*Notes – February 2019*

**Revenue**

**1.01 General Property (Real Estate):** Advance property tax payments for the first half 2019 settlement in January and February, exceeded projections by 11%. This budget vs. actual variance is a 15% decrease from January. However, the increased revenue variance was temporary. By the date of this report, 3/25/19, we had received our final property tax payment for the fiscal year. Total amount received was approximately \$44,000 higher than projected for FY19.

**1.035 Unrestricted Grants-In-Aid:** We continue to exceed projections in the state foundation funding line. The budget vs. actual variance slightly decreased in February to 3.0%. Enrollment of resident students was projected to decline in FY19 based on historical trend. However, our average daily membership (ADM) has increased by 10.

**1.06 All Other Operating Revenue:** Interest revenue is the main reason revenue is exceeding projections in this line. To date, we have received \$6,500 more than projected for the entire fiscal year. Also on this line, we are seeing a decrease in the open enrollment revenue. In the elementary school, resident student enrollment increased along with a decrease in open enrolled students. Projections will be updated in the May forecast.

**2.06 All Other Financing Sources:** Revenue continues to exceed projections because of the large Medicaid reimbursement received earlier in the fiscal year.

**Expenditures**

**3.01 Personal Services:** Expenditures continue to trend less than projections. The budget vs. actual variance is 2.9%. We are on track to spend very close to projections for the fiscal year.

**3.02 Employee's Retirement/Insurance Benefits:** The budget vs. actual variance decreased from 2.4% over budget in January to 1.7% over budget in February. We are close to the projected expenditure on this line.

**3.03 Purchased Services:** Purchased services expenditures were 10.3% less than projected for the month of February, which is very close to the variance seen in January. We continue to see significant decreases in spending for students who attend community schools.
