

Professional Development Opportunities Learning Universe Platform

Ready to supercharge your classroom with game-based learning? Check out our year-round professional development opportunities below! Sessions are tailored to meet your needs – sign up for sessions that are relevant for you at any point during the school year.

Getting Started with Legends of Learning

Description: In this session, educators will receive a comprehensive overview of our game-based platform: learn how to get students set up, create and manage assignments, view student data, and more! The session also highlights best practices of using Legends and provides guidance surrounding how to best integrate Legends with existing resources.

Audience: Educators new to Legends of Learning, or those who need an in-depth overview of all features the program offers.

Session Length: 60 minutes

Legends of Learning Refresher Session

Description: Welcome back to teachers that have used Legends of Learning in the past! This session is tailored to the needs of our veteran Legends of Learning educators. The session will begin with a brief reminder on how to create custom assignments - a bedrock of the Legends of Learning platform. Then, using a Zoom audience poll, educators will vote on the top features/topics that they want to review to help prepare them for integrating Legends this school year.

Audience: Educators that have already implemented Legends of Learning in prior school years.

Session Length: 45 minutes

Best Practices for Implementing Game-Based Learning with Legends of Learning

Description: Now that you know the basics of assigning games and assessments to students, it's time to learn about the instructional practices that allow for intentional use of our educational games. Educators will be introduced to three instructional best practices and will be provided hands-on time to develop assignments that implement one of the best practices discussed.

Audience: Educators that have already implemented Legends of Learning this school year or in prior school years. Participants must already be comfortable with signing in to Legends of Learning and creating assignments.

Session Length: 60 minutes

Effectively Utilizing Legends of Learning Data

Description: You have assigned games in Legends of Learning, so what's next? During this session, educators will review how to analyze student progress and performance on assignments, learn about our enhanced standards-based performance reports, and receive tips on next steps based on the data in their accounts. Using Legends of Learning data, educators can make meaningful decisions about their next steps with students!

Audience: Educators that have already implemented Legends of Learning this school year and have student performance data in their accounts. Participants must already be comfortable with signing in to Legends of Learning.

Session Length: 30 minutes

Legends of Learning Q&A

Description: In this informal office-hours set up, educators will have the opportunity to ask questions to one of our product experts about utilizing Legends of Learning in their classroom. Be sure to come to the session with questions ready!

Audience: New and veteran Legends of Learning educators who have started with Legends of Learning and have specific questions about utilizing the platform. This session is not intended to provide a comprehensive overview - teachers needing an in-depth introduction should attend the Getting Started with Legends of Learning session.

Session Length: 30 minutes
