

Welcome to San Juan School

**Our school is Kindergarten-8th grade with a
Dual Language Immersion Program.**

We are the Home of the Padres!

We are surrounded by early California history and rich agricultural land that helps to define our school and community.

Our mission statement:

San Juan School is committed to building a positive future through academic and personal excellence.

Our vision statement:

Minds on a Mission

Dear San Juan School parents,

Welcome to the 2018-2019 school year, and thank you for supporting San Juan School. We are preparing for a productive new year of learning and growing at San Juan Elementary School! I am honored to be the leader of our outstanding teachers and staff at San Juan School, and I look forward to deepening my connection with each student and parent in our San Juan family.

Our first day of school will be August 16. Breakfast is provided free to all students daily from 7:30 – 8:00 in the café. I strongly recommend following our suggested school attire, including athletic shoes (no heels or sandals), which allow your child to be active and safe. Padre spirit wear, available from the Home and School Club, is also encouraged, especially on Wednesdays, our school spirit days.

Class lists will be posted in the school office on 8/15. We will welcome back many of our veteran all-star teachers this year, and through strategic hiring, will start the year with a full staff of highly skilled teachers. Each new teacher was selected for their strengths and for the contributions they can make to our students. Please join me in welcoming our new teachers to San Juan School:

Ms. Perez	3 rd Dual Immersion
Ms. Hohl	RSP
Mr. Samuels	Intervention teacher
Mr. Shankle	Special Day Class (SDC)

Our mission is to partner with you to ensure a high-quality education for every student, through 21st century teaching and learning, using high-impact curriculum and educational strategies. To maximize your child's learning, please make sure they attend school every day, arriving on time and staying the full day. You may want to enroll your child in our after-school program, where students can get additional academic support. Your child's education is our priority.

Respectfully,

Elizabeth Cord, Ed.D.
Principal
