General questions to ask:

Numbers - what does remediation look like?

How do they keep data? How do they measure effectiveness?

What areas are students allowed in during time?

What criteria for remediation? Do they break it down by course, or just curricula?

Do they have clubs mixed in?

Use of peer tutors?

No ASL?

Give athletes, etc. time to make up missed time, tests

How do they handle faculty who refuse to participate in supervision or remediation?

Can outside resources for clubs?
