Baseball pitching machine

IMPORTANT NOTICE TO OWNERS, OPERATORS, ATTENDANTS AND SERVICEMEN OF THIS BASEBALL PITCHING MACHINE:

This pitching machine is made and sold to be used as a training device to be operated under the control of a responsible person. WHEN MACHINE IS IN USE BATTERS AND ONLOOKERS MUST BE ALERTED TO EXPECT A PITCH ANY TIME THEY FACE THE MACHINE WITH THE SAFETY COVER REMOVED. The arm guard system is an integral part of this machine. THE MACHINE MUST NEVER BE OPERATED WITHOUT THE ARM GUARD INSTALLED. A safety cover has been provided. THIS SAFETY COVER AND THE SERVICE ACCESS DOOR MUST BE PADLOCKED IN PLACE WHEN THE MACHINE IS STORED OR LEFT UNATTENDED. A service access door allows for servicing and adjustment of the pitching mechanism - make all adjustments inside the guard only with the power cable removed and machine unplugged. Keep this machine away from children and others unfamiliar with its operation and the hazards of carelessness around it. Operators of this machine must assume responsibility for proper maintenance and adjustments on it, the selection and care of balls used in it and the overall safety of its operation and use.
