

## **SEISMIC REHABILITATION STATUS REPORT**

SB 1566 (2012) amended ORS 329.105 to require all school districts and education service districts to notice the Oregon Department of Geology and Mineral Industries of any construction of new state-owned school buildings or modification of an existing state-owned school building in a manner that may affect the seismic risk category of a school in Oregon. South Wasco County School District is current and reported nothing new or modified in the 2013 Seismic Rehabilitation Status Report.
