All schools/buildings in Regional School Unit 1 have been inspected for the presence of Asbestos Containing Building Materials (ACBM's). A written plan for the management has been developed. This plan noting the type and location of ACBM's is available for inspection at the office of the Superintendent and in each Principal's office. Copies may be made on request for a cost of 10¢ per page.

The management plan is an outline of operational procedures designed for the proper maintenance and safety of all people who work, study, or are otherwise present in any of these buildings to minimize the exposure to asbestos hazards.

The condition of all ACBM's will be semi-annually subject to surveillance.

The following inspections and maintenance activities occurred during the past year:

The following activities are planned for the upcoming year:
