

**The
Fayetteville
Public
Education
Foundation,
Inc.**

Dear Parents,

The Fayetteville School District has received additional funding from **The Fayetteville Public Education Foundation, Inc.** to provide eReaders for students to checkout and read eBooks and digital audio books from our district online library.

Students will have the opportunity to check out the Galaxy Tab 3 eReader device along with eBooks and digital audio books. These devices are small units (7 inches) that have internet access capability to allow users to download our digital library books. Students who checkout an eReader will need to provide their own earbuds. If a student does not have earbuds, the library can sell them a pair for \$1.00.

Each eReader device cost \$195 with the case. Students are allowed to check out the eReader device just as they would a regular library book; however, they must have this signed form giving them parental permission. **If any part of the eReader device is lost or damaged while checked out to a student, the student is responsible for the replacement cost.**

Parents are welcome to come view the eReader devices and the selection of eBooks and digital audio books materials. If you have any questions, please contact Danielle Champagne at 479-445-1073 during regular school hours or email at: danielle.champagne@fayar.net.
