Continuing Education Institute

K

### Crafts for Kids

12:30/2:30 pm MTWTh  
Make 6–10 different craft projects to take home. Learn about beads, painting, drawing, and how to use paper glitter paint, and much more.  
*Instructor, Dana Nieland*

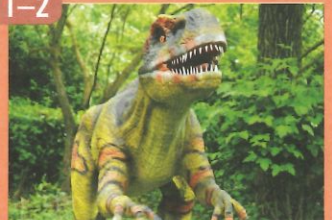

K

### Sensory Play

12:30/2:30 pm MTWTh  
Come ready to play and make new friends. You'll share, get a little wet, get your hands dirty, and use your imagination with sensory play.  
*Instructor, Jennifer Volenec*

1-2

### About Those Dinosaurs

12:30/2:30 pm MTWTh  
Examine real fossils and life-sized models. Explore what is known about dinosaurs and their bird cousins. Create neat dino art.  
*Instructor, Carolyn Richard*

1-2

### All About Bugs (Entomology)

12:30/2:30 pm MTWTh  
Do you have fun catching and identifying insects? If so, entomology is just the class for you. Insect nets will be provided.  
*Instructor, Alex Harman*

1-2

### Chemistry

12:30/2:30 pm MTWTh

Learn more about chemistry in a university chemistry lab. Conduct fun experiments just like real scientists.

*Instructor, Jesse Reinstein*

1-2

### Monarchs+Milkweed=Magic

12:30/2:30 pm MTWTh

The life cycle of this magnificent insect is amazing to watch. Learn how to raise your own Monarchs at home.

*Instructor, Kirsten Rusch*

3-4

### Baking Bonanza

12:30-4 pm MT or WTh

Learn basic culinary skills while working in teams to plan and prepare the perfect breakfast from start to finish.

*Instructor, Valerie Martin*

3-4

### Field to Fork Cooking Class

12:30-4 pm MT or WTh

Get your hands dirty in the UW-Platteville Edible Garden and the kitchen during this exciting field to fork cooking class.

*Instructor, Amy Seebeth-Wilson*

1-2

### Creative Art

12:30/2:30 pm MTWTh

Have fun creating multiple art projects, including papier-mache bowls, seed mosaics, sand mosaics, painting, paper art, and more.

*Instructor, Julia Harman*

1-2

### Slime Extravaganza

12:30/2:30 pm MTWTh

Learn to make different kinds of slime: classic, magnetic, glow in the dark, fluffy, glitter, rainbow, flubber, soap, and even edible slime.

*Instructor, Courtney Jentz*

3-4

### Basic Woodworking

12:30-4 pm MT or WTh

Have fun and learn useful skills in woodworking. Use hand tools and pre-cut kits to make a sturdy toolbox and an outdoor bird feeder.

*Instructor, Gary Munson*

3-4

### Rockets!

12:30-4 pm MT or WTh

Learn the history and engineering of rockets while you build and launch your own.

*Instructor, Katie Ravidoux*

1-2

### Dig into Mining

12:30/2:30 pm MTWTh

Let's be miners. Dig for minerals by candlelight, climb in the windlass to be lowered through a shaft, and learn about the history of mining.

*Instructor, Platteville Mining Museum*

1-2

### Sock Puppet Palooza

12:30/2:30 pm MTWTh

Explore the limits of your imagination while learning how to create wacky sock puppets.

*Instructor, Kecia King*

3-4

### Cheese Art and Ice Cream Science

12:30-4 pm MT or WTh

Learn how milk is used to create different foods such as ice cream and cheese-making.

*Instructor, Tera Montgomery*

3-4

### Mission: Robots

12:30-4 pm MT or WTh

Participate in a robot team challenge with Dot and Dash to accomplish your mission.

*Instructor, Renee Douglas*

1-2

### Disney for Kids

12:30/2:30 pm MTWTh

You will learn about your favorite Disney characters by reading stories, playing games, singing songs, and making crafts.

*Instructor, Nick Horner*

1-2

### Yoga for Kids

12:30/2:30 pm MTWTh

Learn basic poses, breathing techniques, and mindful movement to help relieve stress and develop confidence with yoga.

*Instructor, Lisa Swanson*

3-4

### Creative Jewelry Making

12:30-4 pm MT or WTh

Learn the techniques and tricks of the trade to create your own one-of-a-kind necklaces, bracelets, and earrings.

*Instructor, Jaqueline Varholik*

3-4

### Power of Popcorn

12:30-4 pm MT or WTh

Predict what makes popcorn pop, learn about the concept of volume, examine unpopped and popped kernels, and more.

*Instructor, Ellen Burkholder*

3-4

### Too Fit to Quit

**12:30-4 pm MT or WTh**  
Incorporate exercise and play into your daily routine in a fun exciting manner. Spend quality time outside with others.  
*Instructor, Baird Miller*

5-7

### Bridge the Gap

**12:30-4 pm MT or WTh**  
We'll look at bridges and the factors engineers must consider when building them. We will build our bridges using pasta and hot glue.  
*Instructor, John Purnell*

5-7

### Healthy Relationships

**12:30-4 pm WTh**  
You will learn how to think critically about dating and the qualities you think are important in a healthy relationship.  
*Instructor, Kendra Kaul*

5-7

### Mapping on Google Earth

**12:30-4 pm MT or WTh**  
Join this hands-on class and explore how land is measured, mapped, and analyzed while using modern technology tools.  
*Instructor, Ladd Nelson*

3-4

### Toys and Science

**12:30-4 pm MT or WTh**  
Amaze everyone by making simple toys that show scientific principles. All toys will be made from common materials that we all have.  
*Instructor, Amanda Trewin*

5-7

### Drab to Fab

**12:30-4 pm MT or WTh**  
Choose what item(s) of clothing you would like to transform from drab to fab. You will learn to turn last year's fad into this year's trend.  
*Instructor, Elizabeth Moellers*

5-7

### How Cell Phones Work

**12:30-4 pm MT or WTh**  
Explore the basic science behind cell phones using physics, electrical engineering, and mobile communications theory.  
*Instructor, Karland Killian*

5-7

### Miniature Gardening

**12:30-4 pm WTh**  
Plant and decorate two of your own container gardens to take home while learning about different kinds of gardens.  
*Instructor, Cathy Cornett*

5-7

### Ancient Egypt

**12:30-4 pm MT or WTh**  
Discover ancient Egypt as you learn about pyramids, mummies, pharaohs, gods and goddesses, and the daily life of those who lived then.  
*Instructor, Billie Friedman*

5-7

### First Aid Basics CPR/AED

**12:30-4 pm MT or WTh**  
Learn First Aid and CPR with hands-on practice using an AED. Great reference class for those who babysit.  
*Instructor, Roberta Buss*

5-7

### KidWind Challenge

**12:30-4 pm MT**  
Learn about wind turbines and the equipment used to produce electricity with a KidWind generator model.  
*Instructor, Richard Anderson*

5-7

### Paper Flower Folding

**12:30-4 pm MT or WTh**  
Learn the techniques of paper flower folding and create all kinds of beautiful flowers with tissue paper.  
*Instructor, Abena Lucie Kadjo*

6-7

### Beginning Woodturning

**12:30-4 pm MT or WTh**  
Learn the art and craft of woodturning by turning useful wooden objects. Turn a honey dipper, mallet, whirling top, and pen.  
*Instructor, Harry Nohr Woodturners*

6-7 ONLY

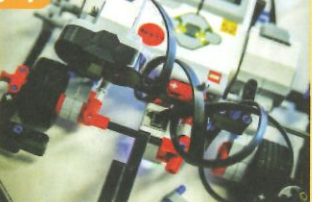

5-7

### Fun with Photography

**12:30-4 pm MT**  
Learn the basic steps in taking photos. All types of digital cameras/phones welcome. Bring your camera's cord and manual each day.  
*Instructor, Marie Whisenant*

5-7

### LEGO Robotics

**12:30-4 pm MT or WTh**  
Operate in two-person teams to create your own LEGO Mindstorms kit with a choice of at least four projects.  
*Instructor, Amanda Heisner*

5-7

### The Game of Life

**12:30-4 pm MT or WTh**  
Use games to make informed education, career, and life decisions. Develop personal finance and management skills.  
*Instructor, Ann Cooley*

3-4

### Too Fit to Quit

12:30-4 pm MT or WTh

Incorporate exercise and play into your daily routine in a fun exciting manner. Spend quality time outside with others.

*Instructor, Baird Miller*

5-7

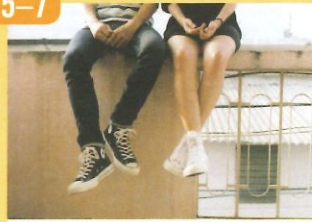

### Bridge the Gap

12:30-4 pm MT or WTh

We'll look at bridges and the factors engineers must consider when building them. We will build our bridges using pasta and hot glue.

*Instructor, John Purnell*

5-7

### Healthy Relationships
