

BIXBY PUBLIC SCHOOLS

POLICY 6117

BIDS AND QUOTATIONS

No expenditure involving an amount greater than \$500.00 shall be made except in accordance with the provisions of a written contract or purchase order, and no contract involving an expenditure of more than \$25,000.00 for the purpose of erecting a building or making any improvements on school buildings shall be made except upon sealed proposals and to the lowest or best responsible bidder. This does not prohibit the district from erecting a building or making improvements on a forced account basis.

Public construction contracts less than \$50,000 shall be let and awarded to the lowest responsible bidder by receipt of written bids. Public construction contracts are any contract for the purpose of making any public improvements or constructing any public building or making repairs to or performing maintenance on any school-owned building. If a public construction contract for minor maintenance or minor repair work is less than \$25,000, a contract may be negotiated with a qualified contractor. No work shall be commenced until a written contract is executed and proof of insurance has been provided by the contractor to the school district's business office.

The term "forced account" means the purchase of necessary materials, and the employment of necessary workmen, by the school district itself, rather than entering into a contract with a building or other contractor to construct the building or other improvement. No contract involving sums in excess of \$50,000 shall be split into partial contracts involving sums below \$50,000 for the purpose of avoiding the requirements of the Public Competitive Bidding Act.
