

Can You Dig It? Funshop

IMSA Funshops are interactive, hands-on STEM experiences designed to build your child's creativity, critical thinking, and problem-solving skills. The curriculum for all IMSA Funshops are developed and written by IMSA curriculum writers. Kids have so much fun in our programs, they don't realize how much they are learning!

Grades 3rd-4th

Dinosaurs may be extinct, but that doesn't mean they didn't leave behind clues for us to discover... In this Funshop, students will put their paleontology skills to the test by trying to unearth all the fossils hidden in the IMSA dig sites. Will the fossils we uncover be enough to reconstruct an entire dinosaur skeleton? Come join us to find out!

Grades 5th - 6th

Come join us for an exciting adventure that will take us back in time! We will become archaeologists and uncover secrets from ancient cultures. Once found we will piece together the clues, and discover exactly what was left behind for us to find. Come help us unveil which ancient society left behind the artifacts, and why!

A limited number of scholarships (for those that demonstrate financial need) are available for each of our Funshops. Visit www.imsa.edu/funshops for more details, including scholarship application deadline dates.

Please be aware that no refunds or credits are given for Funshop registrations.

Friday, March 29

6:00 – 8:30 P.M.

Cost: \$30

(includes pizza)

Belle Valley School
2465 Amann Drive
