March 2019

Scholastic Bowl

Scholastic bowl had an awesome season this past month.

With only 3 losses on the eighth grade team, we had a successful season. Mrs. Rediger helped push us to be the best team we could be. The official season will end April 24, with an IESA tournament.

CPASA; E Cigarettes

There are new e-cigarettes shaped like USB flash drives being used by students in schools called Juuls. A single

Juul pod contains as much nicotine as 20 regular cigarettes (1 Pack). Just because they aren't "real cigarettes," it doesn't mean they are harmless though. Using e-cigarettes at a younger age can also lead to smoking regular cigarettes or worse. They will affect you negatively because your brain is still developing until approximately the age of 25. Make the right decision, and stay away from what you know will harm you.

Game Night

Student Council had a game night on March 15th, 2019. It was really fun to. At the Game Night students enjoyed volleyball, basketball, blitzball, roller skating, board games, and Kahoot. We also made it so North could come. We had pizza for dinner and lots of snacks too. Just a little too much since we took a lot of leftovers back to our houses .

Reading Night

The reading night was held in Buda on March 14th. There was free pizza at 5:30 and it started at 6:00. The theme was "Action Hero". There were many fun activities including a 3 screen showing on Action Heros, a presentation from the Brainstorm Book Club, Stem Activities and the Jr. High BVS Speech Team shared their speeches. All who attended got a homework pass.-Jordan Britt

Roller Skating

The 6th,7th and 8th grade have been skating in the gym with Mr.Schmitt and while you skate you get to listen to music and play games. One game is where someone rolls the dice and you have to pick a number 1-6 and if the dice lands on your number than your out. And when it's time to eliminate people it's the number that lands on the number gets to stay in and everyone else is out. And sometimes we get to couple skate,and if your not skating with someone Mr.Schmitt will tell you to find a partner. And sometimes Mr.Schmitt will makes us go the opposite way than go back to the way we were going he calls it "Reverse". We have been skating for one week already and there's only one more week left of skating.I think skating is really fun and wish that we could skate everyday. -Maliyah Abraham

CPASA

Thursday March 14th 2019 there was an assembly in the auditorium at 8:30- 10:30. A speaker named Eddie Slowikoski came in and talked to us about imagining what your doing before you do it, he also taught us a few dance moves such as pencil sharpener, lawn mower, sludge hammer, and water sprinkler. Bureau Valley North came and watched as well. After Eddie was almost done he had most of the teachers come up on stage and dance all four

dance moves we learned. - Lesleigh Maynard

Solo and Ensemble

Solo and Ensemble was on March 23 on a Saturday. Solo and Ensemble is for 6th, 7th and 8th grade Band and Chorus members.

8th grade student of the month

The 8th grade student of the month is Riley Cole. Riley has a brother named Gage that is 8. If Riley could travel anywhere he would go to Germany. If he had any superpower it would be to read minds. Riley's favorite color is green. His favorite season is summer. For fun Riley likes to collect baseball cards and watch the news. Riley's favorite subject is Social Studies. By: Rylee Landrus

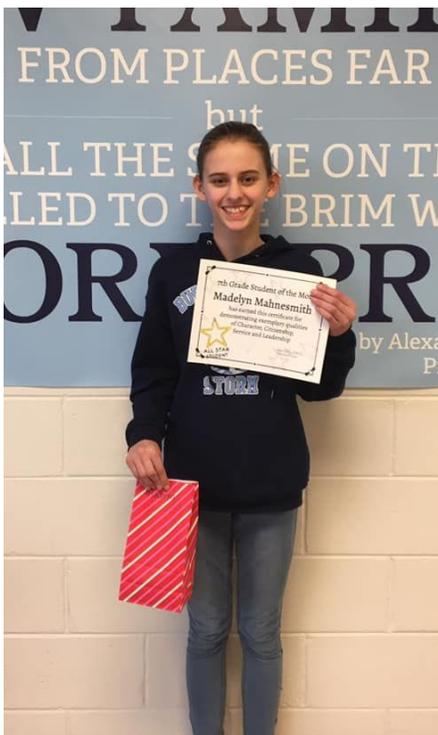

Riley will also be attending the State Geography Bee over Spring Break! Good luck Riley!!!!

6th Grade Student of the Month

The sixth grade student of the month is Elijah Endress. His favorite color is red. If he could have any superpower it would be “strongness” quote on quote Elijah Endress. His favorite sport is basketball. -By Izabella

7th Grade Student of the Month

The 7th grade student of the month is Madelyn Mahnesmith. Her favorite sport is basketball. Her favorite subject is social studies. Her favorite color is rose gold. Her favorite hobby is shopping. - Carly Reglin

Incentive

6-8 are going on a incentive trip on March 22 we are going to the Metro Center and swim and play in the gym. Mrs. Shipp is our reading/language teacher she said “she loved sitting in the pool area and watching people swim last year.” I personally think swimming is fun.
