

## **Introduction**

This manual of governance for the YUTAN PUBLIC SCHOOLS is updated on a continuation basis. In its basic form, the manual will guide the Board of Education, Administration, faculty students and school patrons in the operation of our school for many years.

The manual will never be complete because new problems and issues constantly arise that have not been dealt with before. When such new needs occur, the Board of Education and Administration will work toward developing policies and regulations to cover the subject in question.
