CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditor's Report

To the Board of Trustees
Decatur Independent School District
307 S. Cates Street
Decatur, Texas 76234

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Decatur Independent School District ("the District") as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Decatur Independent School District as of August 31, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As described in Note A to the financial statements, in 2015, Decatur Independent School District adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for contributions made Subsequent to the Measurement Date -- an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability and schedule of District pension contributions identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Decatur Independent School District's basic financial statements. The introductory section is presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is also not a required part of the basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is also not a required part of the basic financial statements.

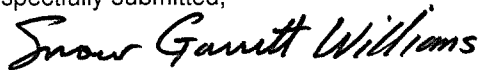

The supplementary information, except for Exhibit J-2, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and Exhibit J-2 of the other supplementary information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 6, 2016 on our consideration of Decatur Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Decatur Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

A handwritten signature in black ink that reads "Snow Garrett Williams". The signature is written in a cursive, flowing style.

Snow Garrett Williams

January 6, 2016

Management's Discussion and Analysis (Unaudited)

As management of the District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found at the front of this report and the District's financial statements, which follow this section.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent period by \$19,423,433 (*net position*). Of this amount, \$4,953,727 (*unrestricted net position*) may be used to meet the District's ongoing obligations.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$30,325,728. Approximately 23 percent of this total amount, \$6,889,117, is *available for spending* at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$6,889,117, or 24 percent of the total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (*governmental activities*) as opposed to *business-type activities* that are intended to recover all or a significant portion of their costs through user fees and charges. The District has no *business-type activities* and no component units for which it is financially accountable. The government-wide financial statements can be found on pages 11-12 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds-not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's

near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The District adopts an annual appropriated budget for its general fund, debt service fund, and food service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 13-18 of this report.

- **Proprietary funds.** *Proprietary funds* provide the same type of information as the government-wide financial statements, only in more detail. There are two proprietary fund types. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The District has no enterprise funds. The second type of proprietary fund is the *internal service fund*. Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses the *internal service fund* to report activities for its health insurance. The basic proprietary financial statements can be found on pages 19-21 of this report.
- **Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position can be found on page 22.
- **Notes to the financial statements.** The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23-42 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 43-47 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$19,423,433 as of August 31, 2015.

The District's Net Position

	August 31, 2015	August 31, 2014
Current assets	\$ 33,435,103	\$ 20,261,974
Capital assets	72,401,983	73,853,257
Total assets	<u>105,837,086</u>	<u>94,115,231</u>
Deferred outflows of resources		
Deferred outflow related to pensions	718,076	-
Total deferred outflows of resources	<u>718,076</u>	<u>-</u>
Current liabilities	1,975,547	1,429,655
Long-term liabilities outstanding	83,830,993	70,531,219
Total liabilities	<u>85,806,540</u>	<u>71,960,874</u>
Deferred inflows of resources		
Deferred gain on refunding	451,372	5,839
Deferred inflow related to pensions	873,817	-
Total deferred inflows of resources	<u>1,325,189</u>	<u>5,839</u>
Net position:		
Net investment in capital assets	(1,668,919)	3,221,067
Restricted	16,138,625	3,570,714
Unrestricted	4,953,727	15,356,737
Total net position	<u>\$ 19,423,433</u>	<u>\$ 22,148,518</u>

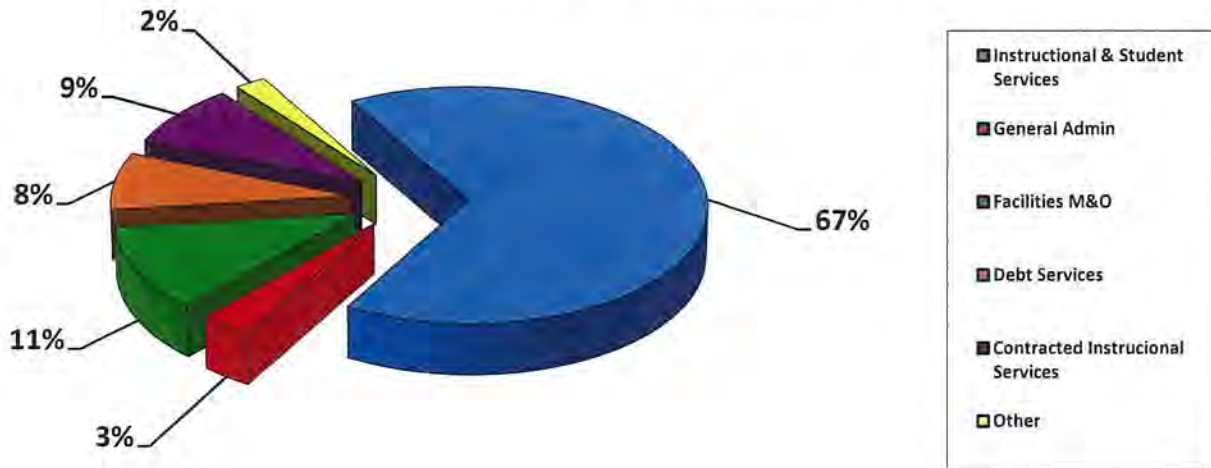

Investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment) is negative \$1,668,919. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$16,138,625, represents resources that are subject to external restrictions on how they may be used. Examples of these restricted assets include: (1) debt service of \$2,716,060, (2) scholarships of \$186,798, (3) capital projects of \$13,153,267, and (4) other purposes of \$82,500. The remaining balance of unrestricted net position, \$4,953,727, may be used to meet the District's ongoing obligations. This surplus is not an indication that the District has significant resources available to meet financial obligations next year, but rather the result of having *long-term* commitments that are less than currently available resources.

Governmental activities. The District's total net position increased \$511,359. The total cost of all *governmental activities* this year was \$39,233,175. The amount that our taxpayers paid for these activities through property taxes was \$29,506,650 or 75%.

Changes in the District's Net Position

	Fiscal Year August 31, 2015	Fiscal Year August 31, 2014
Revenues:		
Program revenues		
Charges for services	\$ 673,952	\$ 612,581
Operating grants and contributions	3,718,415	3,342,850
General revenues		
Property taxes	29,506,650	29,380,954
State grants	4,373,177	4,951,486
Other	1,472,340	531,537
Total revenues	<u>39,744,534</u>	<u>38,819,408</u>
Expenses:

Net position - ending	<u>\$ 19,423,433</u>	<u>\$ 22,148,518</u>

Expenditures by Function

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$30,325,728, an increase of \$12,419,726. Approximately 23 percent of this total amount (\$6,889,117) constitutes *unassigned fund balance*. Nonspendable fund balance for inventories is \$9,653. The remainder of fund balance is *restricted* or *committed* to indicate that it is not available for new spending because it has already been restricted (1) to pay debt service (\$2,532,640), (2) for construction and capital acquisitions (\$13,153,267), and (3) other fund balance restrictions (\$269,298), and committed for (4) construction (\$5,197,524), (5) for capital expenditures and equipment (\$1,500,000), (6) for self-insurance (\$100,000), and (7) other commitments (\$674,299).

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,889,117, out of a total fund balance of \$12,148,770. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 24 percent of the total general fund expenditures, while total general fund balance represents 42 percent of that same amount.

The fund balance of the District's general fund increased \$695,735 during the current fiscal year. Key factors in this increase are:

- The District received federal Impact Aid for the grasslands located within its boundaries. Also, state aid increased due to increased average daily attendance. The District purchased budgeted buses through the bond that was passed in May, 2015.

The debt service fund has a total fund balance of \$2,532,640, all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$54,058.

The capital projects fund has a total fund balance of \$15,300,791 consisting of committed of \$2,147,524 and restricted from external restrictions of \$13,153,267. The net increase in fund balance during the period was \$11,799,676.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved several revisions to budgeted revenue and appropriations. These amendments fall into the following categories:

- Purchase fuel tank and fueling system
- Installed trophy case at Decatur High School
- Transfer for Reimbursement Resolution relating to the 2015 Bond Issue
- Adjustment for SHARS provider
- Added position for Public Relations Department
- Various increases in maintenance, extracurricular and health services
- Year-end adjustment for recapture and various adjustments to functions

The following are significant variations between the final budget and actual amounts for the general fund:

- Actual revenues were higher than budgeted by \$280,254 primarily related to an increase in state program revenues: and
- Actual expenditures were lower than budgeted by \$1,996,069 primarily due to school leadership, student (pupil) transportation, plant maintenance and operations, capital outlay, and contracted instructional services between public schools.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of August 31, 2015, amounts to \$72,401,983 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment, and construction in progress.

Major capital asset events during the year included completion of new rooftop HVAC units placed District-wide and continued construction in progress on projects such as track resurfacing, football press box, fuel tank system at the transportation department, and parking lot renovations, and completion of the DHS Project Center/Ag Barn.

Districts Capital Assets (net of depreciation)

	<u>August 31, 2015</u>	<u>August 31, 2014</u>
Land	\$ 1,998,567	\$ 1,998,567
Buildings and improvements	67,617,569	69,145,306
Furniture and equipment	2,094,648	2,386,030
Construction in progress	691,199	323,354
Total at historical cost	<u>\$ 72,401,983</u>	<u>\$ 73,853,257</u>

Additional information on the District's capital assets can be found in Note C on page 31 of this report.

Long-term debt. As of August 31, 2015, the District had total general obligation bonded debt outstanding of \$70,432,612, an increase of \$8,660,000 from the prior year.

During fiscal year 2015, the District issued Series 2015 Building and Refunding Bonds (par \$16,500,000 and premium \$1,813,255). Of the proceeds, \$4,644,240 were used to defease the outstanding maturities of the Series 2005 Refunding Bonds while the remaining balance, \$11,942,307, will be used for new capital projects. This resulted in a refunding gain of \$451,372.

As of the last rating, June 2015, the new bonds issued and the outstanding unlimited tax supported debt of the District was rated "AAA" by Moody's, based upon the guaranteed repayment thereof under the Permanent School Fund Guarantee Program of the Texas Education Agency. The District's unenhanced, underlying rating is "Aa3" by Moody's Investors Service.

Accretion on CAB's increased \$829,396 for fiscal year 2015, resulting in an ending balance of \$7,354,948. The premium on bonds is \$3,186,918, an increase of \$953,863 from the previous year. The net pension liability for fiscal year 2015 had an ending balance of \$2,856,515 due to the implementation of GASB 68 & 71.

Additional information on the District's long-term debt can be found in Note E on pages 32-33 of this report.

Economic Factors and Next Year's Budgets and Rates

- The District's 2015-2016 M&O tax rate is \$1.04 which represents a zero percent increase over the prior year. The District's I&S rate was \$0.29, a four cent increase from 2014-2015 due to 2015 bond issue.
- Capital projects budgeted in the general fund include \$15,000 for custodial/maintenance equipment and \$53,500 for facilities projects.
- The District increased teacher salaries by \$1,200 per step. The cost of this increase is anticipated to be \$253,200 for the year.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Business Office, Decatur I.S.D., 307 S. Cates Street, Decatur, Texas, 76234.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

A. Summary of Significant Accounting Policies

The basic financial statements of Decatur Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

Capital Projects Fund: This fund is used to account for all financial resources restricted, committed, or assigned to expenditure for the acquisition or construction of capital assets.

In addition, the District reports the following fund types:

Internal Service Funds: These funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, this fund type is included in the "Governmental Activities" column of the government-wide financial statements.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

DECATUR INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2015

b. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

c. Inventories and Prepaid Items

Inventories of supplies on the balance sheet are stated at weighted average cost, while inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Inventory items are recorded as expenditures when they are consumed. Supplies are used for almost all functions of activity, while food commodities are used only in the food service program. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount. Inventories also include plant maintenance and operation supplies as well as instructional supplies.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

d. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings & Improvements	5-40
Equipment	3-15

e. Deferred Outflows and Inflows of Resources

In addition to assets, the statements of financial position (the government-wide Statement of Net Position and governmental funds balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

f. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

g. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

h. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

i. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

j. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the District's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself. The Board delegates authority to assign fund balance to the Superintendent or Deputy Superintendent.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

k. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

l. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

4. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At August 31, 2015 the District reported the following:

Net Pension Asset	\$	--
Net Pension Liability	\$	2,856,515

5. New Accounting Standards Adopted

In fiscal year 2015, the District adopted two new statements of financial accounting standards issued by the Governmental Accounting Standards Board (GASB):

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

- Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*
- Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68.*

- a. Statement No. 68 establishes standards of accounting and financial reporting, but not funding or budgetary standards, for defined benefit pensions and defined contribution pensions provided to the employees of state and local government employers through pension plans that are administered through trusts or equivalent arrangements criteria detailed above in the description of Statement No. 67. This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans within the scope of the Statement.

The requirements of Statement No. 68 apply to the financial statements of all state and local governmental employers whose employees are provided with pensions through pension plans that are administered through trusts or equivalent arrangements as described above, and to the financial statements of state and local governmental nonemployer contributing entities that have a legal obligation to make contributions directly to such pension plans. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures related to pensions. Note disclosure and RSI requirements about pensions also are addressed. For defined benefit pension plans, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

The adoption of Statement No. 68 has no impact on the District's governmental fund financial statements, which continue to report expenditures in the contribution amount determined legislatively for the TRS plan. The calculation of pension contributions is unaffected by the change. However, the adoption has resulted in the restatement of the District's beginning net position for the fiscal year 2014 government-wide financial statements to reflect the reporting of net pension liability and deferred inflows of resources and deferred outflows of resources for its qualified pension plan and the recognition of pension expense in accordance with the provisions of the Statement.

- b. Statement No. 71 amends Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Since the measurement date of the pension plan was different than the District's fiscal year-end, the effects from the District's reported contributions to the plan subsequent to the respective measurement date of the plan cause an increase in deferred outflow of resources and a decrease in net position.

B. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At August 31, 2015, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$8,928,601 and the bank balance was \$9,273,556. The District's cash deposits at August 31, 2015 and during the year ended August 31, 2015, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District's investments at August 31, 2015 are shown below.

<u>Investment or Investment Type</u>	<u>Maturity</u>	<u>Fair Value</u>
TexPool LGIP	Wtd. Avg. maturity = 41 days	\$ 23,260,599
Total Investments		<u>\$ 23,260,599</u>

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At August 31, 2015, the District's investments, other than those which are obligations of or guaranteed by the U. S. Government, are rated as to credit quality as follows:

TexPool LGIP	AAA
--------------	-----

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

TexPool

The District invests in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool that was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts oversees TexPool. Federated Investors, Inc. is the administrator and investment manager of TexPool under a contract with the State Comptroller. In accordance with the Public Funds Investment Act, the State Comptroller has appointed the TexPool Investment Advisory Board to advise with respect to TexPool. The board is composed equally of participants in TexPool Portfolios and other persons who do not have a business relationship with TexPool Portfolios and are qualified to advise in respect to TexPool Portfolios. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAA by Standard & Poor's and operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. All investments are stated at amortized cost, which usually approximates the market value of the securities. The stated objective of TexPool is to maintain a stable average \$1.00 per unit net asset value; however, the \$1.00 net asset value is not guaranteed or insured. The financial statements can be obtained from the Texas Trust Safekeeping Trust Company website at www.ttstc.org.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

C. Capital Assets

Capital asset activity for the year ended August 31, 2015, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
<i>Governmental activities:</i>				
<i>Capital assets not being depreciated:</i>				
Land	\$ 1,998,567	\$ --	\$ --	\$ 1,998,567
Construction in progress	323,354	691,199	323,354	691,199
Total capital assets not being depreciated	<u>2,321,921</u>	<u>691,199</u>	<u>323,354</u>	<u>2,689,766</u>
<i>Capital assets being depreciated:</i>				
Buildings and improvements	98,842,938	1,231,399	--	100,074,337
Equipment	6,694,258	325,127	82,638	6,936,747

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

D. Interfund Balances and Activities

1. Due To and From Other Funds

Balances due to and due from other funds at August 31, 2015, consisted of the following:

<u>Due To Fund</u>	<u>Due From Fund</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Special Revenue Funds	\$ 346,546	For transfer of federal receipts
General Fund	Trust and Agency Funds	28,822	Short-term loans
Special Revenue Funds	General Fund	135,509	For transfer of federal receipts
Capital Projects Funds	General Fund	5,200	Capital projects expenditures
	Total	<u>\$ 516,077</u>	

All amounts due are scheduled to be repaid within one year.

2. Transfers To and From Other Funds

Transfers to and from other funds at August 31, 2015, consisted of the following:

<u>Transfers From</u>	<u>Transfers To</u>	<u>Amount</u>	<u>Reason</u>
General Fund	Special Revenue Funds	\$ 91,593	Supplement other funds sources
	Total	<u>\$ 91,593</u>	

E. Long-Term Obligations

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended August 31, 2015, are as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>	<u>Amounts Due Within One Year</u>
Governmental activities:					
General obligation bonds	\$ 61,772,612	\$ 16,500,000	\$ 7,840,000	\$ 70,432,612	\$ 3,970,000
Refunding gain (amortized)	--	451,372	--	451,372	--
Accumulated Accretion CAB's	6,525,552	829,396	--	7,354,948	--
Premium (unamortized)	2,233,055	1,813,255	859,392	3,186,918	--
Net Pension Liability *	3,507,566	--	651,051	2,856,515	--
Total governmental activities	<u>\$ 74,038,785</u>	<u>\$ 19,594,023</u>	<u>\$ 9,350,443</u>	<u>\$ 84,282,365</u>	<u>\$ 3,970,000</u>

* Other long-term liabilities

The funds typically used to liquidate other long-term liabilities in the past are as follows:

<u>Liability</u>	<u>Activity Type</u>	<u>Fund</u>
Net Pension Liability *	Governmental	General Fund

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

2. Debt Service Requirements

Debt service requirements on long-term debt at August 31, 2015, are as follows:

<u>Year Ending August 31,</u>	<u>Governmental Activities</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 3,970,000	\$ 2,677,588	\$ 6,647,588
2017	4,145,000	2,524,363	6,669,363
2018	4,315,000	2,356,113	6,671,113
2019	4,480,000	2,201,838	6,681,838
2020	3,433,953	3,243,873	6,677,826
2021-2025	17,952,565	15,395,395	33,347,960
2026-2030	16,502,156	13,454,986	29,957,142
2031-2035	15,633,938	5,311,410	20,945,348
Totals	<u>\$ 70,432,612</u>	<u>\$ 47,165,566</u>	<u>\$ 117,598,178</u>

The Unlimited Tax School Building Bonds Series 2004 interest is 5.00% and mature in August 2031.

The Unlimited Tax School Building Bonds Series 2008 interest range from 4.625% to 5.25% and mature in August 2034.

The Unlimited Tax School Refunding Bonds Series 2009 interest range from 2.75% to 4.00% and mature in August 2030.

The Unlimited Tax School Refunding Bonds Series 2013 interest range from 3.00% to 5.00% and mature in August 2019.

The Unlimited Tax School Building and Refunding Bonds Series 2015 interest range from 1.00% to 5.00% and mature in February 2035.

3. Advance Refunding of Debt

GASB Statement No. 7, "Advance Refundings Resulting in Defeasance of Debt," provides that refunded debt and assets placed in escrow for the payment of related debt service be excluded from the financial statements. As of August 31, 2015, outstanding balances of bond issues that have been refunded and defeased in-substance by placing existing assets and the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments are as follows.

<u>Bond Issue</u>	<u>Amount</u>
None - All bond maturities have been paid in full	--
Total	<u>--</u>

As a result of the advance refunding of principal maturities from the Unlimited Tax Refunding Bonds, Series 2005 by the issuance of the Unlimited Tax Building and Refunding Bonds, Series 2015, the District decreased its total debt service requirements by \$510,995, which resulted in a net economic gain (difference between the present value of the debt service payments on the old and new debt) of \$427,100.

F. Commitments Under Noncapitalized Leases

Commitments under operating (noncapitalized) lease agreements for facilities and equipment provide for minimum future rental payments as of August 31, 2015, as follows:

<u>Year Ending August 31,</u>	
2016	\$ 66,492
2017	27,705
Total Minimum Rentals	<u>\$ 94,197</u>
Rental Expenditures in 2015	<u>\$ 66,492</u>

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

G. Risk Management

Property Casualty Program

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2015, the District participated in the Texas Association of School Boards Risk Management Fund (the Fund) with coverage in Auto Liability, Auto Physical Damage, General Liability, Property, and Legal Liability. The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating the Fund execute Interlocal Agreements that define the responsibilities of the parties. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three years.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop-loss program vary by line coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2015, the Fund anticipates Decatur ISD has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2014 are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Workers' Compensation

The District has established a partially self-funded workers' compensation plan by participating in the Texas Educational Insurance Association. The Association is a public entity risk pool currently operating as a common risk management and insurance program for member colleges and school districts. The main purpose of the Association is to partially self-insure certain workers compensation risks up to an agreed upon retention limit. The plan for worker's compensation benefits is authorized by Section 504.011 of the Labor Code. Claims are paid by a third party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. The liability of the workers' compensation self-insurance plan includes \$99,733 incurred but not reported claims. Costs are allocated to other funds and the retained earnings are fully reserved for self-funded insurance. Estimates of claims payable and of claims incurred, but not reported at August 31, 2015, are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the fund as they become due.

Changes in the balances of claim liabilities during the past year are as follows:

	Year Ended 08/31/2015	Year Ended 08/31/2014
Unpaid claims, beginning of year	\$ 175,639	\$ 192,536
Incurred claims	23,836	44,624
Claim payments	(40,397)	(61,521)
Unpaid claims, end of fiscal year	<u>\$ 159,078</u>	<u>\$ 175,639</u>

Unemployment Compensation

During the year ended August 31, 2015, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2015, the Fund anticipates that Decatur ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2014, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

H. Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS' defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The TRS pension trust fund is a qualified pension trust under section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

2. Pension Plan Fiduciary Net Position

Detailed information about the TRS' fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature, as noted in the plan description in (1.) above.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

4. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution, which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015.

Contribution Rates		
	2014	2015
Member	6.4%	6.7%
Non-Employer Contributing Entity (NECE - State)	6.8%	6.8%
Employers	6.8%	6.8%
District's 2014 Employer Contributions	\$ 271,122	
District's 2014 Member Contributions	\$ 1,139,713	
NECE 2014 On-Behalf Contributions to District	\$ 949,612	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the TRS pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the TRS the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

5. Actuarial Assumptions

The total pension liability in the August 31, 2014 actuarial evaluation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2014
Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	30 Years
Asset Valuation Method	5 Year Market Value
Discount Rate	8%
Long-term Expected Rate of Return*	8%
Salary Increases*	4.25% to 7.25%
Weighted-Average at Valuation Date	5.55%
Payroll Growth Rate	3.5%

* Includes inflation of 3%

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2010 and adopted on April 8, 2011. With the exception of the post-retirement mortality rates for healthy lives and a minor change to the expected retirement age for inactive vested members stemming from the actuarial audit performed in the Summer of 2014, the assumptions and methods are the same as used in the prior valuation. When the mortality assumptions were adopted in 2011, they contained significant margin for possible future mortality improvements. As of the date of the valuation there has been a significant erosion of this margin to the point that the margin has been eliminated. Therefore, the post-retirement mortality rates for current and future retirees was decreased to add additional margin for future improvement in mortality in accordance with the Actuarial Standards Practice No. 35.

6. Discount Rate

The discount rate used to measure the total pension liability was 8%. There was no change in the discount rate since the previous fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2014 are summarized below:

DECATUR INDEPENDENT SCHOOL DISTRICT

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net pension liability if the discount rate used was 1 percentage point less and 1 percentage point greater than the discount rate that was used (8%) in measuring the 2014 net pension liability.

	1% Decrease 7%	Current Discount Rate 8%	1% Increase 9%
District's proportionate share of the net pension liability	\$ 5,104,419	\$ 2,856,515	\$ 1,175,501
Plan net pension liability (in millions from TRS CAFR)	\$ 47,737	\$ 26,717	\$ 10,998

8. Pension Liabilities, Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

At August 31, 2015, the District reported a liability of \$2,856,515 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

District's proportionate share of the collective net pension liability	\$	2,856,515
State's proportionate share of the net pension liability associated with the District		<u>10,026,339</u>
Total	\$	<u>12,882,854</u>

The net pension liability was measured as of August 31, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2013 through August 31, 2014.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

There was a change in employer contribution requirements that occurred after the measurement date of the net pension liability and the employer's measurement date. A 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees went into law effective September 1, 2014. The amount of the expected resultant change in the employer's proportion cannot be determined at this time.

For the year ended August 31, 2015, the District recognized pension expense of \$926,916 and revenue of \$926,916 for support provided by the State.

At August 31, 2015, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		<u>Deferred Outflows</u>		<u>Deferred Inflows</u>
Differences between expected and actual economic experience	\$	44,177	\$	--
Changes in actuarial assumptions		185,677		--
Difference between projected and actual investment earnings		--		873,068
Changes in proportion and differences between the District's contributions and the proportionate share of contributions		--		749
District contributions paid to TRS subsequent to the measurement date		<u>488,222</u>		
Total	\$	<u>718,076</u>	\$	<u>873,817</u>

The net amounts of the District's balances of deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended August 31	\$	
2016	\$	(179,617)
2017	\$	(179,617)
2018	\$	(179,617)
2019	\$	(179,617)
2020	\$	38,650
Thereafter	\$	35,855

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

I. Retiree Health Care Plans

1. TRS-Care

a. Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS web site at www.trs.state.tx.us under the TRS Publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

b. Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. The State of Texas contribution rate was 1% for fiscal years 2015 and 2014, and 0.5% for fiscal year 2013. The active public school employee contributions rates were 0.65% of public school payroll, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2015, 2014 and 2013. For the years ended August 31, 2015, 2014, and 2013, the State's contributions to TRS-Care were \$179,962, \$178,080, and \$85,159, respectively, the active member contributions were \$116,975, \$115,752, and \$110,706, respectively, and the District's contributions were \$98,979, \$97,944, and \$93,675, respectively, which equaled the required contributions each year.

2. Medicare Part D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2015, 2014, and 2013, the subsidy payments received by TRS-Care on behalf of the District were \$52,420, \$48,342, and \$65,895, respectively.

J. Employee Health Care Coverage

During the year ended August 31, 2015, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$337 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the District and the third party administrator is renewable annually, and terms of coverage and premium costs are included in the contractual provisions.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

Latest financial statements for the Company are available for their year end and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

K. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the District at August 31, 2015.

L. Shared Services Arrangements

Shared Services Arrangement - Membership

The District participates in a shared services arrangement ("SSA") for deaf education with the following school districts:

Member Districts

Cooke County SpEd SSA	Lake Dallas ISD
Decatur ISD	Lewisville ISD
Denton County SpEd Co-op	Little Elm ISD
Denton ISD	Northwest ISD
Gainesville ISD	Wise County SpEd Co-op

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Denton ISD, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

Shared Services Arrangement - Membership

The District participates in a shared services arrangement ("SSA") for visual impaired services with the following school districts:

Member Districts

Palo Pinto County Co-op	Casleberry ISD	Weatherford ISD
Parker County Co-op	Decatur ISD	White Settlement ISD
Wise County Co-op	Lake Worth ISD	
Aledo ISD	Northwest ISD	
Azle ISD	Springtown ISD	

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Peaster ISD, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2015

M. Prior Period Adjustment

The District recorded a prior period adjustment in accordance with the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27*, to recognize beginning net pension liability and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, to recognize a beginning deferred outflow of resources for pension contributions. This decreased beginning net position of the governmental activities by \$3,236,444.

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

DECATUR INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2015

Budget

The official budget was prepared for adoption for all Governmental Fund Types legally required to adopt a budget (General Funds, Food Service Funds, and Debt Service Funds). The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Defined Benefit Pension Plan

Changes of benefit terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

Other Supplementary Information

This section includes financial information and disclosures not required by the Governmental Accounting Standards Board and not considered a part of the basic financial statements. It may, however, include information which is required by other entities.

Independent Auditor's Report on Internal Control over Financial Reporting and
On Compliance and Other Matters Based on an Audit of Financial Statements
Performed In Accordance With *Government Auditing Standards*

Board of Trustees
Decatur Independent School District
307 S. Cates Street
Decatur, Texas 76234

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Decatur Independent School District, as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise Decatur Independent School District's basic financial statements, and have issued our report thereon dated January 6, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Decatur Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Decatur Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Decatur Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Decatur Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Decatur Independent School District in a separate letter dated January 6, 2016.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Snow Garrett Williams

SNOW GARRETT WILLIAMS
CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditor's Report on Compliance for Each Major Program and
on Internal Control Over Compliance Required by OMB Circular A-133

Board of Trustees
Decatur Independent School District
307 S. Cates Street
Decatur, Texas 76234

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited the Decatur Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Decatur Independent School District's major federal programs for the year ended August 31, 2015. Decatur Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Decatur Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Decatur Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Decatur Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Decatur Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended August 31, 2015.

Report on Internal Control Over Compliance

Management of the Decatur Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Decatur Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Decatur Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Snow Garrett Williams
