

Pillars of Science

Safety

Fair Lawn Schools Elementary Science Safety Expectations

T r		1. Listen to directions from your teachers. Ask an adult if you do not understand.
R e		2. Take great care when transporting materials from one part of the room to another. 3. Do not eat or drink while doing science experiments.
R e		4. Act responsibly. Do not fool around during science. 5. Wear your safety goggles when instructed by an adult. 6. Never handle broken glass with your bare hands. Tell the teacher if anything breaks.
F ai		7. Take turns. Share science equipment with your partners to prevent accidents.
C ar		8. Handle or observe living things in a caring way

9. Report any accidents or injury to the teacher right away.
