

REQUEST FOR PROPOSALS - LOCKER ROOMS FIXTURES

Iberia R-V is accepting proposals for installation of new toilets, urinals and sinks in the boys and girls locker rooms. This request has been simplified to accommodate contractor creativity and experience, but all proposals will include any and all materials and labor needed to make the repairs/installation functional, attractive, and compatible with existing structures or systems in use in the district.

1. Total fixture count: Boys - 1 toilet, 1 urinal, 2 sinks; Girls - 2 toilets, 2 sinks
2. Proposals should include any and all costs associated with the project from demolition through installation.
3. Quality commercial products should be used. As a locker room, there is occasional rough use of the fixtures.
4. Tile and concrete will need to be demolished all the way to the concrete floor (all tile removed). The area will need refilled/finished with concrete when progress of the project allows it.
5. The current urinal is installed in the wall and floor. It will need to be replaced with a wall urinal. Some block work on the wall will be necessary.
6. The attached drawing shows approximate measurements for the addition. Minor modifications may be needed to accommodate the existing structures. Contractors are encouraged to make on-site visits to properly understand the scope of the project.
7. Do not include partitions in the proposal.
8. All proposals should include the names and models of the fixtures proposed. They cannot be of questionable quality.
9. We'd like to have this project completed as soon as possible, preferably before the start of the winter basketball season (Mid-November).
10. Only appropriately licensed, bonded, and insured contractors may be used on this project.

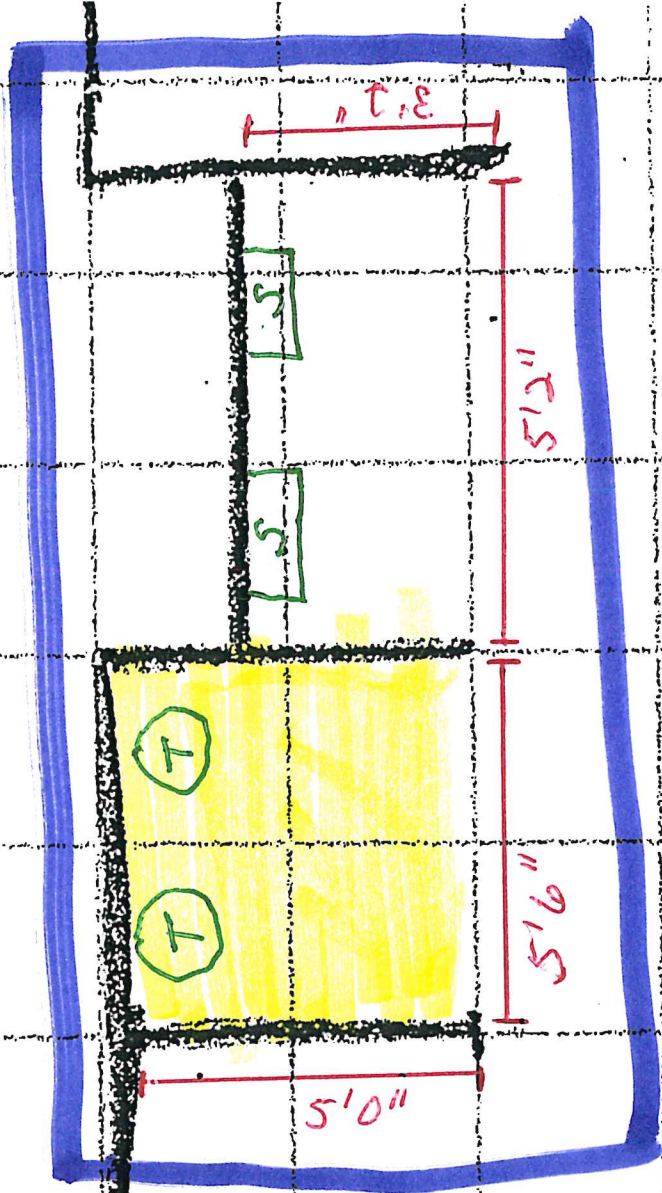

11. RFP's must be received in the Iberia R-V Central Office no later than 4 p.m. on Friday, October 21, 2022.

12. Questions should be directed to Lyndel Whittle, Superintendent - 573-793-6818, lyndelw@iberia.k12.mo.us
