

# **"Notes From School"**

## **Substitute Teacher Appreciation Week**

The week of September 5-11 was National Substitute Teacher Appreciation Week. Every school district greatly appreciates the abilities of the full-time employees in the classroom. At the same time, we also realize that they can't be there every day based on various circumstances (personal illness, family emergency, professional development, etc.). On those rare occasions, the School District of Mondovi must assure the students that they are still in very capable hands.

To work as a substitute teacher in the State of Wisconsin, if the substitute is not a currently licensed teacher, they must earn a permit from the Department of Public Instruction. A substitute permit requires candidates to have a bachelor's degree from an accredited college or university and a school district sponsor.

The School District of Mondovi not only appreciates the work that it takes to become a substitute teacher, but more importantly, the commitment that you have made to assisting in the education of the students in our district. Thanks for all you do! We couldn't do it without you!
