous improvement goals, and provide sustaining feedback and resources for long-term development.

The Director of Middle School Education also serves as Director of Twenty First Century Professional Teaching Standards. In this latter role, she directs training toward implementation of the Twenty First Century Professional Teaching Standards. Those standards address instructional practices within all schools and link actual practice directly to the new teacher evaluation instrument in North Carolina.

The Director of Middle School Education/Twenty First Century Professional Teaching Standards works closely with the Personnel Director in setting high expectations for teachers' instructional practices and professional development. The beginning teacher coordinator is responsible for working with new teachers, mentors, student teachers, and teachers who are seeking National Board Certification. The mentors support beginning teachers who are in either their first, second or third year of teaching.

In her Middle School Education role, the director supervises two Middle School literacy coaches and two Middle School math coaches, who are paid from Federal funds. The coaches are assigned to 3 or 4 schools and work in these schools on a consistent schedule from week to week.

In all curriculum planning and coaching activities, the director works closely with the specialists in English/language arts, math, science, arts education, and health and physical education as well as the Directors of Elementary and High School Education and the Associate Superintendent for Instructional Services.

Media/Instructional Technology

This program provides services for teachers within the individual schools including courier service, equipment loan, securing textbooks, staff development, and video/audio editing. A professional collection housed at the central office contains a variety of print and video resources to meet the needs of students, as well as professional journals and teaching materials available for checkout.

Cultural Arts

The Cultural Arts Specialist oversees the supplemental funding for cultural arts activities provided by this program report code (PRC) and serves as resource to cultural arts teachers K-12.

All Buncombe County Schools middle and high schools have a band and chorus program (except Community High and Early/Middle College), and PRC 851 provides an allocation to schools for music scores and other related supplies. Band and Chorus directors receive extra duty pay from this PRC, and high school Band Directors also receive two weeks of extended employment at the beginning of school to rehearse their marching bands.

Funds are also provide in this PRC to provide strings instruction one semester each year at North Buncombe High, North Buncombe Middle, North Windy Ridge, Valley Springs, T C Roberson, Cane Creek, Erwin Middle, Erwin High, and Enka Middle.

All Middle and High school strings, wind and percussion players are eligible to audition for the Youth Orchestra each year, and each year All-County Chorus and Band clinics are held for middle and high school students. Honorariums for judges for both activities are paid from this budget.

All elementary schools and the PEP sites have general music and visual art classes, and all middle and high schools have visual arts programs except Early and Middle College. Each year an Elementary, Middle and High School Art Show is held at the Asheville Mall to showcase students' work.

This cultural arts budget also provides funding for a field trip for all fourth graders to attend a Young People's Concert presented by the Asheville Symphony at Thomas Wolfe Auditorium.

Erwin Middle, Enka Middle, and North Buncombe Middle offer drama classes in their curriculum, and Cane Creek Middle has classes and their spring musical is outside the school day so any student can participate. Enka High, T C Roberson, Owen High, Reynolds High, and North Buncombe High also have drama programs, and the choral director at Erwin High presents a musical each spring with the assistance of with one of the English teachers

North Buncombe High, Owen High, Enka High, T C Roberson, and Erwin High also have dance programs.

Athletics

This program report code (PRC) pays salaries, social security and retirement for extended summer employment and during-the-year extra duty pay for coaches. Funds for athletic workshops, high school playoff expenses and travel reimbursements are included here as well. In addition, \$7,000 is allocated annually to each middle school for athletic supplies.

In addition to other duties, the Assistant Superintendent for auxiliary services also prepares the extra duty pay supplement schedules for all athletic coaches and oversees the PRC 852 budget.

Reimbursement from Asheville City Schools

Like Buncombe County Schools, Asheville City Schools hires Transportation Safety Assistants (TSA's) to assist handicapped students on and off specially equipped buses and to assure the safe transportation of handicapped students while in route.

This budget represents .5 FTE of a TSA that is split between Asheville City Schools and Buncombe County Schools.

Contracts with County Departments

The two nurses provided under the contract with the Buncombe County Health Center are shared between several schools only for funding purposes. In practice, however, the nurses provided under the contract are not distinguishable from other nurses serving Buncombe County Schools. Other school nurses are paid from a combination of state and county funds that are given directly to the County of Buncombe and budgeted in Health Center accounts.

The contract with the Buncombe County Department of Social Services ended after 2012-13 year.

Superintendent's Office

The Superintendent is appointed by the Board and serves as secretary to the Board. His primary role is to serve as chief executive officer for Buncombe County Schools and to provide both administrative and instructional leadership.

The Superintendent plays an important role in defining not only a school district's mission but also its organizational culture and values. Superintendent Tony Baldwin, who took office on July 1, 2009, characterizes Buncombe County Schools' mission as follows:

The primary responsibilities of the public schools in a democratic society are to guide children and young adults in the acquisition of knowledge, to recognize and appreciate human differences, to equip students with essential skills and attitudes for living a productive, useful, and satisfying life, and to develop in students the desire to be lifelong learners.

In addition to providing leadership for staff, the Superintendent has the role of engaging the larger community in support of Buncombe County School's mission.

Two of the values that the new Superintendent brings to Buncombe County Schools are a commitment to teamwork and to transparency. This budget document is an example of both in that it represents the results of hundreds of hours of collaborative work between staff members in hammering out the 2014-15 spending plan and in that it is most detailed and comprehensive explanation of how Buncombe County Schools spends its money that has ever been produced.

Despite the overwhelming financial challenges ahead, the management team is enthusiastic about the future and the positive impact that they can have, jointly and severally, on the students of Buncombe County.

The Superintendent's Office budget provides funding for one administrative assistant and office operating expenditures. The Superintendent's Discretionary account provides a modest amount of funding for him to address critical needs within the district.

Assistant Superintendent's Office

The Assistant Superintendent supervises Buncombe County Schools' Auxiliary Services through Directors of the following departments:

- Facilities Planning
- Maintenance
- Transportation
- Technology
- Purchasing and Warehouse

He is also in charge of athletics and safe schools.

In addition, the Assistant Superintendent supervises the operation of the copy room, which provides photocopying services to all schools as well as central office departments.

The contract for the use of the US Cellular Center and Thomas Wolfe auditorium for graduations is also in this budget and is negotiated annually by the Assistant Superintendent.

The Assistant Superintendent's Office budget contains funding for one administrative assistant as well as copy room supplies and contracts.

Associate Superintendent's Office

Complementing the role of the Assistant Superintendent who focuses on auxiliary services, the Associate Superintendent focuses on the instructional areas.

The Associate Superintendent manages the instructional program not only through the Directors of Elementary, Middle, and High School Education and other Directors on her staff (such as the Director of Special Services, the Director of Federal Programs, and the Director of Career Technical Education) but also by making frequent school visits to view classroom instruction first-hand.

An important part of her job is evaluating the impact on student achievement of all instructional software in the schools, which is budgeted in the Technology PRC 015 budget. Software programs such as the SuccessMaker software installed in each elementary instructional computer lab are selected for their management component as well as their instructional features in order to make sure courses aligned with computer lab usage, performance outcomes and monitoring.

The local current expense budget in PRC 892 covers such expenses such as workshops, memberships, supplies, mileage, vehicle repair and contracted services.

Annual school climate surveys are purchased with these funds and are designed to gather data from students, staff and parents.

Each year, administrators attend a summer professional development in-service and these funds cover associated costs. Topics include leadership, legal updates and utilizing best instructional practices.

Finance

Finance functions budgeted in PRC 894 include payroll, accounts payable, budget, internal audit, accounting, and financial management activities such as financial reporting and cash management. Purchasing/Risk Management is also included because the Chief Financial Officer serves in an advisory capacity although these functions have been transferred to the Assistant Superintendent.

Buncombe County Schools has also received the State Treasurer's Award for Excellence in Accounting and Financial Management three times: in 2001 for the Capital Outlay Budgeting System (CORD) written in Microsoft Access, in 2002 for a time-keeping system written in Microsoft Excel, and in 2008 for a student population projection system also written in Excel.

Facilities Planning

The Facilities Department is responsible for long range planning, design, renovations, and new construction of over 4 million square feet of school buildings at 42 campuses in the Buncombe County Schools District. The Director acts as a coordinator and mediator to minimize conflict between current capital improvements initiated by school staff, Departments, PTO's, Advisory Councils, Booster Clubs and other groups, in relation to master planning.

The Facilities Goal, endorsed by the Board of Education, emphasizes High Performance Schools that are energy efficient, sustainable, economical to maintain, and promote education through an environment that supports student, teacher and staff performance.

The Facilities Department monitors and addresses Life Safety Code issues such as fire safety, emergency egress and handicapped accessibility; essential building systems such as roofs, windows and structure; and facility related guidelines established by the NC Department of Public Instruction.

Each spring, the Facilities Director and Superintendent prepare and present the "Enrollment and Facilities Needs Report" to the Board of Education. The report identifies short and long term facility needs, priorities and strategies based upon current and 5 year projected enrollments in relation to school capacities.

Student Services

The Student Services department serves as custodian of student records after students leave, processing over 2,500 record requests each year for transcripts and other records from former students. The Department assists school employees who maintain cumulative records on the 25,000 current students. Departmental staff members also serve as a resource to school personnel on enrollment/ withdrawal forms, policies, and procedures and train school staff to process affidavits and residency forms, and coordinating withdrawal protocols with the NCWISE team.

Student Services also has significant data collection, analysis, and reporting responsibilities including reporting monthly and annual dropout numbers; preparing yearly statistics on discipline, attendance, and school health; providing other statistical information to counselors and social workers; and maintaining the annual attendance backup for schools.

The director coordinates counseling, social work, and mental health/day treatment services and programs in all schools and provides supervisory and budgetary oversight for the Student Response Team and the Graduation Initiative as well as for the Student Services department.

In addition, he serves as liaison to the Buncombe County Health Center for school nurse program and immunization verification as well as special health issues like H1N1. He likewise coordinates social work activities with the Buncombe County Department of Social Services and oversees homeless services under the McKinney-Vento Federal grant. He also serves on community collaborative committees and works directly with the Department of Juvenile Justice

The Student Services department provides oversight and training for Section 504 planning, investigates and handles complaints from the Office of Civil Rights, and receives and processes student sexual harassment complaints under Title IX. Staff also arrange for deaf interpreters when needed for parent conferences and student performances.

Student Services staff are responsible for notifying DMV of academic failures, dropouts, and violent acts for the NC Lose Control, Lose Your License program. Although approximately 1,000 students enter the program each year, only about 140 licenses are actually revoked.

The Student Services department also approves GED forms for students who have withdrawn from school.

Communications

The Communications Department is responsible for internal and external communications and PR with District stakeholders such as employees, parents, the community at large, and the media. Within the department's budget is funding for the internal and external publications and enewsletters, and employee and student recognition programs such as "Teacher of the Year" and "Top Scholar."

Communications manages both the Public and Employee sections of the District web site and provides oversight for individual school sites as well. This entails content generation and daily updating of the District's home page, and ongoing training and support for web managers and other web users at the central office and at all school sites. By utilizing Communications staff to do the training, the District saves approximately \$18,000 per year in outside training expenses. The expense of hosting the District web site and its 42 separate school sites is budgeted in PRC 015. A member of the Technology staff files for E-Rate reimbursement for that expense as well as for other telecommunication and internet services.

With assistance from other departments, Communications handles the updating of employee and student data, training employees on the use of the system, and creating/scheduling district-wide messages typically related to weather, health and safety, and often translated into other languages such as Spanish and Russian.

Communications responds daily to both public and media requests for information on a wide variety of topics. With a goal of developing improved parental and public support, Communications proactively identifies appropriate events, issues, accomplishments, and programs and obtains media coverage for them. The department also coordinates a variety of community and parental outreach activities, as well as a new video production effort at all of the district's middle and high schools.

Beginning with the fiscal year 2012-13, the school system Grant Writer is now accounted for in this budget.

Personnel

The Personnel Department oversees and facilitates the hiring process and the provision of benefits for the school system's approximately 4000 permanent employees.

With regard to the hiring process, the department maintains the Human Resources Management System (HRMS) software that includes an electronic database of applicants, allows for the advertisement of positions and enables schools/departments to electronically recommend candidates for employment. Once an applicant is recommended for employment, the department performs a number of important functions prior to seeking final approval for employment by the Board of Education. For example, the department performs criminal history reviews and makes a determination about eligibility for employment. The department also reviews credentials for licensed and paraprofessional employees. In addition, the department performs a number of functions in order to maintain the system's compliance with state and federal law. The compliance functions include reporting all new employees through the US Homeland Security Everify system to ensure US citizenship and reporting new hires to the NC Department of Administration for the purposes of child support enforcement.

The Benefits services provided to employees by the Personnel Department include enrollment in and assistance with the NC State Health Plan and the NC Retirement System. The department also manages the system's cafeteria benefits plan that enables employees to have the tax benefits of medical spending and dependent care accounts, as well as the ability to purchase a variety of insurance products with pre-tax dollars through convenient payroll deductions. The department also manages employee contributions to the state 401k plan and private 403(b) annuity plans.

There are over 500 active substitute teachers in our system that performs an important function in schools each day. The department maintains a software system (Aesop) that assists schools, teachers and substitute teachers in filling substitute positions each day. In addition, the department hires and oversees the performance of the system's eligible substitute teachers.

Teacher recruitment has become an important aspect of education recently because of the shortage of qualified teachers in certain subject areas, like mathematics and special education. The department spearheads the recruitment effort of the system by, in part, organizing and participating in career fairs in North Carolina and in other areas of the country.

Detail on Program Report Codes (PRC's)

found only in the

Federal Grants Fund

Below is a chart outlining the estimated and actual funding for each of the federal programs. The reason that not all programs have an initial allotment is because we are still waiting on the final funding to be available from NCDPI. We anticipate this funding being available soon.

PRC 017

Career Technical Education – Program Improvement

The funding source for PRC 017 is the Carl D. Perkins Career and Technical Education Act of 2006. The objective of the Act was to more fully develop the academic, career, and technical skills of secondary (and postsecondary) education students who elect to enroll in Career and Technical Education. Annually, each LEA receiving funding must submit a local plan to its Board of Education that details specifics of the CTE Program. The annual plan outlines major county-wide initiatives for program improvement in the high school CTE curriculum and contains performance measures. NC Wise data helps to track which classes are taught at each school and enrollments for those classes.

Career Technical Education teachers request needs to their Principal and to the Director of the program for use of the funds. These requests by the schools must be justified through their curriculum needs. These needs can be for purchases such as supplies and materials (411), computer software (418), repair parts and materials (422), non inventoried equipment (461) or inventoried equipment (462).

Some PRC 017 funds are retained to be used county-wide for such things as contracted services or to support career and technical student organizations, special populations students or non-traditional students, work based learning insurance, immunizations for Health Occupations (HO) students, student background checks for HO students, or staff development for CTE teachers.

McKinney-Vento Homeless Assistance

McKinney-Vento is federal legislation requiring school systems to remove barriers for enrollment and services to all students identified as homeless, inadequately sheltered, or unaccompanied youth. Legislation also requires that students continue to receive their education in the school of origin to the extent feasible to prevent the disruption of their education.

Buncombe County Schools applies every two years for a sub-grant funded through the Department of Public Instruction which covers the majority of the salary of a full-time homeless liaison or Youth in Transition Coordinator. The Youth in Transition Coordinator also provides direct assistance to students and families to connect them to community resources for basic needs and to find permanent housing solutions.

In the past, this grant funding has decreased significantly, in which Title I funds have been allocated to help with the cost of the program needs.

Title VI-B Pre-School Handicapped

These funds are used to initiate or expand special education and related services for children with disabilities who are 3, 4 and 5 year olds not eligible for public kindergarten.

Each LEA, charter school, or state-operated program is entitled to funding based on the Child Count of children ages 3 through 5 meeting the federal definition of disabled that were served on December 1st of the previous year. The funding formula is in two parts:

- Each LEA receives a base amount equal to a proportional share of 75% of the FY 1997-98 IDEA Title VI-B Preschool grant. The LEA's portion is calculated based on the December 1996 child count.
- Funds remaining after distribution of the base are allocated as follows:
 - Eighty-five percent (85%) of remaining funds are allotted on the basis of ADM of children enrolled in public and private elementary and secondary school within each LEA.
 - o Fifteen percent (15%) of the remaining funds are allotted in accordance with the relative numbers of children living in poverty, as determined by the December 1st free lunch count.

These funds only partially cover the needs of this program and must be supplemented with state special education funds (PRC 032) to meet all the special education needs of the preschool population. The funding has not increased proportionately to the increase in numbers of preschoolers being identified and served.

Buncombe County Schools pays three preschool teaching positions -- two itinerant and one based in a Head Start classroom -- along with supplies and mileage reimbursement for the itinerant position and transportation for preschool students.

ESEA – Title I Basic Program

This PRC is a significant component of No Child Left Behind. The purpose of the legislation entitled **Improving the Academic Achievement of the Disadvantaged** and codified **as** Title I, Part A funds of the Elementary and Secondary Education Act is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments. In Buncombe County this funding supports reading intervention programs in 23 of the elementary schools which have 40% of their students on free and reduced lunch.

In consultation with administrators, teachers, and parents, funds are set aside at the District for program administration, parent involvement activities, professional development, and program coaches. Because the District has not met Adequate Yearly Progress with all subgroups, 10 % of the funds must be set aside for District Improvement through professional development. One school is also in school improvement and must offer parents the choice of transferring their child to another school. The District must provide transportation for those children and funds from this PRC covers the cost. Once all of the above set-asides are determined, the remaining funds are allotted to the 23 schools.

The funds are distributed to the schools on a per-pupil allotment based on the number of children on free and reduced lunch. Schools must spend 1% of funds on parent involvement activities and 5% on professional development. Each of the schools has at least one certified reading specialist and several paraprofessionals who serve students in small groups in the regular classrooms. Schools purchase materials that support priorities from the school's Continuous Improvement Plan and offer tutoring through extended day or summer programs.

Eliada Academy and Presbyterian Home for Children receive funds through this PRC for services to neglected and delinquent children. Private schools can request that students receive services through Title I. A tutor is provided to serve children who attend New City Christian.

ESEA – Title I Migrant Education

Migrant program funds support high quality education programs for migrant children and help ensure that migratory children who move among the states are not penalized in any manner by disparities among states in curriculum, graduation requirements, or state academic content and student academic achievement standards. Funds also ensure that migrant children not only are provided with appropriate education services (including supportive services) that address their special needs but also that such children receive full and appropriate opportunities to meet the same challenging state academic content and student academic achievement standards that all children are expected to meet.

Funding is based on K-12 students served by Migrant Education during the regular school year and on students served in summer programs.

The funds support a recruiter who searches for and interviews families for enrollment in the program. Families are considered migrant if they move across District lines with the intent to seek employment in agriculture. The program also has a part-time tutor who works with students during the school year and a full-time data manager/coordinator. As of 10/24/2013, there are 74 active individuals being served by the Migrant program. This number includes students in school (56), youth out of school (7) and Pre-K (11) migrant population. The actual number served during the school year fluctuates higher and lower due to the migration of the population during growing and harvest seasons.

Career and Technical Ed. Capacity Building Grant

Of the approximately 91,000 North Carolina high school students who received their diplomas in 2014, more than three-fourths say they plan to move on to a two- or four-year college or university. But by the time they reach their mid-twenties, only about half of them will have earned a college degree if past trends continue. There are many reasons for this, but the college completion rate speaks to the need for alternative pathways to help young people prepare for their future success.

In February 2011, the Harvard Graduate School of Education (HGSE) released *Pathways to Prosperity: Meeting the Challenge of Preparing Young Americans for the 21st Century*, which challenges the premise that all students should seek a four-year college degree. The report argues that we need to create additional pathways that combine rigorous academics with strong technical education to equip young people with the skills and credentials to succeed in an increasingly competitive labor market.

The enormous interest generated by the Pathways report has led to the launch of the Pathways to Prosperity Network, a collaboration between HGSE, Jobs for the Future (JFF) and six states (including North Carolina) committed to ensuring that many more young people complete high school, attain a postsecondary credential with value in the labor market, and get launched on a career while leaving open the prospect of further education.

To accomplish this goal, the North Carolina State Board of Education engaged with employers and educators to build career pathways systems for high school students. Each state is led by a coalition of key public and private sector leaders committed to mobilizing and sustaining political and financial support for the agenda and addressing legislative or regulatory barriers that inhibit progress.

The Pathways to Prosperity framework includes the following elements of a pathways system:

- Employers committed to providing learning opportunities at the workplace and supporting the transition of young people into the labor market.
- Career pathways with clear structures, timelines, costs, and requirements linking and integrating high school and community college curriculum and aligning both with labor market needs.
- An early and sustained career information and advising system strong enough to enable students and families to make informed choices about educational career paths.
- Local or regional intermediary organizations to provide the infrastructure and support for the development of such pathways.

PRC 060 IDEA Title VI-B Handicapped

The Individuals with Disabilities Education Act (IDEA) Title VI-B provides the largest source of federal funds for the Buncombe County Schools exceptional children's programs.

Unlike State programs for exceptional children which use an April headcount, the PRC 060 allotment is based on the December 1 headcount each year. The December headcounts for the last few years are reproduced below:

PRC 060										
	2007	2008	2009	2010	2011	2012	2013			
TOTAL COUNT AGES 3 TO 21	3423	3360	3325	3355	3548	3630	3713			
3 TO 6 YRS	350	326	303	333	559	549	419			
6 TO 21 YRS	3073	3034	3022	3022	2989	3081	3294			
PRIVATE SEPARATE	1	0	9	6	12	12	11			
SEPARATE SETTING	514	513	497	533	561	600	606			
HOSPITALIZED/HOMEBOUND	15	14	28	32	28	43	40			

Each spring, a proposed project must be submitted for review by DPI staff for compliance with IDEA. A project narrative must correspond to the submitted budget. Any changes during the course of year require an amendment both to the project narrative and the budget. A notice is published in the paper requesting public input, and a proportionate share of these funds must be earmarked for provision of services for parentally placed students in private and home schools.

PRC 060 pays special education teachers, the majority of teacher assistants for special education classes, and job coaches for students in the Occupational Course of Study. The determination of how these services are provided to private school students is made by the LEA with input from eligible private schools. BCS elects to provide speech and language therapy to identified students.

PRC 082 IDEA Title VI-B State Improvement Grant

Buncombe County Schools receives these funds to support the training and implementation of research-based reading and math intervention programs. Staff development costs and material purchases are the main uses of these funds. BCS must track the performance of students participating in these programs, monitor the fidelity of the implementation of these programs and submit this data to DPI on a yearly basis, in order to continue to receive these funds. A five year plan for program implementation is also reviewed yearly by DPI Regional staff.

Title II Part A

Improving Teacher Quality

Title II, Part A provides financial support for Buncombe County Schools to enhance teaching skills and outcomes. A Title II Committee recommends how the funds are spent each year.

One goal of Title II funds is to raise student achievement and ensure adequate yearly progress in reading and math. Toward this end, teacher positions to reduce class size are allotted each year according to each school's AYP status, number of subgroups, number of LEP students, SES, number of HQ teachers, student achievement levels and current class size. The Title II Committee recommended that the following schools be allocated teaching positions: Avery's Creek, Emma, Johnston, Oakley, W.D. Williams, Enka Middle, Erwin Middle, Owen Middle, Community High, Erwin High, and Enka High. All teachers hired with Title II funds must be highly qualified and assigned to teach in the areas of reading/language arts or math only.

A majority of the funds available has been allocated to cover salaries and benefits for teachers and coaches.

A second goal of the Title II Program is to promote teacher quality by:

- supporting new teachers with reimbursement costs of the Praxis administration,
- allocating funds for substitutes to allow beginning teachers to observe experienced teachers,
- Providing high quality professional development in core subject areas.

Each school creates a professional development plan with proposed activities which must be sustained, classroom focused, directly linked to student achievement, and designed to meet AYP targets. These activities must be aligned with system initiatives, Continuous Improvement Plans, and the North Carolina Standard Course of Study. Allowable expenses supported through Title II funds are: substitute coverage for classroom observations and follow-up discussion, substitute coverage for school-based workshops, stipends for Saturday sessions, stipends for teacher planning and presenting workshops, contracted services for outside presenters, and workshop materials.

PRC 104 Title III Language Acquisition

PRC 104 funds language instruction for limited English proficient and immigrant students.

The grant's purpose is to help ensure that children whose English proficiency is limited -- including immigrant children and youth -- attain English proficiency, develop high levels of academic attainment in English, and meet the same challenging State academic content and student academic achievement standards as all children are expected to meet.

PRC 104 funding is based on an October headcount of the students who are identified as limited in English proficiency based on a state adopted language proficiency test. The funds can be used only for activities that supplement the English as Second Language program that the District provides with State and Local funds.

The supplementary activities include materials and two bilingual assistants for the Newcomer Center and a curriculum coach who provides training for classroom teachers in instructional practices that increase academic success for limited English proficient students. The funds also support an additional online data management system and a data support manager who facilitates headcounts and reporting along with supporting ESL staff in record keeping. In addition, a school/home support liaison assists schools in communicating with parents. This position organizes interpretation and translation services for schools and parents and assists parents in completing various school forms and in understanding school policies and procedures.

Teachers for the English as a Second Language Program cannot be paid from this funding source because they are consider part of the core program that these funds supplement. ESL teachers are funded from State funds.

All federal programs require payees to keep "time and effort" reports to document exactly how much time they spend on grant cost objectives. Because the portion of the Federal Program Director's time spent supervising this program would cause the 2% cap on administrative expenses in this PRC to be exceeded, that portion of her salary has to be paid with local funds.

PRC 105 ESEA Title I School Improvement

Funds in this PRC are provided to the District to support schools which are in School Improvement status for not meeting Adequate Yearly Progress for all subgroups. The school must revise its Continuous Improvement Plan and submit a plan to the Department of Public Instruction for use of the funds. In year 2014-15 one school, Community High receives these funds. The school used the funds for additional professional development and to hire licensed teachers as part-time tutors. The school also offered after school tutoring.

Educational Technology Competitive- Impact V

The Educational Technology Impact V, Title II, Part D grant provides funds to improve student academic achievement through the use of technology in schools; to assist all students in becoming technologically literate; and to encourage the effective integration of technology with teacher training and curriculum development to establish successful research-based instructional methods.

In late 2010-11 Enka High School and Owen Middle School received awards based on their schools application. No funds were budgeted or used during the 2010-11 year since the funds were not distributed to local units until June 2011. In 2011-12, funds were used for educator training and development. An additional \$335,897 was awarded in 2011-12 for phase II of this grant, allowing the schools involved to purchase needed technology and equipment. These funds expired September 30, 2013.

IDEA- Risk Pool

Children With Special Needs

This grant was awarded to provide IDEA, Title VI, Part B funds to "high needs" students with disabilities served in local education agencies (LEAs). Buncombe County Schools will use these funds for the student's special education and related service needs. The total allotment will be used for contracted services in order to meet the needs of the students it serves.

This funding is usually approved and appropriated around November or December of each year. We expect about the same amount for the program this year as last year, but have not received the funds to date. The funds cannot be budgeted until final approval from NCDPI.

IDEA-VI-B

Special Needs

This grant is used to fund an Instructional Support Teacher for special needs students and all of the applicable benefits and costs associated with the position. The Department of Public Instruction (DPI) typically has more funds available for contracts than they do for teacher salaries. Therefore, DPI contracted with Buncombe County Schools in order to continue funding this position. The contract for this position has moved to a different LEA beginning this fiscal year, however, BCS will still receive funds in this budget for selected Special Needs programs.

IDEA-VI-B

Targeted Assistance For Preschool

These federal funds assist in purchasing materials and providing training in team, arena assessment for preschool children. The award is used to fund workshops, supplies, contracts, and furniture/equipment purchases for preschool needs. These funds have also been used to pay a portion of a Preschool Teachers salary and benefits.

ARRA – School Improvement

This ARRA grant will be used to execute Community High School's plan to exit School Improvement.

A school identified for improvement must make AYP as identified by North Carolina's accountability system for two consecutive school years in order to exit school improvement status. The process of school improvement begins with the school developing a required plan that addresses the academic issues that caused it to be identified for school improvement.

The purpose of the school improvement plan is to improve the quality of teaching and learning in the school, so that greater numbers of students achieve proficiency in the core academic subjects of reading and mathematics. The school improvement plan provides a framework for analyzing problems, identifying underlying causes, and addressing instructional issues in a school that has not made sufficient progress in student achievement. This funding expired on September 30, 2013.

ARRA-

Race to the Top

The State Stabilization Funds' Race to the Top competitive grants was awarded to encourage and reward states that are "creating the conditions for education innovation and reform; implementing ambitious plans in four education reform areas and achieving significant improvement in student outcomes."

States will use the funds to create comprehensive strategies for addressing four key areas of reform that drive school improvement:

- Adopting international benchmarked standards and assessments that prepare students or success in college and workplace.
- Recruiting, developing, retaining and rewarding effective teachers and principals.
- Building data systems that measure student success and inform teachers and principals how they can improve their practices.
- Turning around the lowest-performing schools.

North Carolina's grant proposal will focus on building upon the State Board of Education's Accountability and Curriculum Reform Acre (ACRE) efforts, District and School Transformation initiatives to turn around struggling schools, the NC Common Education Data Analysis and Reporting System (CEDARS), and measures to build upon the school CEO standards and evaluation process.

Buncombe County Schools was granted a no cost extension by NCDPI to use the remaining funds through June 30, 2015.

Child Nutrition Program

Our Mission...Advancing good nutrition for all children

Buncombe County Schools School Nutrition Department operates the National School Breakfast and Lunch Program in 39 Schools and transports breakfast and lunch to four satellite sites (Early/Middle College, Community High School, Nesbitt Discovery Academy and Black Mountain Elementary).

The Buncombe County School Nutrition Program is the largest food service operation in Western North Carolina. In fiscal year 2013-14, a total of 1,844,837 breakfasts were served, with students receiving free and/or reduced meal benefits represented 68.49 % of those served. Of the 3,025,648 lunches prepared in fiscal year 2013-2014, 70.01% were served to free and/or reduced students.

The nutrition goals established by USDA's School Meals Initiative for Healthy Children guide all recipe and menu development. Buncombe County Schools uses the Traditional Food-Based Menu Planning System. Our nutritional goals are based on the RDA (Recommended Dietary Allowances), children's calorie (energy) requirements and the Dietary Guidelines for Americans.

In addition to the caloric target, nutrient standards target Calcium, Iron, Protein, Vitamin A and Vitamin C. No more than 35% of calories can come from fat, with less than 10% from saturated fats. Sodium is restricted by age group. Although specific targets have not been set we work to reduce cholesterol sodium and increase dietary fiber.

Our cafeteria staff are on the front line as nutrition educators. Through the partnership with a local non-profit organization, Appalachian Sustainability Agriculture Project (ASAP), we turn the cafeteria into a classroom by providing fresh produce taste tests during lunchtime. Buncombe County Schools School Nutrition goes to great lengths to source local foods and support our surrounding communities. Through our produce vendor, we source local produce, which is highlighted on our menus, as well as participating in the Farm to School program and FairShare. In addition we participate in the Fresh Fruits and Vegetable program, which takes taste tests and nutrition education beyond the cafeteria and into the classroom.

The School Nutrition staff also prepares meals for special needs students that may either include foods not on the standard menu or special preparations to modify the consistency of food. Healthcare trays that look like regular cafeteria trays are provided for our PEP students at TC

Roberson, Valley Springs and William Estes. An hourly employee is dedicated to tray preparation because of the number of diet modifications at these sites. School Nutrition absorbs the additional costs incurred for equipment, labor and the purchase of special food products. Modified Diets are available in all schools as dictated by a physician's diet order. Financial relief is not available with these higher cost food products.

Special preparations are also undertaken whenever a Diet Order signed by a Physician is submitted to the School Nutrition Administrative Office. There continues to be a significant increase in gluten free, peanut free, lactose intolerance and diabetic diets. Buncombe County School Nutrition Menus do not offer Peanut Butter as a menu choice. Many schools are "Peanut Free" due to the risk of anaphylactic shock for one or more students. School Principals make the determination for the school and School Nutrition complies by adjusting menus and products offered.

"Community Eligibility Provision" allows schools that serve predominately low-income children, and that meet the requirements, to offer nutritious meals at no cost to all students through the National School Lunch and School Breakfast Programs. The following schools are identified as eligible: Emma Elementary, Johnston Elementary and Woodfin Elementary.

The School Nutrition Program employs 283 staff. Salaries and benefits are paid by the SN Program for all employees except the SN Director who is paid from PRC 002 in the State Public School Fund. All SN Cafeteria Managers and Assistant IVs (Assistant Managers) are <u>ServSafe</u> certified. All employees are trained in HACCP in Your School.

School Nutrition must generate revenues to cover unfunded salary and benefit increases. North Carolina Legislators as of this report have not provided any additional funding of the School Nutrition Programs in this state.

The financial challenge the SN Program faces is the reduction of meal participation due to new meal patterns and the implementation of Smart Snack Standards. We are currently working with USDA to request food choices more suited to our demographic area. We strive to maintain quality while meeting all county, state and federal requirements.

Menus are printed for elementary households only. All menus are posted on the Buncombe County Schools website and in all school cafeterias.

The USDA commodities allotted for this year is 2014/2015 is \$883,367.96 which is a small portion of the food required.

The USDA reimbursement rate for student meals increased as shown on the following chart:

BREAKFAST Paid .28

Reduced 1.32 to 1.63 Free 1.62 to 1.93

Note: The USDA does not provide commodity food for breakfast.

LUNCH: Paid .36

Reduced 2.66 Free 3.06

Buncombe County is certified and receives and additional .06 per lunch reimbursement. This certification requires that we comply with all Federal Nutritional Standards. We continue to meet the criteria to qualify for this additional funding.

The School Nutrition Fund was able to pay full indirect costs in 2013-2014. School Nutrition is investing in higher quality food, restoring equipment, and providing School Nutrition employees with the tools they need to be document their professional development.

School Nutrition anticipated a decrease in Supplemental Sales for 2013-14. The School Nutrition fund documented a (\$767,704.20) decrease in budgeted Revenue. The implementation of the Smart Snacks Standard required by the Healthy Hunger Free Kids Act 2010 continues to place a financial strain on our program. The Supervisory Staff required to insure Federal Compliance beginning 2014-15, are required to complete mandatory Professional Development.

School Nutrition Employees have requested a salary study be completed to see if revenue can be used to create a Manager III position and to raise the salaries of our Supervisory Staff.

The Buncombe County Schools School Nutrition Program faces many challenges but is committed to providing the highest quality of nutritious food to all customers at a great value. The goal of the School Nutrition operation is to provide fast, efficient and friendly service so students can be nourished and return to the classroom ready to learn.

Other Specific Revenue Fund

2014-15 Budget for Fund 8 – Other Specific Revenue Fund

The sources of revenue budgeted in Fund 8 are listed on the following pages.

A Note on the Budgetary Level of Detail

Most of the Program Report Codes (PRC's) budgeted in Fund 8 are budgeted at the location level. This more detailed budgeting is necessary because these PRC's represent funds belonging to, and generated by, individual schools. The school number is located in digits 12-14 of the 19 digit account code. When an account needs to be seen by a school administrator or a school bookkeeper, the school number is also repeated in digits 15-17 of the account code. A system setting in the Cook Consulting Software then allows school-based personnel to see only those accounts that have their school number in digits 15-17 of the account code. However, in order both to save space and time in typing this document, the school number in digits 12-14 and 15-17 is not always displayed on pages that follow.

Reimbursements Used to Support Other Programs

The legislation passed by the General Assembly specified that reimbursements, including indirect cost payments, as well as fees for actual costs and tuition, should be accounted for in a fund other than the Local Current Expense Fund. Because reimbursements, fees for actual costs, and tuition have already been "earned" by spending the amounts being reimbursed or charged, that revenue, when received, is available to support other expenditures.

Teachers (ROTC Trade)

In an effort to save money, ROTC teachers that are above an A-0 to A-4 on the salary scale are moved to position allotment, state PRC 001, and an equivalent FTE of teachers on the scale of A-0 to A-4 are moved to Fund 8 PRC 001. Since state PRC 001 is a position allotment it is more beneficial to pay the more experienced teachers from that because the state will pay for an FTE regardless of what they are paid. Dollar allotments are used as dollars are spent.

PRC 035 Child Nutrition Program

Our Mission... Advancing good nutrition for all children

Buncombe County Schools School Nutrition Department operates the National School Breakfast and Lunch Program in 39 Schools and transports breakfast and lunch to four satellite sites (Early/Middle College, Community High School, Nesbitt Discovery Academy and Black Mountain Elementary).

The Buncombe County School Nutrition Program is the largest food service operation in Western North Carolina. In fiscal year 2013-14, a total of 1,844,837 breakfasts were served, with students receiving free and/or reduced meal benefits represented 68.49 % of those served. Of the 3,025,648 lunches prepared in fiscal year 2013-2014, 70.01% were served to free and/or reduced students.

The Child Nutrition Program has some miscellaneous charges in Fund 8, including the cost of phone lines.

Reservations of 2013-14 Instructional Supply Allocation for Textbooks

Prior to 2010-11, the State provided Local Education Agencies (LEA's) with both an Instructional Supply/Equipment allotment in the State Public School Fund and a Textbook allocation in the State Textbook Fund and allowed LEA's to make transfers between these allotments via the ABC process. Because no textbook allocation was anticipated for 2010-11, most schools wanted to reserve part of their 2009-10 total allotment budgeted in the Local Current Expense Fund (Fund 2) for future textbook purchases. To accomplish this, the amounts reserved for textbook purchases in future years were budgeted in Fund 8 (Other Restricted Funds Fund) rather than in Fund 2.

No funds will be spent in Fund 8 PRC 061 because it functions purely as a reserve. No cash was transferred from the Local Current Expense Fund (Fund 2) to the Other Restricted Revenue Fund (Fund 8) because when they are made actual expenditures will be made from Fund 2. The beginning budget for 2014-15 is also therefore the same as the final budget balance for 2013-14.

If a school needs textbooks handled through the textbook warehouse in Raleigh, the State Textbook Credit Balance (shown in PRC 130) is accessed. If the school does not have a credit balance in the State Textbook Fund, the bookroom account or another school exchanges it's State Textbook Credit Balance for an increase in its Fund 8 PRC 061 balance to allow the standard textbook ordering process to occur. This practice will continue until the balance in the State Textbook Fund is completely exhausted. Under the Uniform Accounting System adopted by the State of North Carolina, the value of textbooks obtained through using the State Textbook Credit Balance are booked in the State Public School Fund as expenditures at the time the orders are received.

Not all schools have credit balances in Fund 8 PRC 061 because some schools still had sufficient balances in PRC 130 to cover textbook needs or because they did not anticipate needing new textbooks in the next several years. Buncombe County Schools maintains a bookroom reserve to buy replacement texts and to cover advance orders from individual schools.

PRC 068 al Appropriation f

Special Appropriation for Community High School

The Commissioners of the County of Buncombe provide a special appropriation for Community High School that allows lower pupil-to-staff ratios than would be possible without this additional funding. When the revenue for this special appropriation was accounted for in the Local Current Expense Fund, no attempt was made to show balancing revenues and expenditures. Instead the usual practice was followed of placing all higher-paid teachers on the State PRC 001 allotment and paying only the beginning teachers from local funds. As a result, in past years the Community High School had more teachers paid from the State PRC 001 allotment than were justified by the State allotment formulas based on the school ADM, and some other Buncombe County schools had fewer teachers on the State PRC 001 allotment. The reverse situation applied to teachers paid with local funds.

In 2009-10, this practice was changed to show only those teachers that the Community High School drew down by virtue of its ADM being paid from the general classroom teacher allotment and to show overtly the additional teachers being supported by the Commissioner's appropriation in PRC 068. This presented a clearer picture of how the Community School was actually funded.

PRC 069 Special Appropriation At-Risk

This allotment supports efforts to identify students likely to drop out of school before graduation and to provide special alternative instructional programs for these at-risk students. These funds were approved beginning in the 2013-14 year and are to hire 4 additional social workers in order to better serve students that are at-risk to dropout.

The professional development project will (1) strengthen teachers' understanding of number concept development, (2) build teachers' knowledge base for key mathematical ideas underlying number concepts and how children think with numbers and use numbers to solve problems, (3) develop teachers' abilities to differentiate instruction to support learning for all students,(4) increase teachers' use of formative assessment data to plan for instruction, (5) extend teachers' own mathematical understanding as they develop new ideas about how students learn mathematics, and (6) increase student mathematical performance.

The project includes:

- 80 Hours of Professional Development
- A commitment to implement the use of the Kathy Richardson Assessing Math Concepts assessments (For more information visit this website: www.mathperspectives.com/assess)
- A commitment to use the assessment information to plan and put into practice the Number Concepts lessons that target student needs

JROTC Program

JROTC prepares students for leadership roles while making them aware of their rights, responsibilities and privileges as Americans. The mission of JROTC is to motivate young people to be better citizens. The program promotes graduation from high school, and provides instructional opportunities which benefit the student, community and nation.

The agreements with the various branches of the military for the JROTC program specify the monthly salary that each officer is to be paid (called the minimum military pay or MMP). Effective 7/1/11, the local supplement will be paid monthly and counted as part of the MMP for all JROTC instructors.

The military reimburses Buncombe County Schools for half of the MMP. The military does not defray the cost of longevity pay, the employer's social security match, the employer's retirement contribution, or employer-paid health insurance. In a few cases, the State-certified teacher salary for a JROTC instructor is higher than the MMP. The military does not contribute to any amounts paid in excess of the MMP. The program therefore always runs at a deficit. The difference between estimated revenue and appropriations is covered by other revenue budgeted in Fund 8.

Job Training Partnership Act

A grant from the Mountain Area Workforce Development Board funds a Workforce Investment Act (WIA) Job Readiness Youth Program at Erwin High School. Funds pay a Job Training Partnership Act (JTPA) instructor/coordinator for the school, purchase supplies and materials need by the students enrolled in the program, and purchase hardware/software for remediation/academic support of those students. This program allows underprivileged youth to acquire employability skills while staying in high school. Funding must be requested annually for the program.

The JTPA instructor/coordinator works with approximately 20 youth and provides them remediation and support. The program's criteria and goal is to help every participant achieve every performance measure of the grant. These include: Placement in Employment or Education, Attainment of a Degree or Certificate, and Literacy and Numeracy gains.

This grant ended in fiscal year 2013-14.

Work-Based Learning Program

The Work-based Learning Program for Buncombe County Schools is a year round approach to school retention. The goal for each student is graduation, post-secondary education, and/or full time employment. Participants are in-school youth, ages 16-18. Students will be considered basic skill deficient due to the results of the Test of Adult Basic Education (TABE). A student's failure to score a Level III on the Eighth Grade End-of-Grade test or an End-of-Course test may also be a signal that basic skill remediation is needed. Students may have a disability or have English as their second language.

Students will be recruited at the beginning of their junior/senior year and will receive intensive intervention strategies on workplace skills and the importance of earning a high school diploma. Remediation, academic support, and mentoring will afford students the greatest opportunity for success and will be monitored by the case manager(s). These students are eligible for work experience in both the private and public sectors. The case manager(s) provide placement assistance activities during the school year for students seeking employment and monitor participants who already have a job. Support services will be provided through linkages to agencies that are able to meet the students' needs. Funds for this program are made available through the Youth Council which is part of the Workforce Development Board.

Medicaid Administrative Outreach Claim Reimbursements

Federal regulations allow Buncombe County Schools to claim reimbursement for time spent by staff to identify and enroll Medicaid-eligible children in that program. The claim process involves establishing a "cost pool" of personnel and then determining through random moment time studies how much time the individuals included in the cost pool spend on eligible activities.

Employees paid with Federal funds are not eligible for inclusion in the cost pool. Buncombe County Schools submits the actual salary and benefit costs for the individuals included in the cost pool quarterly, and various factors are applied to that cost base to determine a reimbursement amount.

The positions currently included in the MAC cost pool are:

- Director and Assistant Director of Special Services
- Administrators of the Progressive Education Program
- Exceptional Child Curriculum Manager
- Special Education Teachers
- Child Find Specialists
- Program Placement Specialists
- Transition Specialists
- Principals and Assistant Principals
- Director of Student Services
- Counselors
- School Response Team Members
- Student Advocates
- Graduation Initiative staff
- Preschool Teachers
- Exception Child Data Manager

Because this revenue is a reimbursement of previously incurred costs, it is now budgeted in Fund 8. This revenue helps balance the fund as a whole by providing a resource that can be used to support other programs that are not self-supporting.

Funds received for Medicaid Administrative Outreach services have been periodically withheld by either the State or Federal government over the years. The scope of eligibility for reimbursement has also changed over time. The income stream from reimbursements has been extremely variable as shown on the chart on the next page. This revenue source is therefore hard to predict and is budgeted conservatively so that cash flow problem do not result from reliance upon the receipt of this revenue.

Budget Resource Document for 2014-15

History of Medicaid Administrative Outreach Reimbursements

Fiscal Year	Revenue Received
2002-2003	\$216,765.00
2003-2004	\$1,724,800.00
2004-2005	\$618,479.00
2005-2006	\$379,165.00
2006-2007	\$434,089.00
2007-2008	\$1,174,621.00
2008-2009	\$793,344.00
2009-2010	\$294,527.00
2010-2011	\$264,272.00
2011-2012	\$463,853.00
2012-2013	\$148,280.00
2013-2014	\$255,274.00

Continued receipt of these funds by school districts is in question. This revenue source therefore continues to be budgeted conservatively.

Medicaid Fee for Service Reimbursements

Federal regulations allow school districts to bill for medically-necessary services to their Medicaideligible student population if the services were not rendered by Federally-paid employees. Many of the services rendered to special education students are medically necessary, and many of these students are also Medicaid-eligible. One stipulation of the regulations that allow school districts to bill for these services is that funds received must be used to benefit students with disabilities.

Buncombe County Schools maximizes the income from Medicaid Fee-for-Service billings by paying therapists and other eligible personnel from either State or local funds. Related therapy services for which we can bill include physical therapy, occupational therapy and speech/language therapy.

A third party vendor, Public Consulting Group (PCG) processes our claims and advises us on compliance issues. They receive 15% of the revenue collected as a fee for providing these services. This compares favorably with other vendors, who may charge 20% for this same service.

The amount of prior year revenue available for appropriation is recalculated at each subsequent June 30th as the receivable outstanding at the prior year end and collected in cash during the ensuing fiscal year actually become available for appropriation to the subsequent year's budget.

Due to the decrease in available funding in Fund 3 IDEA Title VI-B (PRC 060), these Exceptional Children funds are being used to help bridge the gap for the Special Education Program. Several teachers and teacher assistants will be paid from these funds.

Carol M. White Grant

The Carol M. White Physical Education Program provides grants to LEAs and community-based organizations (CBOs) to initiate, expand, or enhance physical education programs, including after-school programs, for students in kindergarten through 12th grade. Grant recipients must implement programs that help students make progress toward meeting state standards.

Projects must be designed to help students meet its State's physical education standards by undertaking instruction in healthy eating habits and good nutrition and at least one of the authorized physical fitness activities. Authorized physical fitness activities include:

- (a) fitness education and assessment to help students understand, improve, or maintain their physical well-being;
- (b) instruction in a variety of motor skills and physical activities designed to enhance the physical, mental, and social or emotional development of every student;
- (c) development of, and instruction in, cognitive concepts about motor skills and physical fitness that support a lifelong healthy lifestyle;
- (d) opportunities to develop positive social and cooperative skills through physical activity participation; or
- (e) opportunities for professional development for teachers of physical education to stay abreast of the latest research, issues, and trends in the field of physical education.

Pisgah Forest Revenue

Federal legislation provides that the proceeds of timber cutting in the Pisgah National Forest be shared with the schools whose attendance areas border the Pisgah National Forest. No revenue has been received from this source for several years. In the past when revenue was received, it was distributed to all schools that abutted the Pisgah National Forest according to their relative ADM's. Secondary schools that elementary schools fed into were given a share of funding as well, again in proportion to the relative ADM of students in attendance from that feeder district.

Some schools had unexpended balances which are still available to them. There were no expenditures from this PRC in 2013-14. As show below, those schools with remaining balances are:

Community High (\$74) Candler Elementary (\$1,508) Owen High (\$10) Enka High (\$8,165) T C Roberson (\$308)

Elementary and Secondary School Counseling Grant

The U.S. Department of Education awarded \$15.2 million to 43 schools districts in 19 states across the country to establish or expand counseling programs. Grantees will use funds to support counseling programs in target elementary or secondary schools. Specifically, the new awards will aid schools in hiring qualified mental-health professionals with the goal of expanding the range, availability, quantity and quality of counseling services. Parents of participating students will have input in the design and implementation of counseling services supported by these grants.

"School counselors benefit both students and teachers by helping to create a safe school environment, improve teacher effectiveness, increase academic achievement and promote student well-being," U.S. Secretary of Education Arne Duncan said. "We believe that school-based counseling programs offer great promise for improving the prevention, diagnosis and treatment of students with mental-health issues."

Grantees also will use funds to help increase the number of available and qualified counselors based on a school's student population. Research shows that having adequate counseling services can help reduce the number of disciplinary referrals in schools, improve student attendance and academic performance and enhance development of social skills. Funds also may be used to support parental involvement, counselor and teacher professional development, and collaboration with community-based organizations that provide mental health and other services to students.

This grant is new to Buncombe County Schools for the 2014-15 school year.

Education and Workforce Innovation Program

Governor Pat McCrory congratulated this year's recipients of the Education and Workforce grants. The program is aimed at strengthening successful, innovative education programs that combine academic rigor and skills development with the goal of graduating every student both college and career ready.

"These grants will accelerate innovation and partnerships with business and higher education in schools throughout North Carolina, and will empower our educators to be creative in how we prepare our students for college and a career," said Governor McCrory. "I want to thank the members of our Education and Workforce Innovation Commission for their commitment to support students from diverse regions, communities, and schools around North Carolina and to ensure that all students, regardless of background, have access to the exciting opportunities these grants will bring about."

The Education and Workforce Innovation Fund was created in the 2013 legislative session. Grants will support five year programs in districts throughout North Carolina.

Members of the Education and Workforce Innovation Commission include State Superintendent June Atkinson, University of North Carolina system President Tom Ross, North Carolina Community Colleges President Scott Ralls, State Board of Education Chairman Bill Cobey and other business leaders from around the state. Billie Redmond, Chief Executive Officer of TradeMark Properties, acts as Commission Chair.

This grant is new to Buncombe County Schools for the 2014-15 school year.

Progress Energy Grant

"Educating the Scientists of Tomorrow through Progress Energy Grants" contained the purchase of materials for continuing a focus on energy (especially for Koontz and Eblen LEED Curriculum) and correlated materials for the new Elementary Science Program, Picture Perfect Science. Picture Perfect Science is a hands on, 5E learning cycle, literacy based program that is endorsed by the National Science Teachers Association.

The Progress Energy grant helped supply the materials for the hands on portion of the Picture Perfect program for all elementary schools K-5 and grade 5 for the three intermediate schools. It included materials such as ultraviolet beads, Genecon Hand Generators, models, ramps, timers, owl pellets, flashlights, mirrors, thermometers, containers, magnifying lenses, and materials too numerous to list. Schools purchased the associated book sets to accompany the lessons and the professional development was provided through Title I. PD included a full day workshop from the authors of the program for our elementary science teacher leaders and curriculum coaches who then went back to their schools to share an overview and later to work collaboratively to provide more extensive use of the program at each school during a designated work day.

The more extensive focus on energy from the grant was to provide materials to accompany the LEED (Leadership in Energy and Environmental Design certification) for our two LEED Intermediate Schools, Charles T. Koontz and Joe P. Eblen. Those materials included support materials aligned to the energy standards and the design features of the new schools, including thermal solar models, photovoltaic solar cell models, radiation kits, Project Need Curriculum Guides, Sally Ride book sets including Clean Energy, Clean Air, Clean Water and Living Green, plus many other energy related materials.

PRC 502 & 857

Paddison Grant

Several years ago, a donor left a \$2.3 million bequest to be distributed among the six traditional high schools. The Buncombe County Schools Foundation has invested the money until such time as the individual high school indicates that they have a project that they wish it to fund. Provided the Foundation Board approves the request, the foundation then writes a check to the school system and the individual school can use those funds to purchase. In the past PRC 502 was used to track these Paddison Trust related expenditures. In the future, PRC 857 accounts will be used instead.

Eaton Grant

To help introduce students to the world of Advanced Manufacturing at the high school level, Eaton Corporation provided grant funds for Mechatronics equipment and other industry-related equipment and supplies to TC Roberson High School. This money helped established the new Metals Manufacturing Program at TC Roberson High School. The program helps link education and the business world and opens a pipeline for students' understanding of Advanced Manufacturing careers in the area.

Buncombe County Schools Foundation

The Buncombe County Schools Foundation was created on July 11, 1984, in order to honor a former teacher by establishing a scholarship fund in her memory. Efforts to bring about community and employee financial support, as well as in-kind donations began, but in its early years, the funds passing through the Foundation did not exceed \$7000 to \$10,000 per year.

In 1987, the Foundation was granted tax-exempt 501(c)(3) status by the Internal Revenue Service and a full-time director was hired. Fund-raising results increased gradually, and by June 30, 2001, total assets had grown to over \$855,000.

Because Buncombe County Schools already had a payroll system in place and the Foundation could save funds by not operating its own, Foundation staff are paid by Buncombe County Schools. The Foundation reimburses the school system for all pay and benefits costs incurred. This enables more of the funds raised by the Foundation to go back into the schools.

To assist with competitions, supplies and materials, and equipment needed to advance Science, Technology, Engineering and Math (STEM) in middle schools; TD Bank helped and continues to fund the Project Lead The Way programs. This pre-engineering program allows students to learn and practice the design process through robotics, 3-D computer software, and project-based learning. Funds from TD Bank allowed and will continue to allow students to compete in regional and state robotics competitions and through advertising efforts helped and will continue to help raise awareness of PLTW.

There is still a small balance available for fiscal year 2014-15.

NC Pediatric Society's Healthy and Ready to Learn Grant

This goal of this program is to work together to improve students' health, which leads to better learning, regular school attendance, and sustained achievement. This is part of a 46 county outreach across North Carolina. These funds are to be used at the discretion of Buncombe County Schools' staff to offset modest expenses in helping to find and enroll eligible, uninsured children into Medicaid (Health Check) and S-CHIP (NC Health Choice).

Belk Grant

The Sisters of Mercy grant funded a pilot implementation a research-based 7th grade math program for improved mathematics proficiency, high school algebra readiness, enhanced math discourse, and deepened teacher knowledge/instruction. The program created by Texas Instruments is called TI Math Forward. The core of the Math Forward program involves teacher coaching and student use of graphing calculators connected to a "Navigator System" that allows for real-time student data collection. The Navigator system sends each student's response to the board for improved mathematical discourse. The pilot targeted 2 7th grade classes at the three middle schools with over 50% low income students.

These funds were exhausted in fiscal year 2013-14.

Career Academy Grant Erwin High

The Career Academy is an Erwin High drop-out prevention program funded by the Buncombe County Commissioners. A Student Advocate works with a cohort of students to provide academic support and exposure to careers. Students visit local businesses and post secondary institutions to increase awareness of the value of a high school diploma in terms of future employment. The PRC pays one Student Advocate's salary/benefits, supplies and equipment, and students stipends.

This program reaches approximately 25 sophomores and 25 freshmen each year. The students visit local employers such as Mission Hospital, the Biltmore Company, AB Tech and UNCA. Students learned how to advocate for themselves as well as strategies needed for success in their classes. Many students in the program received a stipend for summer work. The same program will be conducted in 2014-15.

Sisters of Mercy Grant

Mini-Mester

Program Description: Mini-mester serves students from across Buncombe County who have fallen behind in credits needed for graduation. This 6-week summer opportunity provides students with an additional option for earning these credits, thus helping them get back on track and preventing them from dropping out. SOM Grant covers teacher's salaries, administrator salary, special education support, and supplies.

Twilight School

Program Description: Twilight School like Mini-mester, is another option for students who have fallen behind to earn additional credits towards graduation. The evening timeframe allows students more flexibility and can provide the smaller, more personalized learning environment that many students need. Students can either take a new course or recover a previously-failed course through computer-based Credit Recovery. SOM Grant covers teacher's salaries, administrator salary, and supplies.

Summer Bridge Transition Programs

Program Description: We offer transition programs for middle school students entering 6th grade at Enka Middle, Erwin Middle and Owen Middle. These programs are based on best-practices research that indicates that transitions can be particularly challenging for struggling students and that students who make these transitions successfully have greater chances of reaching graduation. Our summer program focuses on 1) developing positive relationship with peers and teachers through teambuilding, 2) career and college exploration, 3) improving academic study skills, 4) reducing anxiety about the new school environment. Each program varies in terms of number of students served and duration. SOM Grant covers teacher salaries, transportation costs, contracts with community partners, and supplies.

Parent Outreach Liaison

Program Description: Poor school attendance continues to be an important indicator of a student's risk of dropping out. Therefore, we have targeted improving attendance in the Erwin and Enka district with the addition of a Parent Outreach Liaison. This part-time liaison works with school personnel to identify students who have patterns of poor attendance and makes regular contact with these families to determine barriers and provide support, including referrals to community resources. SOM Grant covers salary.

This grant ran through July of 2014 and the County of Buncombe has appropriated \$57,000 for this purpose in fiscal year 2014-15.

Bookmobile Donation

Buncombe County Schools, in partnership with Wells Fargo, The Grove Park Inn, CarePartners, Nantahala Outdoor Center, Leadership Asheville and the Buncombe County Schools Foundation launched a new, county-wide bookmobile in August 2012.

As the bookmobile makes summer weekly visits to neighborhoods throughout the county, it provides easy access to books for hundreds of children. Many students make progress in reading during the school year but those without access to books in the summer often struggle, with valuable progress lost each year, up to 2 1/2 months in the summer. Studies suggest children who read as few as six books during the summer are successful at maintaining reading progress achieved from the previous year.

Along with summer neighborhood visits, the bookmobile also travels during the year to the local community for Pre-K literacy lessons and parent outreach to promote year round reading.

Real World Event

The Real World Event was held to provide knowledge of personal finance, budgeting, and time management. This was achieved through an experiential method where students were grouped and given a scenario where all knowledge areas mentioned above were exercised to achieve the goal.

Sisters Of Mercy Math Forward

Funding from Sisters of Mercy will enable us to 1) acquire the remaining 7 classroom sets of the NSpire/Navigator systems, completing the program's implementation in all 7th grade classrooms; 2) provide contracted services for professional development with a Texas Instrument-trained coach; and 3) pay substitutes while existing teachers train new teachers; and 4) contract for evaluation services with an independent evaluator.

Assistive Technology

Grants were procured by our system grant writer and the Special Services staff for the purpose of purchasing assistive technology equipment and setting up an AT lending library for our system.

The library has an automated check-out system that tracks the location and use of the equipment. These devices typically cost several thousand dollars each and may be used throughout the system with various students depending on need.

Graduation Initiative Eblen Foundation Grant

The Graduation Initiative is a partnership between Buncombe County Schools and the Eblen-Kimmel Center for Social Enterprise designed to improve high school graduation rates. The Initiative promotes a comprehensive, K-12 approach to dropout prevention, which includes both short-term and long-term objectives.

Two dropout prevention specialists work with school personnel in each of the six districts to identify and support students who are most at risk of dropping out or to recover students who have already left school. This may involve serving on schools' attendance teams, conducting home visits, and securing resources at community agencies. The director works with school leaders to develop sustainable plans for supporting at-risk students, to monitor data, and to facilitate professional development and outreach to parents and the community. The Graduation Initiative is also responsible for the Truancy Diversion program and the Summer Bridge programs.

Burroughs-Wellcome Grant

The Career Award for Science and Mathematics Teachers is made as a grant by the Burroughs Wellcome Fund to Buncombe County Schools on behalf of the named teaching professional. The grant provides funds for a stipend, professional development activities, and supplies and equipment. Buncombe County Schools has two award winners: one at Charles D. Owen High School, the other at North Buncombe High School.

Confucius Classroom Grant

The Confucius Classroom grant is to provide supplemental funding for the Chinese language initiative program at Early College, Reynolds High, Owen High, and Erwin High Schools. These funds are intended to provide professional development opportunities, classroom materials, activities planned for your students enrolled in any Chinese language courses, support for hosting delegates from the partner school, and equipment that will support the Chinese language partnership program at the schools.

Funds will be appropriated as schools desire to spend during the 2014-15 fiscal year.

Revenue represents interest income attributed to the unspent balance of funds retained by each school. Equity is as follows:

School	Equity
Candler	\$40,710.00
Enka High	\$165,479.00
Hominy Valley	\$10,610.00
Pisgah	\$6,142.00
Enka Middle	\$534.00
Sand Hill-Venable	\$61,806.00
Total	\$285,281.00

Vending Machine Proceeds from Schools

A specific session law passed by the General Assembly in the 1980's requires all vending proceeds from the individual schools to be turned in to the Central Office of the Local Education Agency (LEA) and appropriated back to the school through budgetary accounts. That session law also restricts the way that the individual school may use the proceeds from vending machines – those funds can be spent only in ways that benefit the entire student population of the school.

Different legislation also prohibits competition with the Child Nutrition operation. Vending machines other than those operated by the Child Nutrition program itself cannot be turned on in the schools until the last lunch has been served in the cafeteria each day.

In recent years, concerns about childhood obesity have caused sugared soft drinks and other high calorie items to be removed from vending machines and replaced with healthier drink and snack choices. Bottled water is proving to be almost as popular with students as sugared, carbonated beverages once were.

Fund 8 Vending- Funds carried over from the closure of the Career Education Center will be used for the new STEM-themed high school. These funds will be used on marketing, contracted services, supplies and materials, and other items needed for start-up for the new school.

School Activity Bus Fees (Ineligible Transportation Expense)

Because the same mechanics work on school activity buses as on "yellow" buses used to transport students to and from school each day and because gasoline and other items stocked by the Buncombe County Schools transportation department may be used to fuel or repair activity buses, an automated system keeps careful track of which vehicles are being worked on and what inventory is being issued.

Expenditures that are not eligible to be charged to the State Transportation allotment (PRC 056 in the State Public School Fund) are mandated by the North Carolina Department of Public Instruction not only to be charged to local funds instead of State funds but also to be charged to a different Program Report Code (PRC) than eligible expenditures. The designated PRC is 706.

Buncombe County Schools charges schools for gasoline used in activity buses and also a mileage charge to cover other expenses of repairing/replacing activity buses. Because accruals have not yet been posted, it appears that the program produced a surplus. However, that is not generally the case and it is not anticipated to be the case once all accruals are posted.

Third Party Payroll Reimbursements

Reimbursements for payroll expenditures made by third parties are accounted for in PRC 805.

Most commonly, these are reimbursements for substitute pay from either the North Carolina Department of Public Instruction (NCDPI) or the North Carolina Center for the Advancement of Teaching (NCCAT). These payments allow Buncombe County Schools' teachers to participate in a variety of workshops, either as an attendee or as an instructor.

Because Buncombe County Schools is the largest district in the Western Educational Region, made up of the 17 westernmost counties, teachers from our district are often "tapped" to serve as instructors for staff development activities or asked to lend their expertise in other ways to NCDPI.

Expenditures may appear in this PRC if the third party lags behind in reimbursing the central office for payroll expenditures. Revenue may also appear if the third party pre-paid payroll expenditures. In order to comply with the School Budget and Fiscal Control Act, an appropriation may be made to cover these situations.

A budget is not established for this PRC until funding commitments have been received from third parties.

Parking Security

The parking security contract for Buncombe County School's high school parking lots provides two main benefits. First, it helps control access to the school so that individuals who should not be on campus do not have as great an ability to enter undetected as they would otherwise. Second, the presence of parking lot monitors help deter vandalism and other illegal or inappropriate activities in parking lots during the day.

The contract is renegotiated annually by the Assistant Superintendent for Auxiliary Services. The parking security contract is placed in a separate program report code (PRC) so that it can be readily determined if the program is self-supporting or not. The program is supported by parking permit fees charged to students at each high school.

Instructional/Custodial Supply Warehouse

Two employees are paid from this program report code (PRC), a warehouse supervisor and a driver. Goods issued from the warehouse are "marked up" so that the warehouse is self-supporting.

Each year, the Warehouse Supervisor bids approximately 550 warehouse-stocked items in both instructional and custodial categories for sale to all schools and 3 other facilities. Orders are submitted by schools, filled from inventory, and delivered according to an established route that serves each school every other week.

Hazelton Trust Fund

This trust was set up for Orthopedic School and now benefits the Progressive Education Program (PEP) as the successor to Orthopedic School. The use of this funding is restricted to benefit students with the type of handicapping condition that was previously treated at Orthopedic School. While there is a principal balance in this account of over \$200,000, the program tries to keep their expenditures around the amount of interest earned, however, since the recession in 2009 interest rates have declined significantly and so some principal has been spent.

Reimbursements from High Schools

High Schools supplement the funding that the school district provides for wages from their own school funds for a numbers of different reasons. For example, three high schools operate day care programs. Most high schools conduct Saturday attendance make-up sessions and have to pay a teacher an extra-duty stipend for that work. Similarly, most high schools also pay additional coaches (and some even have additional sports) beyond the number of coaches whose supplements the school district covers. School athletic gate receipts also support travel to away games, including the cost of a bus driver. Finally, additional activities for clubs and classes also occasionally require custodial staff to be paid for additional work.

In compliance with Internal Revenue Service (IRS) regulations on withholding taxes and reporting income, all payments of wages have to be made through the central office payroll division.

Because the payment to the central office is shown as an expenditure on the school's bookkeeping system and is reported on the district's financial statements in the Individual Schools Fund (Fund 6), we simply "credit" the payments received from the individual schools against the expenditure transaction made when a payroll is produced. In 2009-10 in order to assist individual schools in their bookkeeping and reconciliation of these transactions, the central office began billing middle schools once a month for the payroll payments authorized by the schools to be paid from school-held funds.

Expenditures may appear if a school lags behind in reimbursing the central office for payroll expenditures. Revenue may also appear if a school pre-paid payroll expenditures. In order to comply with the School Budget and Fiscal Control Act, an appropriation may be made to cover these situations.

A budget is not established for this PRC until likely transaction volume can be determined. Because the PRC revenue and expenditures will net to zero, a budget amendment will have no net impact on the budget.

Reimbursements from Middle Schools

Middle Schools supplement the funding that the school district provides for wages from their own school funds for a numbers of different reasons. For example, many middle schools conduct Saturday attendance make-up sessions and have to pay a teacher an extra-duty stipend for that work. Similarly, most middle schools also pay some additional coaches beyond the number of coaches whose supplements the school district covers. Field trips and/or intramural activities usually involve the cost of a bus driver. Finally, after-hours school-sponsored events for students and/or parents occasionally require custodial or child nutrition staff to be paid for additional work.

In compliance with Internal Revenue Service (IRS) regulations on withholding taxes and reporting income, all payments of wages have to be made through the central office payroll division.

Because the payment to the central office is shown as an expenditure on the school's bookkeeping system and is reported on the district's financial statements in the Individual Schools Fund (Fund 6), we simply "credit" the payments received from the individual schools against the expenditure transaction made when a payroll is produced. In 2009-10 in order to assist individual schools in their bookkeeping and reconciliation of these transactions, the central office began billing middle schools once a month for the payroll payments authorized by the schools to be paid from school-held funds.

Expenditures may appear if a school lags behind in reimbursing the central office for payroll expenditures. Revenue may also appear if a school pre-paid payroll expenditures. In order to comply with the School Budget and Fiscal Control Act, an appropriation may be made to cover these situations.

A budget is not established for this PRC until likely transaction volume can be determined. Because the PRC revenue and expenditures will net to zero, a budget amendment would have no net impact on the budget.

Reimbursements From Elementary Schools

Elementaries also occasionally provide additional funding for wage-related expenses from their own school funds, although the volume of such transactions is much lower per school than at the middle or high school level.

In compliance with Internal Revenue Service (IRS) regulations on withholding taxes and reporting income, all payments of wages have to be made through the central office payroll division.

Because the payment to the central office is shown as an expenditure on the school's bookkeeping system and is reported on the district's financial statements in the Individual Schools Fund (Fund 6), we simply "credit" the payments received from the individual schools against the expenditure transaction made when a payroll is produced.

In 2009-10 in order to assist individual schools in their bookkeeping and reconciliation of these transactions, the central office began billing the elementaries once a month for the payroll payments authorized by the schools to be paid from school-held funds.

Expenditures may appear if a school lags behind in reimbursing the central office for payroll expenditures. Revenue may also appear if a school pre-paid payroll expenditures. In order to comply with the School Budget and Fiscal Control Act, an appropriation may be made to cover these situations.

A budget is not established for this PRC until likely transaction volume can be determined. Because the PRC revenue and expenditures would net to zero, there is no net impact on the Fund 8 budget if a budget amendment is necessary.

Reimbursements From Asheville City Schools

Like Buncombe County Schools, Asheville City Schools hires Transportation Safety Assistants (TSA's) to assist handicapped students on and off specially equipped buses and to assure the safe transportation of handicapped students while in route.

Because Buncombe County Schools operates the transportation system for Asheville City Schools, the Asheville City Schools TSA's are paid through the Buncombe County Schools payroll system. Asheville City Schools reimburses Buncombe County Schools for the cost of the Asheville City Schools TSA's.

Student Services

The Student Services department serves as custodian of student records after students leave, processing over 2,500 record requests each year for transcripts and other records from former students. The Department assists school employees who maintain cumulative records on the 25,000 current students. Departmental staff members also serve as a resource to school personnel on enrollment/ withdrawal forms, policies, and procedures and train school staff to process affidavits and residency forms, and coordinating withdrawal protocols with the NCWISE team.

Student Services also has significant data collection, analysis, and reporting responsibilities including reporting monthly and annual dropout numbers; preparing yearly statistics on discipline, attendance, and school health; providing other statistical information to counselors and social workers; and maintaining the annual attendance backup for schools.

The director coordinates counseling, social work, and mental health/day treatment services and programs in all schools and provides supervisory and budgetary oversight for the Student Response Team and the Graduation Initiative as well as for the Student Services department.

In addition, he serves as liaison to the Buncombe County Health Center for school nurse program and immunization verification as well as special health issues like H1N1. He likewise coordinates social work activities with the Buncombe County Department of Social Services and oversees homeless services under the McKinney-Vento Federal grant. He also serves on community collaborative committees and works directly with the Department of Juvenile Justice

The Student Services department provides oversight and training for Section 504 planning, investigates and handles complaints from the Office of Civil Rights, and receives and processes student sexual harassment complaints under Title IX. Staff also arrange for deaf interpreters when needed for parent conferences and student performances.

Student Services staff are responsible for notifying DMV of academic failures, dropouts, and violent acts for the NC Lose Control, Lose Your License program. Although approximately 1,000 students enter the program each year, only about 140 licenses are actually revoked.

The Student Services department also approves GED forms for students who have withdrawn from school.

Communication Services

Communications responds daily to both public and media requests for information on a wide variety of topics. With a goal of developing improved parental and public support, Communications proactively identifies appropriate events, issues, accomplishments, and programs and obtains media coverage for them. The department also coordinates a variety of community and parental outreach activities, as well as a new video production effort at all of the district's middle and high schools. This program report code accounts for donations from outside sources. There are no donations for the current fiscal year at this time.

AMP Math/Science Partnership

This grant is similar to PRC 112 in Fund 8 in that the money is to be used for math professional development activities. This includes stipends for staff training as well as any travel expenses associated with going to the workshops. In addition, if a sub is needed while the teacher is away these funds will cover the cost of the sub as well.

State Textbook Fund Credit Balances

The State Textbook Fund pays for the operation of the State Textbook Warehouse located in Raleigh and for textbook orders place by warehouse personnel on behalf of the 115 Local Education Agencies (LEA's). In years when an appropriation is made for texbooks, LEA's are given a "credit balance" upon which they may draw to order textbooks. LEA's in turn distribute the "credit balance" to their individual schools.

In order to facilitate each school administrator and bookkeeper's review of his/her school budget, Buncombe County Schools budgets this credit balance in Fund 8 by individual school.

No expenditures will be shown in Fund 8; the use of the Textbook Credit Balance resource will instead be shown as an "in-kind" transaction in Fund 1 – the State Public School Fund. As the Textbook Credit balance is drawn down over time, the amount appropriated in Fund 8 will simply decrease.

Not all schools have a textbook credit balance in PRC 930. Those with no balance exhausted the credit balance available to them with previous orders placed for their school. Many of the schools that do not have a budget in PRC 930 are building up a new balance for textbook purchases using the PRC 061 funding discussed previously in this section of the budget. Some schools also have both a textbook credit balance in PRC 930 and a textbook reserve in PRC 061.

Exchange of Positions for Non-Personnel Costs – PRC 143

The grant application for Community High School funded in Federal PRC 143 originally contained a significant non-personnel component. The staff in the Finance and Business Services division of the North Carolina Department of Public Instruction strongly advised that we use American Recovery and Reinvestment Act (ARRA) funds only to pay personnel because of the difficulty of demonstrating job retention or creation if non-personnel items were funded. Buncombe County Schools therefore sought and obtained permission to fund the non-personnel costs originally included in the grant with local funds and to place positions originally funded elsewhere in the grant in exchange.

Indirect Cost reimbursements coded to Fund 8 are the identified source of funding for these non-personnel items, some of which are capital outlay type expenses, because the County Commissioners' current expense appropriation cannot be used to fund capital items. This grant ended in fiscal year 13-14.
