Exciting Programs for Enthusiastic Learners

The purpose of the Foundation is to provide educational benefits to children in the Cape May City Elementary School, and the community.

The Foundation raises funds to support:

- Teacher Mini-Grants
- The Arts
- School Garden Program
- S.T.E.M.
- High School Scholarship
- Extra-Curricular Activities

Each goal enhances and expands student learning through new experiences.

Education doesn't
stop at 3:00pm!

Investing in our most prized resource: Our children!

Every penny that generous contributors donate to the Foundation goes directly to fund grants and student programs. These include: the arts, technology, life skills, the environment, special education, multicultural diversity, the sciences, and scholarships.

The foundation is also looking to form partnerships with businesses and organizations to match funds for programs that will benefit both.

Committed to our Children, Committed to Community

The Foundation is managed by committee members who include Board of Education members, business leaders, educators, concerned citizens, parents, and U.S. Coast Guard representatives.

Their role is to secure resources that will support programs that benefit Cape May City Elementary School students, and the community. In turn, their time and commitment improve the quality of education that the district offers, while offsetting educational costs and enhancing community support for public education.
