

Today's educators shape tomorrows leaders. How will you help shape the future generations?

Pathway Description:

The education pathway provides orientation and background for future teachers by introducing them to the demands and standards of the profession. Students in the pathway will be given guidance to make helpful decisions about entering the teaching field.

All students should be aware that the requirements of transfer institutions vary and that the standards of the Iowa Department of Education specify differing preparations for elementary and secondary school teachers.

Key Competencies:

- Understand the challenges & issues in education today
- Understand school organization, funding, curriculum, professionalism, legal issues, effective teacher characteristics
- Develop interpersonal & intergroup relation skills
- Understand the techniques of coaching, sports psychology, anatomy, and injury prevention
