VALLEY CITY PUBLIC SCHOOL DISTRICT #2	Descriptor Code IEAC	1st Reading 8/9/18
VALLEY CITY, NORTH DAKOTA 58072	Adopted	Revised/Rescinded
BUS SCHEDULING AND ROUTING	8/9/18	1/15/20

BUS SCHEDULING AND ROUTING

The Superintendent shall have prepared descriptions and maps of district school bus routes and schedules as fixed by the Board for distribution to parents of students eligible for school bus transportation.

Buses shall not go off the main route to pick up children. Children shall not be allowed off the bus until reaching their destination.

The Board may elect to pay for family transportation to families who meet the bus at a scheduled bus stop in order to minimize the length of time all students are on the bus or to avoid running a bus on secondary roads.

Transportation may be provided to students that are residents of another school district and live outside of the Valley City School District, provided that the cost of providing the transportation may be required to be paid by the student's family.

The fee for Out-of-District transportation is calculated by the transportation provider. Out-of- District students may be transported, by their own arrangement, to a regularly designated District bus stop, and will then be charged the current District fee.
