

NEW SHOREHAM SCHOOL DISTRICT
BLOCK ISLAND SCHOOL

The New Shoreham School Committee will review its performance annually to ensure its proper discharge of responsibilities to the community. Evaluation will be based on a positive approach, which will indicate the strengths of the School Committee and the areas that need improvement.

Upon final discussion of the results, the School Committee will develop both short- and long-range goals and objectives to ensure continued proficiency in its areas of excellence, to strengthen weak areas, and to eliminate those activities no longer applicable.

Such goals shall include:

- A. Specify desired completion or evaluation dates;
- B. Be stated in such a manner as to make it possible to know whether or not each objective has been reached on the target date, or the degree to which it has been achieved.
- C. Where appropriate, clearly specify the method to be used in evaluating accomplishment.

In approving goals, the School Committee shall in its discretion indicate priorities among them.

The Superintendent shall present to the School Committee, in April, the following reports:

- A. Report of previous year's results in terms of the objectives previously adopted;
- B. Proposed objectives for the ensuing year and for up to five years in the future.

In addition to these annual reviews, the School Committee may from time to time, add, delete, or revise goals. The Superintendent shall report to the School Committee whenever it appears that such revisions may be appropriate, and whenever progress toward an objective is seriously off schedule.
