### FOREWORD

As you began your life, many pathways lay before you. If you were fortunate, you selected wisely the ones which were desirable and led to worthwhile goals.

- ... Leaf through this book and let the memories draw you into the past. Re-evaluation of your life may come by seeing before your eyes the highlights of the year gone by.
- ...long crowded rides in buses singing and yelling until hoarse...
  The jubilant victories and tearful defeats...half-forgotten names of people...memories of people at parties across the room or close at hand in classes...
- ...only parts and bits of things that were unimportant...the endless puddles and lakes to walk through and classes to go to... problems to suffer with...papers to sweat over...
- ...gym suits and straight hair and rain...crowds pushing and hurrying in the halls...
- ...the fads and games and the promises never kept...the rings and medals and sweaters...the thinking that hurts and the constant battle with grades...the almost failures and the complete ones... And all else that was here.

These bits and snatches of memories have combined to make this year one we will long remember. With this, the yearbook staff presents the 1966 DIAMONDBACK.

### SUPERINTENDENT

Education is a most important source of human enrichment in our economic life. It increases our ability to enjoy more things, to be more creative, to live more richly and in greater harmony with our environment and our fellow men. Education produces better parents, neighbors and citizens. Due to education our nation has wise and better informed leadership. Education is a most necessary factor in these accelerated times.
