Independent Auditor's Report

To the Board of Education of Galva-Holstein Community School District:

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Galva-Holstein Community School District, Holstein, Iowa, as of and for the year ended June 30, 2021, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Basis for Disclaimer of Opinion

The financial statements of the Galva-Holstein Community School District Foundation have not been audited, and I was not engaged to audit the Foundation financial statements as part of my audit of the Galva-Holstein Community School District's basic financial statements. The Foundation's financial statements are included in the District's financial statements as a discretely presented component unit. Because I was not engaged to audit the Foundation's financials statements and because I did not apply any auditing procedures to the Foundation's financial statements, I do not express an opinion on the discretely presented component unit.

Disclaimer of Opinion

Because the Foundation's financial statements have not been audited, the scope of my work was not sufficient to enable me to express, and I do not express, an opinion on the financial statements of the discretely presented component unit of the Galva-Holstein Community School District, as of and for the year ended June 30, 2021.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Galva-Holstein Community School District as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of a Matter

As discussed in Note 16 to the financial statements, Galva-Holstein Community School District adopted new accounting guidance related to Governmental Accounting Standards Board Statement No. 84, <u>Fiduciary Activities</u>. My opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions and the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes on pages 5 through 12 and 50 through 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. I have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for

consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Galva-Holstein Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the five years ended June 30, 2020 (which are not presented herein) and expressed unmodified opinions on those financial statements. The financial statements for the four years ended June 30, 2015 (which are not presented herein) were audited by other auditors who expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 8, including the Schedule of Expenditures of Federal Awards required by Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In my opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, I have also issued my report dated February 4, 2022 on my consideration of Galva-Holstein Community School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering Galva-Holstein Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Galva-Holstein Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2021. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2021 FINANCIAL HIGHLIGHTS

- The District implemented Governmental Accounting Standards Board Statement (GASBS) No. 84, <u>Fiduciary Activities</u>, during fiscal year 2021. Implementation of GASB Statement No. 84 did not result in any restatement to previously issued financial statements or beginning balances.
- General Fund revenues increased from \$6,524,017 in fiscal year 2020 to \$6,802,136 in fiscal year 2021, and General Fund expenditures increased from \$6,166,877 in fiscal year 2020 to \$6,406,677 in fiscal year 2021. The District's General Fund balance increased from \$2,979,108 at the end of fiscal year 2020 to \$3,374,567 at the end of fiscal year 2021, 13% increase.
- The fiscal year 2021 General Fund revenue increase was mostly attributable to an increase in federal funding. Federal sources experienced an increase of over \$258,000.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Galva-Holstein Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental and business type activities services were financed in the short term as well as what remains for future spending. Fund financial statements report Galva-Holstein Community School District's operations in more detail than the government-wide financial statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which Galva-Holstein Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes.

Supplementary Information provides detailed information about the nonmajor governmental and enterprise funds. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into three categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program and daycare program are included here.
- Component Unit: This includes the activities of the Galva-Holstein Community School District Foundation. The District receives significant financial benefits from the Foundation although they are legally separate entities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

1) Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities but provides more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and Daycare Fund.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

- 3) Fiduciary fund: The District is the trustee, or fiduciary, for assets that belong to others. This fund consists of a Private-Purpose Trust Fund.
 - Private-Purpose Trust Fund The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-1 below provides a summary of the District's net position at June 30, 2021 compared to June 30, 2020.

Figure A-1

			Condensed S	Statement of 1	Net Position

	<u>2021</u>	<u>2020</u>	2021	2020	2021	<u>2020</u>	2020-2021
Current and other assets	\$12,974,412	\$16,541,562	\$ 207,950	\$ 72,009	\$13,182,362	\$16,613,571	-20.65%
Capital assets	14,079,025	7,149,168	15,263	13,534	14,094,288	7,162,702	96.77%
Total assets	27,053,437	23,690,730	223,213	85,543	27,276,650	23,776,273	14.72%
Deferred outflows of resources	631,572	604.568	31,979	18,485	663,551	623,053	6.50%
Long-term liabilities	16,185,294	13,768,723	99,476	75,163	16,284,770	13,843,886	17.63%
Other liabilities	993,890	626,853	16,074	4,322	1,009,964	631,175	60.01%
Total liabilities	17,179,184	14,395,576	115,550	79,485	17,294,734	14,475,061	19.48%
Deferred inflows of resources	3,387,527	3,582,733	59,941	50,301	3,447,468	3,633,034	-5.11%
Net position							
Net investment in capital assets	2,016,955	4,101,790	15,263	13,534	2,032,218	4,115,324	-50.62%
Restricted	4,680,196	2,100,248			4,680,196	2,100,248	122.84%
Unrestricted	421,147	114,951	64,438	_(39,292)	485,585	75,659	541.81%
Total net position	\$ 7,118,298	\$ 6,316,989	\$ 79,701	\$(25,758)	\$ 7,197,999	\$ 6,291,231	14.41%

The District's total net position increased by 14%, or \$906,768, over the prior year due to the continued building projects in the District.

The largest portion of the District's net position is invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased \$2,579,948 or 123% over the prior year. This increase is due in large part to the increased cash from the 2nd portion of the GO bond sale which can only be used for project expenses and is thus restricted. There was also an increase in revenues from grants for COVID relief, which added to the restricted net position's increase.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased \$409,926, or 542%. This increase was primarily a result of a realignment of categorical funding to match salaries and other allowable expenditures.

Figure A-2 shows the changes in net position for the year ended June 30, 2021 compared to the year ended June 30, 2020.

Net position, end of year	\$ 7,118,298	\$ 6,316,989	\$ 79,701	\$ (25,758)	\$ 7,197,999	\$ 6,291,231	14.41%

In fiscal year 2021, property tax and unrestricted state grants account for approximately 60% of governmental activities revenues while charges for service and operating grants, contributions and restricted interest account for almost 100% of business type activities revenues. The District's total revenues were \$9,434,777, of which \$8,800,430 was for governmental activities and \$634,347 was for business type activities. The District's expenses primarily relate to instruction and support services, which account for approximately 80% of the total expenses.

As shown in figure A-2, the District as a whole experienced a 4% increase in revenues and a 6% increase in expenses. The increase in revenues resulted mainly from COVID relief in the District's business type activities which saw an increase of 128% in operating grants. Support service expenses increased over 15% mostly attributable to increases in supplies and equipment to mitigate the effects of COVID.

Governmental Activities

Revenues for governmental activities were \$8,800,430 and expenses were \$7,999,121 for the year ended June 30, 2021. This is an increase in revenues of 2% and an increase in expenses of 4%.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2021 compared to those expenses for the year ended June 30, 2020.

Figure A-3
Total and Net Cost of Governmental Activities

	Total	Cost of Servi	ces	Net	Net Cost of Services						
			Change			Change					
	2021	<u>2020</u>	2020-2021	2021	<u>2020</u>	2020-2021					
Instruction	\$ 4,654,222	\$ 4,526,219	2.8%	\$ 2,213,553	\$ 2,201,994	0.5%					
Support services	2,198,459	1,907,045	15.3%	1,821,892	1,640,086	11.1%					
Non-instructional programs	5,313	10,074	-47.3%	5,313	10,074	47.3%					
Other expenses	1,141,127	1,254,220	-9.0%	937,062	1,053,361	-11.0%					
Total expenses	\$ 7,999,121	\$ 7,697,558	3.9%	\$ 4,977,820	\$ 4,905,515	1.5%					

For the year ended June 30, 2021:

- The cost financed by users of the District's programs was \$1,623,786.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,397,515.
- The net cost of governmental activities was financed with \$3,938,377 of property and other taxes and \$1,765,629 of unrestricted state grants.

Business Type Activities

Revenues for business type activities during the year ended June 30, 2021 were \$634,347, representing an increase of approximately 49% over the prior year, while expenses totaled \$528,888, an increase of approximately 38% over the prior year. The District's business type activities include the School Nutrition Fund and a Daycare Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income. The increase in federal grants for both funds is the explanation for the increased revenues.

INDIVIDUAL FUND ANALYSIS

As previously noted, Galva-Holstein Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balances of \$8,343,593, significantly below last year's ending fund balances of \$12,407,260. This was due to the continued construction expenses associated with the District's building project.

Governmental Fund Highlights

- The District's General Fund financial position is the result of the District's expenditures being less than the District's revenues, therefore the District did not have to use carryover fund balance to meet its financial obligations during the year and was able to show an increase in fund balance of \$395,459.
- The Capital Projects Building Project Fund balances decreased by \$4,663,127, from \$7,621,362 in 2020 to \$2,958,235 in 2021. The decrease is due to the construction project nearing completion with the corresponding expenditures draining the fund.
- The Debt Service Fund balance increased by \$21,594 during the year, from \$18,527 in 2020 to \$40,121 in 2021. The amount levied exceeded the District's debt obligations resulting in an increased fund balance. Levying at the District's legal limit was deliberate in order to apply the surplus toward redeeming a portion of the outstanding GO bonds.

Proprietary Fund Highlights

Proprietary Fund net position increased from \$(25,758) at June 30, 2020 to \$79,701 at June 30, 2021 an increase of approximately 409%. The improvement in net position is reflected in the overall increased revenues in operating grants.

BUDGETARY HIGHLIGHTS

Over the course of the year, Galva-Holstein Community School District amended its budget one time to reflect additional expenditures due to the COVID pandemic and expedited progress on the construction project.

The District's total revenues were \$617,723 more than total budgeted revenues, a variance of approximately 7%. The largest variance in revenue came from anticipated federal sources versus the actual amount received. Free school lunches offered to all students as well as ESSER funding received resulted in the large change from the revenues budgeted.

Total expenditures were \$1,573,353 less than budgeted. Over 80% of the variance was due to a misestimate of construction expenses because of the unknown timing of the project's progress and associated expenditures.

In spite of the District's budgetary practice, the certified budget was exceeded in the non-instructional program as higher than anticipated expenses in food service were realized at the end of the fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2021, the District had invested \$14,094,288, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-4) More detailed information about the District's capital assets is presented in Note 4 to the financial statements. Depreciation expense for the year was \$384,035.

The original cost of the District's capital assets was \$24,003,382. Governmental funds account for \$23,858,043, with the remainder of \$145,339 accounted for in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the construction in progress category, which increased from \$1,662,490 at June 30, 2020 to \$8,705,703 at June 30, 2021. This increase was a result of the continuation of the building project started in 2018 with the bulk of the work and related expense occurring in FY21.

Long-Term Debt

At June 30, 2021 the District had \$16,284,770 in total long-term debt outstanding. This represents a increase of approximately 18% over last year. (See Figure A-5) Additional information about the District's long-term debt is presented in Note 5 to the financial statements.

The District bonds are not rated.

The Constitution of the State of Iowa limits the amount of debt school districts can issue to 5% of the assessed value of all taxable property within the District. The District's outstanding bonded and note indebtedness is significantly below its constitutional debt limit of approximately \$13.8 million.

In April 2019, the District's voters authorized the issuance of \$9,565,000 of general obligation bonds to pay for the remodeling of administrative offices. Planning for the project started in fiscal year 2018 and the bonds were sold in fiscal year 2020.

In December 2020, the District's voters authorized the issuance of \$2,720,000 of general obligation bonds to pay for the addition to the elementary/high school building. Planning for the project started in fiscal year 2019 and the bonds were sold in fiscal year 2021.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances which could significantly affect its financial health in the future:

- School financing is highly dependent upon student enrollment. The District's October 2020 total weighted
 enrollment showed a decrease of 3.842 which resulted in a slight decrease in funding for 2021-2022.
 The District, with an increasing unspent authorized budget, will concentrate on using the funds for nonrecurring expenses to benefit the students without compromising the District's future financial health.
- The District is in a one year 3.6% negotiated agreement with teachers.
- The District continues to be proactive regarding projects to maintain our buildings and grounds. Projects
 for the building and grounds in the 2020-2021 school year continued its focus mainly on the construction
 of the new industrial tech/agriculture education area, competitive gym and daycare space in Holstein
 which as ready for occupancy in the fall of 2021. In addition, the District replaced a couple of older
 vehicles, purchased new technology, and replaced major components in its HVAC systems.
- The District will begin its 12th year (2021-2022) of a whole grade sharing agreement involving grades 6-12 with the Schaller-Crestland Community School District. It will also continue the sharing of a superintendent, especially as the state continues the supplemental weightings for operational sharing.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Natalie Kliegl, District Secretary/Treasurer and Business Manager, Galva-Holstein Community School District, 519 East Maple Street, Holstein, IA 51025.

For the Year Ended June 30, 2021

Change in fund balances - total governmental funds

\$(4,063,667)

Exhibit F

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. These costs are not reported in the Statement of Activities, but they are allocated over the estimated useful lives of the capital assests as depreciation expense in the Statement of Activities. Depreciation expense and capital outlay expenditures in the current year are as follows:

Expenditures for capital assets	\$7,312,350	
Depreciation expense	(382,493)	6,929,857

Because some revenues will not be collected for several months after the year end, they are not considered available revenue and are recognized as deferred inflows of resources in the governmental funds.

20,762

Amortization of the premium on bond issuance did not provide current financial resources and, therefore, is not reported as revenue in the governmental funds. However, the annual amortization is reported as revenue in the Statement of Activities.

24,088

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year issuances and repayments are as follows:

Issued	(2,720,000)
Repaid	785,000 (1,935,000)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Compensated absences	(11,737)
Termination benefits	(51,857)
Pension expense	(438,867)
Other postemployment benefits	1,475 (500,986)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

(57)

The current year District IPERS contributions are reported as expenditures in the governmental funds but are reported as deferred outflows of resources in the Statement of Net Position.

GALVA-HOLSTEIN COMMUNITY SCHOOL DISTRICT Notes to Financial Statements June 30, 2021

Note 1. Summary of Significant Accounting Policies

Galva-Holstein Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. The geographic area served includes the Cities of Galva and Holstein, Iowa and the predominate agricultural territories in a portion of Ida, Cherokee, Buena Vista and Sac Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Galva-Holstein Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Galva-Holstein Community School District has one component unit which meets the Governmental Accounting Standards Board criteria. The Galva-Holstein Community School District Foundation is included in the financial statements as a discretely presented component unit, because of the nature and significance of its relationship with the Galva-Holstein Community School District.

Discretely Presented Component Unit

The Galva-Holstein Community School District Foundation was established to maintain, develop, increase and extend the facilities and services of the Galva-Holstein Community School District, and to provide broader educational service opportunities to its students, staff, faculty and the residents of the geographical area which it serves. The Foundation has a December 31 year-end. The Foundation does not produce separately prepared financial statements. In accordance with criteria set forth by the Governmental Accounting Standards Board, the Foundation meets the definition of a component unit which should be discretely presented. The Foundation is accounted for as a Governmental Fund in these financial statements. The Foundation financial statements are shown in the Statement of Net Position and the Statement of Activities in separate columns. As explained in the Independent Auditor's opinion, the Foundation financial statements have not been audited.

Jointly Governed Organizations

The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds and proprietary funds are aggregated and reported as nonmajor governmental funds and nonmajor proprietary funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects - Building Project Fund is used to account for all resources and expenditures used in the remodeling of the administration offices building project.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

The District reports no major proprietary funds; however, it reports two nonmajor proprietary funds. The District's School Nutrition Fund is used to account for the food service operations of the District and the Daycare Fund is used to account for the daycare operations of the District.

The District also reports a fiduciary fund which focuses on net position and changes in net position. The District's fiduciary fund consists of the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims, judgments and early retirement are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as

expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and</u> Fund Balance/Net Position

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Cash Equivalents and Pooled Investments</u> - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at amortized cost.

The Iowa Schools Joint Investment Trust is a common law trust established under Iowa law and is administered by an appointed investment management company. The fair value of the position in the trust is the same as the value of the shares.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is

required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is reported as a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2019 assessed property valuations; is for the tax accrual period July 1, 2020 through June 30, 2021 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2020.

<u>Due from Other Governments</u> - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> - Capital assets, which include property, furniture and equipment are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	<u>Amount</u>
Land	\$ 500
Buildings	\$30,000
Improvements other than buildings	\$30,000
Intangibles	\$30,000
Furniture and equipment:	
School Nutrition Fund equipment	\$ 500
Other furniture and equipment	\$ 1,000

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	<u>Useful Life</u>
Buildings	50 years
Improvements to buildings	5-20 years
Intangibles	3-20 years
Furniture and equipment	5-10 years

The District's collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

<u>Deferred Outflows of Resources</u> - Deferred outflows of resources represent a consumption of net position applicable to a future year(s) which will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense, the unamortized portion of the net difference between projected and actual earnings on pension plan investments and contributions from the District after the measurement date but before the end of the District's reporting period.

Compensated Absences - Certain District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only for employees who have resigned or retired. The compensated absence liability has been computed based on rates of pay in effect at June 30, 2021. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

<u>Termination Benefits</u> - District employees meeting certain requirements are eligible for early retirement benefits. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only for employees that have resigned or retired. The early retirement liability has been computed based on rates of pay in effect at June 30, 2021. The early retirement liability attributable to the governmental activities will be paid primarily from the Management Fund.

<u>Unearned Revenue</u> - Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches.

<u>Pensions</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid primarily by the General fund.

<u>Total OPEB Liability</u> - For purposes of measuring the total OPEB liability and OPEB expense, information has been determined based on the Galva-Holstein District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund.

<u>Deferred Inflows of Resources</u> - Deferred inflows of resources represent an acquisition of net position applicable to a future year(s) which will not be recognized as an inflow of resources

(revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the fund financial statements consist of property tax receivable and income surtax not collected within sixty days after year end and succeeding year property tax receivable that will not be recognized until the year for which it is levied.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivable that will not be recognized until the year for which it is levied, and unrecognized items not yet charged to pension expense.

<u>Long-term Liabilities</u> - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

<u>Fund Balance</u> - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in the preceding classification.

<u>Net Position</u> - In the district-wide Statement of Net Position, net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Net position restricted through enabling legislation includes \$384,251 for physical plant and equipment, \$45,292 for student activities, \$2,990,815 for school infrastructure and \$983,665 for management levy purposes.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2021, expenditures exceeded the amounts budgeted in the non-instructional programs functional area.

F. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Cash, Cash Equivalents and Pooled Investments

The District's deposits in banks at June 30, 2021 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2021, the District had investments in the Iowa Schools Joint Investment Diversified Portfolio which are valued at an amortized cost of \$749,517. There were no limitations or restrictions on withdrawals of the ISJIT investments. The investments in ISJIT were rated AAAm by Standard & Poor's Financial Services.

Credit Risk. This is the risk that a security's credit rating will be downgraded or that the issuer of a security or a guarantor will default (fail to make scheduled interest and principal payments or fail to fulfill its promise to repurchase securities). The investments in the ISJIT were rated AAAm by Standard & Poor's Financial Services. The District places no limit on the amount that may be invested in any one issuer.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72

Component Unit Investments - The Foundation had investments in mutual funds as follows:

Mutual funds \$409,562

Note 3. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2021 is as follows:

Transfer to	Transfer from	<u>Amount</u>
Major governmental	Non-major Capital Projects	
Debt Service	Statewide Sales, Service and Use Tax	\$ 206,560

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources. The transfer from the Statewide Sales, Services and Use Tax Fund to the Debt Service Fund was for principal and interest payments on debt.

Capital assets activity for the year ended June 30, 2021 was as follows:

Note 4. Capital Assets

	Balance,			Balance,

Totals	\$ 13,768,723	\$ 3,243,534	\$ 826,963	\$ 16,185,294	\$ 856,918
Business type activities					
Net pension liability	\$ 75,163	\$ 24,313	\$ -	\$ 99,476	\$ -

Interest costs incurred and charged to expense on all long-term debt was \$382,131 for the year ended June 30, 2021. During the year ended June 30, 2021, the District made principal payments on total long-term debt of \$785,000.

Termination Benefits

The District offered a voluntary early retirement plan to its full-time employees during fiscal year 2021. Eligible employees must have completed at least twenty years of continuous full-time contracted service to the Galva-Holstein Community School District and must have reached the age of fifty-five on or before June 30 of the calendar year in which early retirement commences. The application for early retirement benefits is subject to approval by the Board of Education.

Under the plan certified staff retirees are eligible to continue participation in the District's group insurance plan by meeting the requirements of the insurer. The District will pay no more than \$25,000 per year for three years towards the cost of the family insurance. The insurance coverage shall cease when the retiree reaches the age for Medicare eligibility, secures other employment in which the employer provides insurance coverage, or dies.

At June 30, 2021, the District had three retirees receiving benefits and reported \$117,457 of termination benefit liabilities. There were \$16,400 of early retirement expenditures for the year ended June 30, 2021 paid from the Management Fund.

Revenue Bonds

Details of the District's June 30, 2021 statewide sales, services and use tax revenue bonded indebtedness are as follows:

Year	Bond Issue of August 2013						
Ending	Interest						
June 30,	Rates	<u>P</u> 1	rincipal	<u>Ir</u>	terest		<u>Total</u>
2022	2.40%	\$	160,000	\$	47,935	\$	207,935
2023	2.60%		165,000		43,870		208,870
2024	2.80%		170,000		39,345		209,345
2025	2.95%		175,000		34,384		209,384
2026	3.20%		180,000		28,922		208,922
2027-2030	3.30-3.55%		760,000		53,359		813,359
Totals		\$	1,610,000	\$	247,815	\$	1,857,815

The District has pledged future statewide sales, services and use tax revenues to repay the \$2,590,000 bonds issued August 2013. The bonds were issued for the purpose of financing a portion of the costs of a new school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require approximately 45% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$1,857,815 at June 30, 2021. For the current year, \$155,000 of principal and \$51,560 of interest was paid on the bonds. Total statewide sales, services and use tax revenues were \$453,398 for the year ended June 30, 2021.

General Obligation Bonds

Year

Details of the District's June 30, 2021 general obligation indebtedness are as follows:

On July 1, 2019, the District issued \$9,565,000 of general obligation bonds for remodeling of the administrative offices. The bonds bear interest at rates ranging from 3.0-5.0% per annum. During the year ended June 30, 2021, principal and interest paid were \$360,000 and \$308,300, respectively.

On December 1, 2020, the District issued \$2,720,000 of general obligation bonds to complete an addition to the elementary/high school building. The bonds bear interest at rates ranging from 1.55-2.0% per annum. During the year ended June 30, 2021, principal and interest paid were \$270,000 and \$22,272, respectively.

Note 6. Pension Plan

<u>Plan Description</u> - IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with

pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

<u>Pension Benefits</u> - A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

<u>Disability and Death Benefits</u> - A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

<u>Contributions</u> - Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization

period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2021, pursuant to the required rate, Regular members contributed 6.29% of covered payroll and the District contributed 9.44% of covered payroll, for a total rate of 15.73%.

The District's contributions to IPERS for the year ended June 30, 2021 totaled \$329,381.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2021, the District reported a liability of \$2,975,319 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2020, the District's proportion was 0.042652%, which was a decrease of 0.000361 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$112,555. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 3,287	\$ 70,523
Changes of assumptions	152,722	_
Net difference between projected and actual		
earnings on IPERS' investments	167,260	_
Changes in proportion and differences between District		
contributions and the District's proportionate share of contributions	10,901	28,645
District contributions subsequent to the measurement date	329,381	
Total	\$ 663,551	\$ 99,168

\$329,381 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	
Ending	
<u>June 30,</u>	<u>Amount</u>
2022	\$ 39,285
2023	55,497
2024	51,959
2025	91,135
2026	(2,874)
Total	\$235,002

There were no non-employer contributing entities to IPERS.

<u>Actuarial Assumptions</u> - The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement.

Rate of inflation	2.60% per annum.
(effective June 30, 2017)	
Rates of salary increase	3.25 to 16.25%, average, including inflation.
(effective June 30, 2017)	Rates vary by membership group.
Long-term investment rate of return	7.00 %, compounded annually, net of investment
(effective June 30, 2017)	expense, including inflation.
Wage growth	3.25% per annum, based on 2.60% inflation
(effective June 30, 2017)	and 0.65% real wage inflation.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018.

Mortality rates used in the 2020 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Asset	Long-term Expected
Asset Class	Allocation	Real Rate of Return
Domestic equity	22.0%	4.43%
International equity	17.5	5.15
Global smart beta equity	6.0	4.87
Core plus fixed income	28.0	(0.29)
Public credit	4.0	2.29
Cash	1.0	(0.78)
Private equity	11.0	6.54
Private real assets	7.5	4.48 ·
Private credit	3.0	3.11
Total	100.0%	

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
District's proportionate share of			
the net pension liability	\$4,961,093	\$2,975,319	\$1,310,278

<u>IPERS' Fiduciary Net Position</u> - Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at <u>www.ipers.org</u>.

<u>Payables to IPERS</u> - At June 30, 2021, the District reported no payables to IPERS for legally required District contributions or for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

Note 7. Other Postemployment Benefits (OPEB)

<u>Plan Description</u> - The District administers a single-employer benefit plan which provides medical and prescription drug benefits for employees, retirees, and their spouses. Group insurance benefits are established under Iowa Code Chapter 509A.13. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

<u>OPEB Benefits</u> - Individuals who are employed by Galva-Holstein District and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical and prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Retired participants must be age 55 or older at retirement. At June 30, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	3
Active employees	<u>45</u>
Total	<u>58</u>

<u>Total OPEB Liability</u> - The District's total OPEB liability of \$140,995 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

<u>Actuarial Assumptions</u> - The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and the entry age normal actuarial cost method, applied to all periods included in the measurement.

Rate of inflation	2.75% per annum.
(effective June 30, 2021)	
Rates of salary increase	0%, OPEB directly determined by
(effective June 30, 2021)	years of service, not salary
Discount rate	3.15% compounded annually,
(effective June 30, 2021)	including inflation.
Healthcare cost trend rate	6.0% per annum
(effective June 30, 2021)	

<u>Discount Rate</u> - The discount rate used to measure the total OPEB liability was 3.15% which reflects the index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

Mortality rates are from the SOA RPH-2019 total dataset mortality table fully generational using Scale MP-2019. Annual retirement probabilities are based on varying rates by age and turnover probabilities mirror those used by IPERS.

Changes in the Total OPEB Liability

	Total OPEB Liability
Total OPEB liability beginning of year	\$ 142,470
Changes for the year:	
Service cost	11,767
Interest	4,812
Differences between expected	
and actual experiences	
Recognition of deferred inflows/outflows	(14,376)
Benefit payments	(3,678)
Net changes	(1,475)
Total OPEB liability end of year	\$ 140,995

Changes of assumptions reflect no change in the discount rate from 3.15% in fiscal year 2020.

<u>Sensitivity of the District's Total OPEB Liability to Changes in the Discount Rate</u> - The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1% lower (2.15%) or 1% higher (4.15%) than the current discount rate.

	1% Decrease	Discount Rate	1% Increase
	(2.15%)	(3.15%)	(4.15%)
Total OPEB liability	\$152,133	\$140,995	\$130,962

Sensitivity of the District's Total OPEB Liability to Changes in the Healthcare Cost Trend Rates - The following presents the total OPEB liability of the District as what the District's total OPEB liability would be it were calculated using healthcare cost trend rates that are 1% lower (5.0%) or 1% higher (7.0%) than the current healthcare cost trend rates.

	1% Decrease	Healthcare Cost Trend	1% Increase
	(5.0%)	Rate (6.0%)	(7.0%)
Total OPEB liability	\$125,195	\$140,995	\$159,702

OPEB Expense and Deferred Outflows of Resources Related to OPEB - For the year ended June 30, 2021, the District recognized OPEB benefit of \$1,475. At June 30, 2021, the District reported no deferred inflows or outflows of resources related to OPEB.

Note 8. Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$204,065 for the year ended June 30, 2021 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

Note 10. Contingencies

Grant Funding - The District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants were subjected to local audit but still remain open to audit by the appropriate grantor government. If expenditures are disallowed by the grantor government due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2021, significant amounts of grant expenditures have not been audited by granting authorities but the District believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

Note 11. Categorical Funding

In accordance with Iowa Administrative Code Section 98.1, categorical funding is financial support from the state and federal governments targeted for particular categories of students, special programs, or special purposes. This support is in addition to school district or area education agency general purpose revenue, for purposes beyond the basic educational program and most often has restrictions on its use. Any portion of categorical funding provided by the

state that is not expended by the end of the fiscal year must be carried forward as a restricted fund balance.

The following is a schedule of the categorical funding restricted in the General Fund at June 30, 2021.

Program	Amount
Gifted and talented	\$ 45,799
Teacher leadership	59,762
Preschool fund balance	73,189
Teacher salary supplement	54,707
Early literacy	16,109
Educator quality, professional development	 26,607
	\$ 276,173

Note 12. Deficit Net Position

The District's Enterprise Fund - Daycare Fund had negative unrestricted net position and total net position of \$2,290 at June 30, 2021.

Note 13. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Tax Abatements of Other Entities

Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2021 under agreements entered into by the following entities:

Entity	Tax Abatement Program	Amount of Tax Abated
Ida County	Economic development projects	\$ 3,663
Ida County	Urban revitalization projects	64,942

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2021, this reimbursement amounted to \$0.

Note 14. Prospective Accounting Change

Governmental Accounting Standards Board has issued Statement No. 87, <u>Leases</u>. This statement will be implemented for the fiscal year ending June 30, 2022. The revised requirements of this statement will require reporting of certain potentially significant lease liabilities that are not currently reported.

Note 15, COVID-19

In March 2020, the COVID-19 outbreak was declared a global pandemic. The disruption to businesses across a range of industries in the United States continues to evolve. The full impact to local, regional and national economies, including that of Galva-Holstein Community School District, remains uncertain.

To date, the outbreak has not created a material disruption to the operations of Galva-Holstein Community School District. However, the extent of the financial impact of COVID-19 will depend on future developments, including the spread of the virus, duration and timing of the economic recovery. Due to these uncertainties, management cannot reasonably estimate the potential impact to Galva-Holstein Community School District.

Note 16. Accounting Change/Restatement

Governmental Accounting Standards Board has issued Statement No. 84, <u>Fiduciary Activities</u>, was implemented during fiscal year 2021. The new requirements change the definition of fiduciary activity and establish new financial reporting requirements for state and local governments which report fiduciary activity. Implementation of GASB Statement No. 84 did not result in any restatement to previously issued financial statements or beginning balances.

Note 17. Construction Commitment

The District entered into contracts totaling \$10,126,892 for the remodeling of the central business office and addition to the elementary/high school building. As of June 30, 2021, costs of \$9,548,962 had been incurred against the contracts. The balance of \$577,930 remaining at June 30, 2021 will be paid as work on the project progresses.

Note 18. Subsequent Events

The District has evaluated subsequent events through February 4, 2022 which is the date that the financial statements were available to be issued.

GALVA-HOLSTEIN COMMUNITY SCHOOL DISTRICT Notes to Required Supplementary Information – Budgetary Reporting For the Year Ended June 30, 2021

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$4,333,966.

During the year ended June 30, 2021, expenditures in the non-instructional program function exceeded the amount budgeted.

GALVA-HOLSTEIN COMMUNITY SCHOOL DISTRICT Notes to Required Supplementary Information – Pension Liability For the Year Ended June 30, 2021

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL (unfunded actuarial liability) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

<u>Basis of Presentation</u> - The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activity of Galva-Holstein Community School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2, U.S. <u>Code of Federal Regulations</u>, Part 200, <u>Uniform Administrative Requirements</u>, <u>Cost Principles and Audit Requirements for Federal Awards</u> (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Galva-Holstein Community School District, it is not intended to and does not present the financial position, changes in financial position or cash flows of Galva-Holstein Community School District.

<u>Summary of Significant Accounting Policies</u> - Expenditures reported in the Schedule are reported on the accrual or modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

<u>Indirect Cost Rate</u> - Galva-Holstein Community School District uses a federally negotiated indirect cost rate as allowed under the Uniform Guidance.

Subrecipients - There were no awards passed through to subrecipients by Galva-Holstein Community School District.

Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of Galva-Holstein Community School District:

I have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Galva-Holstein Community School District as of and for the year ended June 30, 2021, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, and have issued my report thereon dated February 4, 2022. I did not issue an opinion on the Galva-Holstein Community School District Foundation, which is included in the District's financial statements as a discretely presented component unit, because I was not engaged to and did not audit the Foundation. Except as discussed in the preceding sentence, I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Governmental Auditing Standards</u>, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered Galva-Holstein Community School District's internal control over financial reporting as a basis for designing audit procedures appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Galva-Holstein Community School District's internal control. Accordingly, I do not express an opinion on the effectiveness of Galva-Holstein Community School District's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, I identified a certain deficiency in internal control I consider to be a material weakness.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. I consider the deficiency described in Part II of the accompanying Schedule of Findings and Questioned Costs as item 2021-001 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Galva-Holstein Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance or other matters which are required to be reported under <u>Government Auditing Standards</u>. However, I noted certain immaterial instances of non-compliance or other matters which are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2021 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Galva-Holstein Community School District's Responses to the Findings

Galva-Holstein Community School District's responses to the findings identified in my audit are described in the accompanying Schedule of Findings and Questioned Costs. Galva-Holstein Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I would like to acknowledge the many courtesies and assistance extended to me by personnel of Galva-Holstein Community School District during the course of my audit.

Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance
for Each Major Federal Program and on Internal Control over Compliance
Required by the Uniform Guidance

To the Board of Education of Galva-Holstein Community School District:

Report on Compliance for Each Major Federal Program

I have audited Galva-Holstein Community School District's compliance with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021. Galva-Holstein Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of Galva-Holstein Community School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States, and the audit requirements of Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Galva-Holstein Community School District's compliance with those requirements and performing such other procedures I consider necessary in the circumstances.

I believe my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of Galva-Holstein Community School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Galva-Holstein Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

The management of Galva-Holstein Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered Galva-Holstein Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Galva-Holstein Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. I identified a deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item 2021-002 I consider to be a material weakness.

Galva-Holstein Community School District's response to internal control over compliance finding identified in my audit is described in the accompanying Schedule of findings and Questioned Costs. Galva-Holstein Community School District's response was not subjected to the auditing procedures applied in the audit of the compliance and, accordingly, I express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

GALVA-HOLSTEIN COMMUNITY SCHOOL DISTRICT Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

Part II: Findings Related to the Financial Statements

INTERNAL CONTROL DEFICIENCY

MATERIAL WEAKNESS 2021-001 Segregation of Duties

Criteria - Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the District's financial statements.

Condition - I noted that the same individual performed the following duties: recording and processing of cash receipts, preparing checks and bank reconciliations, preparation of journals and general financial information for ledger posting, and the analysis of financial information.

Cause - The limited number of accounting personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Identification of a Repeat Finding - This is a repeat finding from the immediate previous audit, 2020-001.

Effect - Inadequate segregation of duties could adversely affect the District's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation - I realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances utilizing currently available staff, including elected officials, to provide additional controls through review of financial transactions, reconciliations and reports. These independent reviews should be documented by the signature or initials of the reviewer and the date of the review.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

View of Responsible Officials and Planned Corrective Action - We will review our procedures and implement changes to improve internal control, as we deem necessary.

INSTANCES OF NON-COMPLIANCE

No matters were noted.

Part III: Findings and Questioned Costs for Federal Awards

INSTANCES OF NON-COMPLIANCE

No matters were noted.

INTERNAL CONTROL DEFICIENCY:

FAL Number 10.555: National School Lunch Program

FAL Number 10.555: COVID-19 - National School Lunch Program

FAL Number 10.559: COVID-19 - Summer Food Service Program for Children

Pass-through Entity Identifying Number: N/A

Federal Award Year: 2021

Prior Year Finding Number: N/A U.S. Department of Agriculture

Passed through the Iowa Department of Education

MATERIAL WEAKNESS

2021-002 <u>Segregation of Duties</u> - The District did not properly segregated custody, record-keeping and reconciling functions for revenues and expenditures, including those related to federal programs. See 2021-001.

Part IV. Other Findings Related to Required Statutory Reporting

1. Certified Budget - Expenditures for the year ended June 30, 2021 exceeded the amount budgeted in the non-instructional programs function.

Recommendation - The certified budget should have been amended to a sufficient amount in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - This was due to increased personnel, equipment and supplies costs associated with the COVID-19 shutdown. Future budgets will be amended in sufficient amounts to ensure the certified budget for all functions are not exceeded.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

Conclusion - Response accepted.

- 2. Questionable Expenditures No expenditures were noted that I believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- Travel Expense No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- 4. Business Transactions No business transactions between the District and District officials or employees were noted.
- 5. Restricted Donor Activity No transactions were noted between the District, District officials or District employees and restricted donors in compliance with Chapter 68B of the Code of Iowa.
- 6. Bond Coverage Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.
- 7. Board Minutes I noted no transactions requiring Board approval which had not been approved by the Board.
- 8. Certified Enrollment Variances in the basic enrollment data certified to the Iowa Department of Education were noted. There were 4 students on the count that should not have been included 3 students were wards of the state and 1 student was not enrolled in the District. There were 3 resident students that were not included on the count reported to the State. The net result was that the resident students reported to the Iowa Department of Education was overstated by a net of 1 student.

Recommendation - The District should contact the Iowa Department of Education and Iowa Department of Management to resolve this issue.

Response - We have contacted the Iowa Department of Education and the Iowa Department of Management, as recommended. Conclusion - Response accepted.

- 9. Supplementary Weighting No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- 10. Deposits and Investments No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

- 11. Certified Annual Reports The Certified Annual Report was certified timely to the Iowa Department of Education.
- 12. Categorical Funding No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- 13. Statewide Sales, Services and Use Tax No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2021, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 429,817
Revenues		
Statewide sales, services and use tax	\$ 453,398	
Interest earned	 1,430	454,828
Expenditures/transfers out		
School infrastructure		
Building improvements	\$ 43,870	
Equipment	23,705	
Debt service for school infrastructure		
Revenue debt	206,560	274,135
Ending balance		\$ 610,510

For the year ended June 30, 2021, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

14. Deficit Net Position - The District's Enterprise - Daycare Fund had a negative unrestricted and total net position of \$2,290 at June 30, 2021.

Recommendation - The District should continue to monitor this fund and investigate alternatives to eliminate this deficit in order to return the fund to a sound financial condition.

Response - This deficit was a result of adopting GASB Statement No. 68 during the year ended June 30, 2016. We will review the situation and implement changes, as needed.

Conclusion - Response accepted.

GALVA-HOLSTEIN COMMUNITY SCHOOL DISTRICT Audit Staff June 30, 2021
